***For professional care, a year is a long time.
A lot can change and many things can happen...***

What about sixteen years? Although it has been such a long time, I remember perfectly well the first cosmetics that started everything. First formulas, first tests and packaging design. First failures and first successes. Naturally, it is not difficult to see the difference between the cosmetics from the beginning of our operations and those that are present in your beauty salon today. The development of cosmetology, supported by discoveries in the field of biology and medicine, is progressing extremely fast. It is a great opportunity for every brand; however, it is also a great challenge.

Today's work on new series looks entirely different and involves a much bigger team of people with more resources, including the knowledge. These are the requirements for delivering top quality products. And this is exactly what is inscribed in our brand DNA. The idea of creating the best professional cosmetics – innovative, effective, always based on the combination of nature with the latest technological solutions. We have been following this idea for 16 years.

Thank you for being with us. Thank you for your trust and for letting us support your successes and professional aspirations. Thank you for being a source of inspiration, which motivates us to continuous improvement.

Jacek Bielenda

Vice-President of the Management Board of Bielenda Natural Cosmetics

Managing Director of Bielenda Professional

The division into three categories of treatments makes it easy to find the information about the lines that you know, as well as those that can certainly be of interest to you. Or the lines that can expand the offer of your beauty parlour and make it more attractive. At the same time, the division proposed by us allows you to get to know the procedures that epitomise modern specialised treatment therapies. They allow to significantly develop skills and gain trust of new clients. We want you to perceive the Bielenda Professional brand as a partner offering a wide spectrum of cosmetology solutions that enable constant development and build an above-standard offer of your beauty parlour.

Our flagship, most advanced group of treatments is the **Med Technology** series. It is a real alternative to invasive aesthetic solutions. It features innovative, selected active ingredients, modern procedures and spectacular effects. They are the crème de la crème of our offer.

In the group of **Premium** treatments we placed lines that represent the latest trends in professional skin care. You will find here the best solutions offered by modern cosmetology. It is also a group of treatments that allow you to go beyond the standard of the traditional procedure and offer the client something new, often surprising.

And finally, the third, classic group of treatments and individual cosmetics - **Essential**. It consists of lines and preparations that have been available in our offer for many years. Appreciated, tested in hundreds of treatments, supporting and extending advanced therapies and allowing to perform basic care procedures. We also develop and expand this category strongly, which is why we would like to draw your attention to new products and new generations of well-known and valued cosmetics.

TREATMENT SETS

ACID FUSION 3.0

new generation skin restructuring treatment

INDICATIONS

- discolorations of various origin
- uneven skin tone
- small wrinkles
- uneven skin texture
- excessive sebum secretion
- acne

SET CONTAINS:

- 5 x 3 g Gentle Face Cleansing Powder
- 5 x 2 ml Acid Fusion Hyal-Gel Face Mask Step 1
- 5 x 4 g Acid Fusion Cream Face Mask Step 2
- 5 x Client Charter

Index: 137620

RETI-POWER² VC

advanced exfoliating treatment with Retinol and Vitamin C

INDICATIONS

- for all skin types, particularly for mature skin with discolorations and/or acne
- uneven structure of the skin
- small wrinkles

5 TREATMENTS SET

Set contains:

- 5 x 5ml Reti-Power2 VC Mask
- 5 x 1g Reti-Power2 Vitamin C
- 1 x Syringe
- 5 x Client Charter

Index: 137476

FERUL-X

Depigmentation, brightening & anti-aging treatment

INDICATIONS

- discolorations
- uneven tone and structure of the skin
- grey, tired, dull skin

SET CONTAINS:

- 5 x Pre Acid Gel Face Mask Step 1
- 5 x Ferulic Acid Face Mask Step 2
- 5 x TXA Cream Face Mask Step 3

Index: 137621

MICROBIOME PRO CARE

Balancing and protecting face treatment

INDICATIONS

- problematic, dysfunctional skin
- dry, sensitive, irritated skin
- skin weakened by aggressive treatments
- lack of balance of skin microbiota

SET CONTAINS:

- 5 x Silky Smooth Face Massage Powder
- 5 x Multiactive Balancing and Protecting Face Concentrate
- 5 x Balancing and Protecting Sheet Face Mask

Index: 200970

ESSENCE OF ASIA

glow restoring treatment inspired by Asian Beauty Rituals

INDICATIONS

- tired, dull skin, devoid of glow
- wrinkles, lack of skin firmness
- skin exposed to harmful external factors, including free radicals
- skin affected by premature aging and oxidative stress
- smoker's skin

SET CONTAINS:

- 1 x Smoothing Powder Face Scrub , 100 g
- 1 x 2in1 Glow Restoring Face Massage Multi-Concentrate, 145 g
- 5 x Tightening Glow Restoring Sheet Mask, 25 g
- 1 x Glow Restoring Revitalizing Face Cream SPF 20, 50 ml
- 1 x original Essence of Asia massage instruction DVD

Index: 200907

POWER OF NATURE

detoxifying - regenerating treatment

INDICATIONS

- dull, anoxic skin with impurities frequently exposed to deteriorating urban elements
- skin in need of regeneration, after intensive exfoliation and/or aesthetic medicine procedures, also with special equipment
- irritated, ageing skin; skin with acne and/or acne scars

SET CONTAINS:

- 1 x Magnetic - Enzymatic Face Scrub, 150 g
- 1 x Creamy Regenerating and Nourishing Face Mask, 150 ml
- 1 x Rebuilding Repair Face Serum with Snail Slime Extract, 30 ml
- 1 x Regenerating Face Cream with Snail Slime Extract SPF 15, 50 ml
- 1 x Magnet
- 1 x Head Band
- 5 x Cream sample

Index: 200806

INDICATIONS

• skin discolourations of various origin • gray, tired skin, with the need to brighten or even out the color • fine wrinkles • uneven skin structure • aging skin • lack of elasticity and firmness of the skin • skin with imperfections

ACTION

• brightening of discoloration of various origins • evening out skin tone, brightening • rejuvenation, elasticity and firmness of the skin • smoothing, reduction of imperfections • revitalization, soothing, strengthening

CONTRAINDICATIONS

• pregnancy, breast-feeding • allergies to any ingredient contained in the formulations used in the treatment • active herpes • tendency to develop keloids • bacterial, viral, fungal, and autoimmune diseases of the skin • severe forms of acne • use of retinoids or recent use of retinoids (up to 6 months) • recent (up to 6 months) surgery within the treated area • recent (up to 6 months) cryotherapy treatment • numerous melanocytic nevus • numerous dilated capillaries • severe systemic diseases • freshly tanned skin • sun exposure • damage and irritation of the skin • thinning of the epidermis • freshly shaved / depilated skin

ADVANTAGES / BENEFITS

• year-round treatment • no intense exfoliation • effects visible after the first treatment

NOTES

• prior to performing the treatment, it is necessary to exclude any contraindications and to sign the Client Consent (supplied with each treatment kit) • professional training is mandatory

1 | 2

Remove make-up thoroughly from the area covered by the treatment with Bielenda Professional products matching the type and needs of the client's skin (the full offer of make-up removal products is available at the end of the catalogue in the section: „Make-up removal“).

Apply Pre Acid Gel Face Mask Step 1 onto the treatment area and massage carefully. Leave to absorb (approx. 10 min). DO NOT RINSE!

3 | 4

Apply the content of the ampoule Ferulic Acid Face Mask Step 2 onto the treatment area and massage gently. DO NOT RINSE!

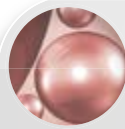

Apply the content of the sachet TXA Cream Face Mask Step 3 onto the treatment area. Massage and leave to absorb. DO NOT RINSE! Leave all products on the skin for approx. 7 hours. IMPORTANT! All masks must be applied in the disposable gloves.

TREATMENT PROCEDURE

5

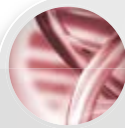

DEPIGMENTATION, BRIGHTENING & ANTI-AGING TREATMENT

MAIN ACTIVE INGREDIENTS

FERULIC ACID

It is a stronger antioxidant than vitamin C. It slows down skin ageing processes resulting from exposure to adverse external factors, such as: UV radiation, smog, stress, stimulants, unhealthy diet. It brightens skin discolourations and by controlling the tyrosinase activity prevents new pigmentation changes. It moisturises the skin, stimulates the synthesis of collagen and elastin.

TRANEXAMIC ACID

It effectively brightens skin discoloration caused by hormonal changes, exposure to sunlight, inflammation, and drugs. It inhibits the plasminogen activation system, blocking the secretion and accumulation of melanin in the skin. It is gentle and safe for all skin types, even sensitive. It soothes inflammation, reduces redness, helps to prevent rosacea.

VITAMIN C

It is strong antioxidant. It stimulates collagen production, protects against photoageing, refreshes, strengthens and regenerates the skin. It evens out skin tone, reduces pigmentation disorders.

EXPERT ADVICE

Paulina Skóra - *Cosmetologist, skincare expert, consultant in the field of cosmetic ingredients, Beautician of the Year 2016.*

Ferulic acid is a very strong antioxidant, it quickly brightens and refreshes the skin. At the same time, it is very gentle - it does not irritate or peel, it is also perfect for sensitive skin. Bielenda Professional decided to combine ferulic acid with a new discovery - tranexamic acid. Tranexamic acid is used to lighten discoloration and strengthen blood vessels. It is also very gentle and can be successfully used by people with oversensitive skin.

RECOMMENDATIONS

Mask leave-on time is approximately 7 hours; the exact leave-on time of the mask shall be determined by a trained specialist performing the treatment; a treatment cycle shall consist of 1-7 treatments performed every 7 days; the details are decided by a trained specialist who performs the procedure.

Treatment continuation at home:

After the time specified by the professional performing the treatment has elapsed, wash off the mask using the Delicate Face Cleansing Emulsion and clean, lukewarm water. Everyday post-treatment home care:

1. SKIN CLEANSING - Delicate Face Cleansing Emulsion from the FERUL-X line.
2. SKIN CARE - in the morning and in the evening, Antioxidant Moisturizing & Calming Face Cream from the FERUL-X line. It is important to ensure UV protection using High Protection Face Cream SPF 50+ & PA ++.

PRODUCTS FOR THE TREATMENT FACE CARE

PRE ACID GEL FACE MASK STEP 1

Intended for: discoloration, tired skin, in need of brightening and evening out the color, fine wrinkles, uneven skin structure, lack of skin elasticity and firmness, imperfections.

Active ingredients:

Mandelic Acid, Lactobionic Acid, Lactic Acid, Ferulic Acid, Tranexamic Acid.

Action:

- prepares the skin for the treatment
- smoothes the skin structure.

Capacity: 3 g

Yield: 1 treatment

FERULIC ACID FACE MASK STEP 2

Intended for: discoloration, tired skin, in need of brightening and evening out the color, fine wrinkles, uneven skin structure, lack of skin elasticity and firmness, imperfections.

Active ingredients:

Ferulic Acid..

Action:

- slows down the aging process of the skin, has antioxidant properties
- brightens discoloration
- prevents the formation of new ones
- stimulates the synthesis of collagen and elastin.

Capacity: 2 g

Yield: 1 treatment

FERULIC ACID FACE MASK STEP 3

Intended for: discoloration, tired skin, in need of brightening and evening out the color, fine wrinkles, uneven skin structure, lack of skin elasticity and firmness, imperfections.

Active ingredients:

Tranexamic Acid, Vitamin C, Vitamin E.

Action:

- brightens discolorations and prevents their formation, evens out the color
- helps to relieve inflammation and fight acne
- supports the fight against photoaging of the skin.

Capacity: 5 g

Yield: 1 treatment

5 TREATMENTS SET

Set contains:

- 5 x PRE ACID GEL FACE MASK STEP 1, 3 g
- 5 x FERULIC ACID FACE MASK STEP 2, 2 g
- 5 x TXA CREAM FACE MASK STEP 3, 5 g

Index: 137621

PROFESSIONAL HOME CARE

BEAUTY PARLOUR
FORMULA

In order to intensify and extend the effects of the treatment, we recommend home care products from the FERUL-X line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

ACID FUSION 3.0

INDICATIONS

- discolorations of various origin • uneven skin tone • small wrinkles
- uneven skin texture • excessive sebum secretion • acne

ACTION

- reduces discolorations • evens out skin tone • slows down skin aging processes • normalizes sebum secretion • reduces inflammation

CONTRAINDICATIONS

- pregnancy, breast-feeding • allergies to any ingredient contained in the formulations used in the treatment • active herpes • tendency to develop keloids • bacterial, viral, fungal, and autoimmune diseases of the skin • severe forms of acne • use of retinoids or recent use of retinoids (up to 6 months) • recent (up to 6 months) surgery within the treated area • recent (up to 6 months) cryotherapy treatment • numerous melanocytic nevus • numerous dilated capillaries • severe systemic diseases • freshly tanned skin • sun exposure • damage and irritation of the skin • thinning of the epidermis • freshly shaved / depilated skin

ADVANTAGES / BENEFITS

- immediate smoothing of the skin • brightening of the skin and reduction of visibility of inflammation • no intense exfoliation

NOTES

- prior to performing the treatment, it is necessary to exclude any contraindications and to sign the Client Consent (supplied with each treatment kit) • professional training is mandatory

1 | 2

Thoroughly remove make-up from the treatment area with the use of Bielenda Professional products, selected for the skin type of the client (full offer of make-up removal products is available in the end of the catalogue in section „Make-up Removal“). We recommend using the Acid Fusion 3.0 Gentle Face Cleansing Powder.

Thoroughly degrease the skin, wiping the area submitted to treatment with a dust-free cotton pad or a gauze soaked with Pre Peel Spray.

3 | 4

Apply the Acid Fusion Hyal-Gel Mask Step 1 to the treatment area and massage the product in. **DO NOT RINSE OFF!**

Then, apply the content of the Acid Fusion Cream Face Mask Step 2 sachet, massage in and leave to absorb. **DO NOT RINSE OFF!** Inform the Client that he / she may experience a slight burning sensation, which shall disappear after a few minutes. **NOTE!** Use disposable gloves when applying both masks.

TREATMENT PROCEDURE

5 | 6

At home treatment continuation:
After the time specified by the professional performing the treatment has elapsed, wash off the mask using the Soothing Micellar Emulsions for face cleansing, and clean, cold water. Everyday post-treatment home care (Med Technology Post Treatment Care line exclusively)

At home treatment continuation:

After the time specified by the professional performing the treatment has elapsed, wash off the mask using the Soothing Micellar Emulsions for face cleansing, and clean, cold water. Everyday post-treatment home care (Med Technology Post Treatment Care line exclusively)

1. CLEANSING - Soothing Micellar Emulsion for Face Cleansing
 2. REGENERATION - in the morning and in the evening, Regenerating & Soothing Face Cream. **NOTE!** It is important to ensure UV protection using High Protection Face Cream SPF 50+ & PA++.
 3. MAKE-UP - Cover Cream Soothing Tinted Face Cream. It covers potential redness, soothes tension and stinging sensation, as well as protects the skin. Home care after a full cycle of treatments to prolong its effects
1. CLEANSING - Acid Fusion 3.0 Exfoliating Face Cleansing Gel
 2. TONING - Acid Fusion 3.0 Mandelic Acid Toner
 3. CARE - Acid Fusion 3.0 Advanced Correcting Cream

NEW GENERATION SKIN RESTRUCTURING TREATMENT

MAIN ACTIVE INGREDIENTS

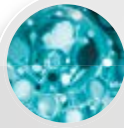

AZELAIC ACID

It has keratolytic effect, inhibits the growth of bacteria responsible for acne, promotes even distribution of melanin in the skin, shows sebostatic effect by inhibiting 5alpha-reductase enzyme.

SALICYLIC ACID

It is soluble in fats and therefore has the ability to penetrate deep into the skin and the hair follicles. It stimulates healing of the skin, shows bacteriostatic and anti-inflammatory effect, helps to unclog the sebaceous glands.

MANDELIC ACID

The most potent hyaluronic acid production stimulant, shows antibacterial and anti-inflammatory effect. It brightens the skin, evens out skin tone and, due to large molecules, acts gently without causing irritation.

EXPERT ADVICE

Sylwia Wójcik - Care Expert, Coach, Bielenda Professional Research & Development Expert.

If the treatment is performed in the evening and the client leaves the mask on the skin overnight, we recommend using a crescent pillow while sleeping. Thanks to such head stabilisation, the risk of rubbing part of the preparation into bed sheets will be eliminated.

RECOMMENDATIONS

Mask leave-on time is 7-10 hours; the frequency of treatment and the exact leave-on time of the mask shall be determined by a trained specialist performing the treatment; a treatment cycle shall consist of 1-8 treatments performed every 7-10 days.

PRODUCTS FOR THE TREATMENT FACE CARE

GENTLE FACE CLEANSING POWDER

Intended for: every skin type, especially skin in need of deep cleansing.

Active ingredients:
Silky Oat Flour, Urea, Glucose.

Action:

- deep cleansing of the skin
- make-up and excess sebum removal
- mattifying and moisturizing of the skin.

Capacity: 3 g
Yield: 1 treatment

ACID FUSION HYAL-GEL FACE MASK STEP 1

Intended for: skin prone to imperfections, inflammation, discolorations, seborrhoea, small wrinkles, uneven skin texture.

Active ingredients:
Mandelic Acid, Lactobionic Acid, Citric Acid, Niacinamide.

Action:

- soothes irritation
- brightens discolorations of various origin
- stimulates the production of collagen and elastin
- reduces the number and visibility of inflammation.

Capacity: 2 ml
Yield: 1 treatment

ACID FUSION CREAM FACE MASK STEP 2

Intended for: skin prone to imperfections, inflammation, discolorations, seborrhoea, small wrinkles, uneven skin texture.

Active ingredients:
Azelaic Acid, Lactobionic Acid, Salicylic Acid, Squalane, Sorbitol, Betaine.

Action:

- soothes irritation
- brightens discolorations of various origin
- inhibits excessive melanocytes activity
- stimulates the production of collagen and elastin
- protects against transepidermal water loss.

Capacity: 4 g
Yield: 1 treatment

5 TREATMENTS SET

Set contains:

- 5 x 3 g Gentle Face Cleansing Powder
- 5 x 2 ml Acid Fusion Hyal-Gel Face Mask Step 1
- 5 x 4 g Acid Fusion Cream Face Mask Step 2
- 5 x Client Charter

Index: 137620

PROFESSIONAL HOME CARE

BEAUTY PARLOUR FORMULA

Home care directly following the ACID FUSION 3.0 treatment - POST TREATMENT CARE line exclusively.

ACID FUSION 3.0
Home care after a series of treatments to prolong their effects.

For more product information, see Chapter 4 of the catalogue - Professional Home Care

RETI-POWER² VC

INDICATIONS

- all skin types, especially mature skin, affected by discolorations and/or acne • uneven skin structure • small wrinkles

ACTION

- skin smoothing • reduces imperfections • reduces number of inflammatory lesions • improves flexibility and firmness of the skin • modelling of facial contour • brightens discolorations reduces visibility of post-inflammatory marks and minor scars • improves skin color

CONTRAINDICATIONS

- pregnancy, breast-feeding • allergies to any ingredient contained in the formulations used in the treatment • active herpes • tendency to develop keloids • bacterial, viral, fungal, and autoimmune diseases of the skin • severe forms of acne • use of retinoids or recent use of retinoids (up to 6 months) • recent (up to 6 months) surgery within the treated area • recent (up to 6 months) cryotherapy treatment • numerous melanocytic nevus • numerous dilated capillaries • severe systemic diseases • freshly tanned skin • sun exposure • damage and irritation of the skin • thinning of the epidermis • freshly shaved / depilated skin

ADVANTAGES / BENEFITS

- even exfoliation • reduced irritation effect

NOTES

- the Client Consent is included with each treatment set • mandatory training required before use • strongly exfoliating product

1 | 2

Thoroughly remove make-up around the treatment area using Bielenda Professional preparations tailored to the client's skin type (full offer of make-up removal products is available in the end of the catalogue in section „Make-up Removal“).

Carefully degrease the skin by smearing the area to be treated with a dust-free swab or a pad saturated with Pre Peel Spray.

3 | 4

Using the enclosed syringe, measure 5 ml still mineral water and add it to the ampule with the powdered ascorbic acid Reti-Power² Vitamin C. Shake vigorously until the powder has completely dissolved. Apply half of the Reti-Power² Vitamin C ampule onto the skin, and carefully massage until absorbed. **DO NOT WASH!** (The contents of the ampule and the mask is sufficient for the treatment for the face, neck and neckline.)

Place the contents of the Reti Power Mask sachet onto the skin to be treated, massage and leave until absorbed. **DO NOT WASH!** (Caution! Before you put the mask on, the skin area must be dry; apply the mask in disposable gloves).

The treatment can be extended with the application of 40% mandelic acid + AHA + lactic acid, pH 1.6. In such a case, the Reti Power² VC treatment scheme begins after washing off the neutralizer and drying of the skin.

TREATMENT PROCEDURE

5 | 6

ADVANCED EXFOLIATING TREATMENT WITH RETINOL AND VITAMIN C

MAIN ACTIVE INGREDIENTS

5% TRANS - RETINOL

It stimulates production of collagen and elastin, as well as stimulates hyaluronic acid production. It regulates epithelial exfoliation and regeneration processes. It has anti-inflammatory action, accelerates healing processes, and normalizes sebum secretion.

PURE VITAMIN C

A perfect antioxidant. It stimulates collagen synthesis in the skin, has anti-inflammatory action, accelerates healing processes, stimulates ceramide production in the skin. It inhibits metal-proteinase secretion, and brightens the skin by inhibiting melanin production, as well as delicate peeling.

EXPERT ADVICE

Sylwia Wójcik - Care Expert, Coach, Bielenda Professional Research & Development Expert.

Reti-Power² VC is a highly exfoliating treatment based on the power of 5% retinol content. Before performing the procedure, it is necessary to exclude contraindications and sign the Client Card. The type of application affects the effectiveness of the treatment. Reti Power mask should be massaged into the skin, more intensely into seborrheic areas. Remember to avoid the area of the lip vermillion, eyes and nose wings.

RECOMMENDATIONS

The treatment is to be performed in series 1-6, every 3-4 weeks, depending on skin reaction. The specialist performing the treatment shall decide about the number of procedures in a series.

At home treatment continuation:

Leave the mask on the skin for at least 4 hours (the time can be maximally doubled depending on the skin type, its preparation for the treatment, and the exfoliation level you wish to achieve). The mask should be washed using the soothing micellar face cleansing emulsion and clean cold water. Onto the clean and dried skin, massage the remaining preparation from the Reti-Power² Vitamin C ampule.

After the product has been absorbed, apply the regenerating and soothing face cream. If the client will be exposed to sunlight, additionally apply the filter High protection face cream SPF 50+& PA ++. We also recommend using Cover Cream Soothing & Tinted Face Cream SPF 25.

PRODUCTS FOR THE TREATMENT FACE CARE

PRE PEEL SPRAY

Intended for:
all skin types (excluding contraindications).

Active ingredients:
Isopropyl alcohol.

Action:

- skin preparation for exfoliating with retinol
- skin preparation for exfoliation with acids
- degreasing action.

Capacity: 150 ml
Yield: 85 treatments
Index: 137480

RETI-POWER² VITAMIN C AMPULE WITH STABLE POWDERED VITAMIN C

Intended for:
skin with acne, wrinkles, discolouration requiring renewal, rebuilding of its structure.

Active ingredients:
Ascorbic acid.

Action:

- brightens
- strengthens
- stimulates collagen synthesis
- reduces free radicals
- shows very strong anti-oxidative action.

Capacity: 1 g
Yield: 1 treatment

RETI POWER MASK WITH RETINOL

Intended for:
skin with acne, wrinkles, discolouration requiring renewal, rebuilding of its structure.

Active ingredients:
TRANS-Retinol, Niacinamide.

Action:

- brightens the skin
- regulates secretion of sebaceous glands
- reduces acne lesions
- anti-wrinkle action.

Capacity: 5 ml
Yield: 1 treatment

5 TREATMENTS SET

Set contains:

- 5 x 5ml Reti Power2 VC Mask
- 5 x 1g Reti-Power2 Vitamin C
- 1 x Syringe
- 5 x Client Charter

Index: 137476

PROFESSIONAL HOME CARE

BEAUTY PARLOUR
FORMULA

Home care directly following the RETI-POWER² VC treatment - POST TREATMENT CARE line exclusively.

RETI-POWER² VC Complementary care after full exfoliation process and skin regeneration (around 28 days).

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

MESO MED PROGRAM

INDICATIONS

- skin aging • acne scars • uneven skin color • discolorations • small wrinkles • dry, dehydrated skin and skin laxity

ACTION

- increases skin moisture • enhances elasticity and firmness • smoothes fine lines and wrinkles • revitalization and nourishment of the skin • regeneration and rejuvenation of the skin

CONTRAINDICATIONS

- tendency to form keloid scars (keloids) • pregnancy and nursing • allergy to metals and the active ingredients contained in micro-needle mesotherapy cocktails • diabetes • cancer • bleeding disorders • use of anticoagulants • inflammation of the skin • bacterial, viral, fungal skin diseases • autoimmune diseases • acne and rosacea • impaired ability to regenerate the skin • use of medications applied directly to the skin • interrupted continuity of the skin • open wounds • birthmarks • sensory disturbances • retinoid therapy (in the last 6 months)

ADVANTAGES / BENEFITS

- rejuvenation and face remodeling

NOTES

- client consent cards available in PDF format at Bielenda Professional Coaches • training is obligatory before use

1 | 2

Remove make up using Eye and lips Makeup Remover. Face, neck and décolleté should be cleansed using the Ultra hydrating face makeup removal cream. Tone the cleansed skin using Ultra-Hydrating Face Toner.

Peeling: SENSITIVE SKIN: Apply enzymatic face peeling for sensitive skin and leave for about 10 minutes. After this time, rinse off with lukewarm water and tone the skin. NORMAL SKIN: Apply Pre-exfoliation gel to damp skin, massaging gently. After rinsing with lukewarm water, tone the skin. Divide the skin surface subjected to treatment into areas. Then, choose the appropriate roller needle length. Before commencing the procedure, secure hands with gloves and remove roller from the package in front of the Client. Disinfect the skin subjected to treatment with the product intended for disinfection of the skin, mucosa and wounds (disinfection time according to instructions on the packaging of the preparation used).

3 | 4

Then, we perform the procedure. Start rolling from the forehead, then continue to the cheeks, nose, chin, neck, décolleté, always avoiding eyes and lips area. Use one hand to tighten the skin and roll in three planes: vertically, horizontally and diagonally, applying gentle pressure.

Do not apply too much pressure to the skin. Follow the Client's feedback and the skin's reaction to the treatment. The skin should be carefully monitored throughout the procedure. Slight swelling and redness may appear during the procedure, which disappears within the next several days, depending on the type of the skin. Duration of procedure is about 10 minutes. After completion, disinfect the skin using the product intended for disinfection of the skin, mucosa and wounds.

TREATMENT PROCEDURE

5 | 6

Remove the blood, if it appeared, in order to allow free penetration of active substances into the skin. Following the micropuncture procedure, apply one of Bielenda Professional active concentrates depending on the needs of the skin, in order to soothe and calm the skin apply Ultra-soothing algae face mask with diatomaceous clay. Leave for 15 minutes, then remove in one piece.

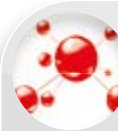

ADVANCED MICRONEEDLE MESOTHERAPY FACE TREATMENT

MAIN ACTIVE INGREDIENTS

PHYTOCELLTEC™ ARGAN

An innovative ingredient based on plant stem cells derived from argan sprouts. This is the first active ingredient with scientifically proven protective and revitalizing effect on skin stem cells.

LOW MOLECULAR WEIGHT HYALURONIC ACID (LMW)

It penetrates the stratum corneum, which activates biochemical processes in the deeper layers of the skin, ensures proper skin hydration at the epidermal and dermal level and reduction of TEWL.

ORGANIC SILICA

It is the building material of the skin. It supports stimulation of fibroblasts, i.e. cells responsible for the production of collagen and elastin. It encapsulates cell membranes, protecting them against damage caused by free radicals; it acts as a regulator of cell transformations and divisions. It regenerates the skin, inhibits the ageing process, improves blood circulation.

EXPERT ADVICE

Sylwia Wójcik - Care Expert, Coach, Bielenda Professional Research & Development Expert.

Microneedle mesotherapy is an intervention treatment perceived as painful by some people. Remember to exclude contraindications and make the client sign the Client Card. To compensate for pain, you can use anaesthesia in the form of a cream. To make it as effective as possible, the skin should be degreased thoroughly before the anaesthetic is applied. For degreasing, we recommend alcohol-based disinfectants. Anaesthesia is also strengthened by occlusion, which can be created using a cosmetic film.

RECOMMENDATIONS

Series of 3 to 6 treatment once every 2 weeks or once every 4 weeks, depending on the individual reaction of the skin to the treatment as well as the length of the roller needles.

To finish off the treatment, apply the SPF 50 Protective Face Cream. NOTE! After completion of the treatment, the roller should be placed in a disinfecting bath. The time should be adjusted to the instructions of the disinfectant product manufacturer. After removing roller from the baths, rinse it under running water, dry and place in the original case and cardboard box. The cardboard box should be labeled with the full name of the Client, date of the procedure and the Client's signature.

PRODUCTS FOR THE TREATMENT FACE CARE

ACTIVE ANTI-WRINKLE CONCENTRATE WITH PEPTIDES

Intended for:

mimic wrinkles, loss of skin density.

Active ingredients:

Biomimetic Peptides, Arigeline - Hexapeptide, High Molecular Weight Hyaluronic Acid.

Action:

- improved skin density
- reduced visibility of mimic wrinkles.

Capacity: 10 x 3 ml

Yield: 10 treatments

Index: 137556

ACTIVE REGENERATING CONCENTRATE WITH ORGANIC SILICA

Intended for:

weakened skin, stretch marks, scars, supportive therapy in the case of cellulite.

Active ingredients:

Organic Silica, Ultra Low Molecular Weight Hyaluronic Acid, High Molecular Weight Hyaluronic Acid, Hydrolysed Glycosaminoglycans.

Action:

- strengthens skin
- helps reduce scars and stretch marks
- helps reduce cellulite.

Capacity: 10 x 3 ml

Yield: 10 treatments

Index: 137555

ACTIVE FIRMING CONCENTRATE WITH COLLAGEN AND ELASTIN

Intended for:

lack of firmness and elasticity of the skin, wrinkles.

Active ingredients:

Collagen, Elastin, Low Molecular Weight Hyaluronic Acid, High Molecular Weight Hyaluronic Acid.

Action:

- improves skin firmness and elasticity
- reduces visibility of wrinkles.

Capacity: 10 x 3 ml

Yield: 10 treatments

Index: 137557

ACTIVE CONCENTRATE WITH LOW MOLECULAR WEIGHT HYALURONIC ACID

Intended for:

dry, dehydrated skin, wrinkles.

Active ingredients:

Low Molecular Weight Hyaluronic Acid, Glycerin, Hydrolysed Glycosaminoglycans (HGAG), Vitamin B3, Lactic Acid.

Action:

- improves skin hydration
- smooths fine lines and wrinkles
- regenerates and rejuvenates the skin.

Capacity: 10 x 3 ml

Yield: 10 treatments

Index: 137335

ACTIVE CONCENTRATE WITH PLANT STEM CELLS

Intended for:

skin lacking elasticity and firmness.

Active ingredients:

PhytoCellTec™ Alp Rose, PhytoCellTec™ Argan, Glycerine, Vitamin B3, Lactic Acid.

Action:

- increases skin elasticity and firmness
- revitalises and nourishes the skin
- regenerated skin with better look.

Capacity: 10 x 3 ml

Yield: 10 treatments

Index: 137334

ULTRA SOOTHING ALGAE FACE MASK WITH DIATOMACEOUS CLAY

Intended for:

after cosmetic treatment of microneedle mesotherapy (roller, dermapen), after no-needle, oxygen mesotherapy, ultrasound treatment, after exfoliation with acids, after radiofrequency and photorejuvenation treatments, other cosmetic treatments.

Active ingredients:

Diatomaceous clay, Alginate (100% brown algae extract).

Action:

- calms and soothes the skin after treatments
- eliminates redness
- intensifies the process of microdamage regeneration
- improves skin firmness and elasticity.

Capacity: 190 g

Yield: 10 treatments

Index: 137336

Index (Refill package): 137337

PROFESSIONAL HOME CARE

BEAUTY PARLOUR
FORMULA

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the POST TREATMENT CARE line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

AHA AND PHA ACIDS EXFOLIATION

INDICATIONS

• cystic acne • rosacea • oily skin, excessive sebum secretion • blackheads • folliculitis • epidermal melasma • skin ageing • photoageing • skin revitalization

ACTION

• rejuvenates • improves the skin's elasticity and tone • smoothes and balances skin colour • reduces skin discolorations • provides bacteriostatic and keratolytic effect (supports anti-acne treatment) • reduces and balances sebum secretion • diminishes fine wrinkles

CONTRAINDICATIONS

• seborrheic dermatitis • mycosis • psoriasis • active infections (herpes, etc.) • active phase acne • therapy with Vitain A derivatives • pregnancy, lactation

ADVANTAGES / BENEFITS

• alleviation of inflammation

NOTES

• during the treatment we do not perform other peels • there is a ban on using sun beds and exposure to sunlight before, during, and two weeks after the treatment

1 | 2

Remove eye and lip make-up with Face & Lip Make-up Remover. Cleanse the face, neck and décolleté with Satin Make-up Removing Milk. Balance the skin with Satin Gel Toner.

Wear latex or vinyl gloves. The pre-exfoliation gel should be applied on damp face, neck and décolleté. Gently massage the skin to cleanse it, then rinse it with water and dry with a cosmetic wipe. Before starting the procedure, secure eye area (with dry cotton pad), nose wings, mouth tips, unusual pigment marks, damaged epidermis (vaseline or greasy cream). Ask the Client to close her/his eyes during the procedure. During the exfoliation constantly observe skin reactions, ask about Client's feedback. It is recommended to stay by Client's chair during the treatment.

3 | 4

Pour a suitable quantity of 40% Mandelic Acid into a glass or porcelain bowl. It is recommended to use a dry brush made of natural hair. With each subsequent treatment, prolong the application time by 2 minutes. The first treatment should last 3 minutes, the second treatment - 5 minutes, and the application time during the last treatment should not exceed 10 minutes.

After the recommended treatment time is over, use the Neutralizer to neutralize the acid. Rinse the skin with lukewarm water and dry with cosmetic wipes. PLEASE NOTE: Carefully monitor skin reactions and the patient's condition to determine the individual application time. Should any acute skin reactions occur (acute burning sensation, reddening, pricking), immediately remove the acid with the neutralizer.

TREATMENT PROCEDURE

5 | 6

MANDELIC ACID EXFOLIATION TREATMENT

MAIN ACTIVE INGREDIENTS

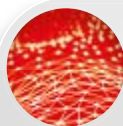

MANDELIC ACID

It is gentle, completely free of irritating properties, it soothes skin inflammation, heals pimples and blemishes, it brightens discoloration caused by sunlight and inflammation, it evens skin tone.

LACTIC ACID

It refreshes and smooths the skin, it has disinfecting properties, it soothes irritations and inflammations. It restores proper skin pH. It has keratolytic properties, it softens callous epidermis.

LACTOBIONIC ACID

Thanks to the unique properties of binding water in the epidermis it strengthens its protective barrier. It prevents the formation of teleangiectasia, it strengthens the elasticity of blood vessels. It is a strong antioxidant.

EXPERT ADVICE

Justyna Dziura - Cosmetologist, Bielenda Professional Coach, Regional Sales Manager.

Mandelic acid has the strongest antibacterial effect among the AHA group, thanks to which it reduces the severity of acne and the secretion of sebum. Thanks to its excellent anti-ageing properties, it causes the filling of fine wrinkles. It brightens discoloration effectively and also smooths scars on the skin. Accompanied by high sunscreen preparations, it can be successfully used all year round.

RECOMMENDATIONS

Skin can be exfoliated throughout the year, also in the summer, provided that UV protection is applied. Apply 6-8 treatment cycles, in min. 7-day intervals.

Apply a thick film of the Nourishing & Regenerating Post-Exfoliation Mask onto the face, neck and décolleté, avoiding eye area. Cover the areas where the mask is applied with a cosmetic film. Leave it on for about 10 minutes. Subsequently remove the film and gently rinse the excess mask with lukewarm water. Balance the skin with a toner. Dry with cosmetic wipes.

At the end of the treatment apply eye area care product tailored to Client's skin needs (full offer of eye area care products is available on page 68 of the catalog). Apply SPF 50 Face Protection Cream on the face, neck and décolleté.

PRODUCTS FOR THE TREATMENT FACE CARE

GEL PREPARING FOR EXFOLIATION TREATMENTS

Intended for:
all skin types (excluding contraindications).

Active ingredients:
Lactobionic acid, Mandelic acid, Lactic acid.

Action:

- purified skin
- the skin is prepared for exfoliation
- it increases the effectiveness of the treatment and tests skin hyper reactivity before the proper exfoliation treatment.

Capacity: 200 g
Yield: 40 treatments
Index: 137266

40% MANDELIC ACID + AHA + LACTOBIONIC ACID, PH 1.6

Intended for:
all skin types (excluding contraindications).

Active ingredients:
Lactobionic acid, Mandelic acid, Lactic acid.

Action:

- keratolytic properties
- reduced fine lines
- smoother, firmer and revitalised skin
- brightened discolouration
- no post-treatment discolouration
- skin tone is evened out
- bacteriostatic properties
- reduced and regulated sebum production.

Capacity: 150 g
Yield: 65 treatments
Index: 137267

NEUTRALIZER

Intended for:
all skin types.

Action:

- inactivates the acid used for the treatment
- prevents irritation
- has soothing properties.

Capacity: 200 g
Yield: 20 treatments
Index: 137268

NOURISHING AND REGENERATING FACE MASK AFTER EXFOLIATION

Intended for:
dry, sensitive, couperose skin.

Active ingredients:
Macadamia oil, Vitamin E, Boswellia Serrata, D-panthenol, Troxerutin.

Action:

- moisturised and smoothed skin
- soothes and relieves irritation caused by exfoliation
- eliminates swelling, itching, redness.

Capacity: 175 ml
Yield: 20 treatments
Index: 137269

LIGHT REGENERATING FACE GEL CREAM

Intended for:
sensitive or irritated skin after intensive cosmetology and aesthetic medicine procedures.

Active ingredients:
Hyaluronic acid, Squalane, Trehalose, Allantoin, D-panthenol, Vitamin E, Nanosilver.

Action:

- regenerated skin
- soothed irritation
- moisturised skin
- it does not block exfoliation.

Capacity: 100 ml
Yield: 50 treatments
Index: 137500

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the POST TREATMENT CARE line and Light Cream with Triple Action of AHA and PHA acids.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

BEAUTY PARLOUR
FORMULA

ANTI-ACNE PROGRAM

INDICATIONS

the 20+ and 40+ age group • combination skin, oily, prone to acne 20+ age group • seborrhea • acne • contaminated skin with enlarged pores • blackheads • blemishes and scars 40+ age group • mature combination complexion • oily • prone to acne • skin with signs of aging • shallow wrinkles • loss of firmness and elasticity • photoaging • aging skin • after sun and age discoloration • dry and rough skin • pigmentation disorders

ACTION

• exfoliates dead skin cells • cleanses and narrows extended sebaceous glands • reduces blackheads • regulates the secretion of sebum • cleanses • improves hydration and elasticity of the skin • reduces wrinkles and shallow acne changes • reduces the visibility of acne scars and discoloration • increases the effectiveness of skin care products • evens the skin tone and improves the overall skin condition

CONTRAINDICATIONS

• active viral infections (herpes, warts) • active bacterial infections • active inflammatory skin diseases (eczema, psoriasis, AD) • a history of recent surgery (fresh scars) or light therapies • sensitivity to acids (allergy) • pregnancy and lactation • treatment with retinoids in the last 6 months • antibiotics and various forms of vitamin A • scratches, interrupted continuity of the skin • keloids • acne: phlegmonous, acne conglobata, acne keloïdem (active purulent lesions, cysts) • skin after depilation • a large number of pigmented lesions

ADVANTAGES / BENEFITS

• safe and effective exfoliation

NOTES

• any contact with the sun and solarium is forbidden before, during application of the treatment and two weeks after its completion

1 | 2

Perform thorough make-up removal of the Client's skin and tone it with delicate preparations from the Bielenda Professional offer.

Protect hands with latex or vinyl gloves. Before proceed to the treatment, secure the area of the eyes (using a dry cotton pad), the wings of the nose, corners of the mouth, unusual signs of dye, skin damage (using a vaseline or a fatty cream). Patients are asked to have their eyes closed during the treatment. During exfoliation, constantly observe reactions of the skin, ask how patient feels. It is not advisable to move away from the seat. Apply on a cotton pad the Micro-exfoliating gel-tonic (200 g) and wash the skin subjected to exfoliation, avoiding the eye area. This can be repeated twice, each time replacing the pads. NOTE! The skin, prior to contact with the product, should be cleaned and dried.

3 | 4

Using a glass or a porcelain bowl, apply the right amount of the preparation. The acid should be applied using a dry brush onto dried skin of the face (avoiding the eye area).

Allow the preparation to be left for a time adapted to the condition and sensitivity of the skin. Application is started from the front, followed with the other parts of the face. Skin reactions should be monitored (the recommended treatment regimen for easy selection of the time of peeling is given on the next page). NOTE! Observation of the skin and an interview are the basis to determine the individual time of the preparation being left on the skin. In the case of any reaction - severe burning, redness, tingling - the acid action should be immediately stopped by applying the acid neutralizer. Then, the skin is to be washed with lukewarm water and dried with a treatment tissue.

TREATMENT PROCEDURE

5 | 6

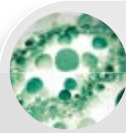

Apply a thick layer of the zinc soothing mask, avoiding the eye area. Leave it for 15 minutes, then wash the skin with lukewarm water.

At the end of the treatment apply on the eye area, the preparation tailored to the Client's skin needs (full range of products available in the end of the catalogue). Apply the Protective face cream SPF 50 on the face, neck and neckline. NOTE! During the series of treatments the Client should prepare the skin at home with Micro-exfoliating Gel Toner (200 g) once a day for 7 days prior to each planned treatment.

PERSONALISED, COMPREHENSIVE EXFOLIATING TREATMENT FOR COMBINATION, OILY AND ACNE SKIN

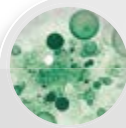

MAIN ACTIVE INGREDIENTS

AZELAIC ACID

It has a keratolytic effect, inhibits the growth of bacteria responsible for the formation of acne, affects the even distribution of melanin in the skin, has a sebostatic effect by blocking the 5-alpha-reductase enzyme.

SALICYLIC ACID

It is fat-soluble and therefore has the ability to penetrate deep into the skin and hair follicles. It stimulates skin healing and has a bacteriostatic effect. It helps to unblock the sebaceous glands and has anti-inflammatory properties.

MANDELIC ACID

It strongly stimulates the production of hyaluronic acid in the skin, has antibacterial and anti-inflammatory properties. It brightens, evens out the skin tone and thanks to the large molecule it works gently without causing irritation.

EXPERT ADVICE

Sylvia Wójcik - Care Expert, Coach, Bielenda Professional Research & Development Expert.

Thanks to a carefully selected mixture of acids, the treatment effectively combats the imperfections of the skin associated with teen acne, regulates the secretion of sebum and exfoliates dead skin. Before the treatment, it is important to prepare the skin with a Micro-exfoliating toning gel 200 g for 7 days before the planned application of the acid. After treatment, remember to protect the skin with a cream with a high UV filter and a 2in1 home care active sebo-regulating moisturising cream recommended for 20+ people or 2in1 Active sebo-regulating anti-ageing cream recommended for 40+ people.

RECOMMENDATIONS

Series of 4-6 treatments every 10-15 days, treatments performed only in the fall or spring while keeping UV protection.

PRODUCTS FOR THE TREATMENT FACE CARE

40% SALICYLIC ACID + AZELAIC ACID + MANDELIC ACID + LACTIC ACID, pH 2, 20+

Intended for:
combination skin, oily skin, prone to acne (including contraindications).

Active ingredients:

Salicylic acid, Azelaic acid, Mandelic acid, Lactic acid.

Action of the mixture of acids:

- antibacterial and anti-inflammatory (azelaic acid)
- inhibits the growth of the Propionibacterium acnes bacteria (azelaic acid)
- unclogs pores, helps to eliminate blackheads (salicylic acid)
- regulates the skin cell renewal, has exfoliating properties (salicylic acid)
- inhibits the synthesis of melanin (azelaic acid)
- speeds up the healing process of pimples and irritation (salicylic acid)
- moisturizes and tones the skin (lactic acid)
- reduces wrinkles, tightens pores (lactic acid)
- lightens discoloration (lactic acid)
- inhibits the growth of Staphylococcus aureus, Bacillus Proteus, Escherichia coli, Aerobacter Aerogenes (mandelic acid)
- lightens discoloration after sun and inflammation (mandelic acid)
- soothing, does not cause strong irritation, flaking and redness after treatments (mandelic acid).

Capacity: 30 g

Yield: 10 treatments

Index: 137372

GEL NEUTRALIZER

Intended for:
neutralizing the effect of acids.

Action:

- instantly neutralizes the effect of acids
- prevents irritation
- soothes and eliminates excessive burning, stinging, itching and tingling
- ensures the safety of the exfoliation treatment.

Capacity: 500 g

Yield: 50 treatments

Index: 137379

SOOTHING MASK WITH ZINC

Intended for:
any type of skin, particularly hypersensitive skin, irritated after cosmetic surgery.

Active ingredients:

Zinc, Aloe extract, D-panthenol, Coconut oil.

Action:

- eliminates redness of the skin
- calms and soothes the irritated skin
- reduces the skin itchy after exfoliation.

Capacity: 150 g

Yield: 20 treatments

Index: 137374

SCHEME OF TREATMENTS:

Type of preparation	Type of skin	I treatment	II treatment	III treatment	IV, V, VI treatment
40% salicylic acid + azelaic acid + mandelic acid + lactic acid, pH 2	Normal skin	3 minutes	5 minutes	6 minutes	8 minutes
	Sensitive skin	2 minutes	4 minutes	5 minutes	6 minutes

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the ANTI-ACNE PROGRAM line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

BEAUTY PARLOUR
FORMULA

INDIVIDUAL BEAUTY THERAPY

INDICATIONS

• tired skin, with the first signs of aging, fine wrinkles • dry, dehydrated • couperose, sensitive skin • requiring regeneration • problematic, oily, combination

ACTION

• stimulates the skin to renew, strengthens it • has anti-wrinkle properties • moisturizes, soothes • helps to regulate the regeneration processes • nourishes

CONTRAINDICATIONS

• allergy or hypersensitivity to ingredients contained in preparations

ADVANTAGES / BENEFITS

• revitalizing, normalizing, soothing, anti-aging effect

NOTES

• all concentrates are compatible with each other and can be mixed with other serums from the Individual Beauty Therapy line in any proportions, depending on the skin needs • professional use only • prior to performing the treatment, it is necessary to exclude any contraindications and to sign the Client Consent (supplied with each treatment kit)

PERSONALISED FACIAL SKIN STIMULATION TREATMENT

MAIN ACTIVE INGREDIENTS

HEMP SEED OIL

Rich in omega-3 and 6 acids as well as vitamins A, B1, B2, B3, B6, C, D, E. It deeply regenerates and nourishes, smoothes, moisturizes, protects against premature wrinkles. It regulates the secretion of sebum, reduces the risk of discoloration and irritation, and improves the skin tone.

VITAMIN C

One of the strongest antioxidants. It stimulates collagen production, slows down aging processes, protects DNA, and strengthens the skin. It evens out the color, reduces pigmentation disorders, reduces the tendency to discoloration and capillary changes, protects against photoaging.

INDIAN FIG OIL

It has a strong anti-wrinkle effect, contains omega-6 and 9 acids, and vitamin E. It firms, moisturizes, prevents sagging, reduces the depth of wrinkles, improves skin density, tension and elasticity, delays the aging process.

EXPERT ADVICE

Monika Hajdziony - *Beautician of the Year 2017, cosmetologist, Master of biotechnology applied in cosmetology, pharmacist, podologist. Participant of numerous industry trainings, workshops, conferences and symposiums.*

IBT is individualism in every respect. You choose concentrates in the form of a 2-phase serum in any combination depending on the skin's needs. You can combine them with each other and use such a ready-made composition directly on the face or apply individually to the skin on the basis of face-mapping depending on the issue of a part of the face.

1 | 2

We make a very thorough make-up removal of the treatment area with preparations from Bielenda Professional offer, matched to the client's skin type. We recommend products from the Individual Beauty Therapy line. Apply the Make-up Remover Milk to the skin of the face, neck and décolleté and gently massage it with circular movements. Then, with the help of moist treatment wipes or cosmetic pads, thoroughly remove the preparation and tone the skin with pads soaked in the Multi-Active Face Toner.

Apply a thin layer of the Skin Stimulating Acid Peel onto the treatment area. Rinse with lukewarm water after approx. 10 minutes. The product should be applied in disposable gloves. Avoid contact with eyes and mucous membranes. The product contains acids - the exact time of application should be adapted to individual sensation.

3 | 4

Apply a single 2-Phase Skin Stimulating Serum or mixed in proportions matching the individual needs of the client's skin. Next, do a gentle massage. To strengthen the effect of the products, you can use ultrasounds or needlessly mesotherapy during their application. Do not rinse. Before use, shake the product vigorously until the phases are combined.

Apply the 3in1 Skin Stimulating Face Cream Mask onto the treatment area with your hand or a brush. Leave to absorb. Remove the excess of the product.

TREATMENT PROCEDURE

5

To strengthen and prolong the effects of the treatment, we recommend for home care the Skin Stimulating Active Face Cream.

RECOMMENDATIONS

Before use, the bottle with the concentrate should be intensively shake. Recommended series of 4-6 treatments once a week.

PRODUCTS FOR THE TREATMENT FACE CARE

MAKE-UP REMOVER MILK

Intended for:
all skin types.

Active ingredients:

Milk Thistle Emollient, Avocado Oil, Babassu Oil, Hemp Seed Oil, Rosemary Oil.

Action:

- effectively and gently cleanses the skin
- prepares for the next stages of the procedure.

Capacity: 500 ml
Yield: 30 treatments
Index: 137610

MULTI-ACTIVE FACE TONER

Intended for:
all skin types.

Active ingredients:

Green Tea Essence, Orange Water Essence, D-Panthenol, Gluconolactone, Trehalose.

Action:

- restores the physiological pH of the skin
- calms and soothes.

Capacity: 500 ml
Yield: 60 treatments
Index: 137611

SKIN STIMULATING ACID PEEL

Intended for:

gray, tired skin, with the first signs of aging, fine wrinkles, dry, dehydrated, couperose, sensitive, requiring regeneration, problematic, oily, combination skin.

Active ingredients:

Glycolic Acid, Citric Acid, Mandelic Acid, Lactobionic Acid, Lactic Acid.

Action:

- exfoliates the superficial layers of the epidermis
- smoothes and illuminates the skin
- prepares for the intake of active ingredients.

Capacity: 100 g
Yield: 20 treatments
Index: 137612

CAPILLARY REPAIR 2-PHASE SKIN STIMULATING SERUM

Intended for:
capillary, sensitive skin with redness.

Active ingredients:

Horse Chestnut Extract, Vitamin C, Vitamin E, Violet Extract, Chia Seed Oil, Raspberry Seed Oil, Carrot Seed Oil, Wild Rose Fruit Oil, Hyaluronic Acid, Trehalose, Squalane, Betaine, Urea, Sodium Lactate.

Action:

- soothes redness and irritation
- reduces the tendency to break the capillaries
- strengthens the skin.

Capacity: 15 ml
Yield: 10 treatments
Index: 137614

NORMALIZING 2-PHASE SKIN STIMULATING SERUM

Intended for:
combination, oily skin, with imperfections, prone to pollution.

Active ingredients:

Hemp Seed Oil, Rosemary Oil, Bamboo Extract, Lemon Extract, Mint Extract, Rice Oil, Green Tea Essence, Vitamin E, Hyaluronic Acid, Trehalose, Squalane, Betaine, Urea, Sodium Lactate.

Action:

- helps to normalize the work of the sebaceous glands
- smoothes the epidermis
- reduces the visibility of inflammatory discoloration.

Capacity: 15 ml
Yield: 10 treatments
Index: 137615

REVITALIZING 2-PHASE SKIN STIMULATING SERUM

Intended for:
gray, shallow skin, dull, tired, dehydrated, frequently exposed to harmful urban factors.

Active ingredients:

Orange Water Essence, Ginseng Extract, Milk Thistle Emollient, Elastin, Japanese Camellia Oil, Indian Fig Oil, Ginkgo Biloba Extract, Vitamin E.

Action:

- revitalizes the skin
- moisturizes, oxygenates
- nourishes
- strengthens.

Capacity: 15 ml
Yield: 10 treatments
Index: 137615

ANTI-AGING 2-PHASE SKIN STIMULATING SERUM

Intended for:
skin with the first signs of aging, wrinkles, loss of skin density, firmness, and elasticity.

Active ingredients:

Orange Water Essence, Argan Oil, Saffron Extract, Archangelica Extract, Pomegranate Oil, Coenzyme Q10, Collagen, Vitamin E, Hyaluronic Acid, Trehalose, Squalane, Betaine, Urea, Sodium Lactate.

Action:

- revitalizes and rejuvenates the skin
- delays the aging process of the skin
- improves resilience and elasticity of the epidermis.

Capacity: 15 ml
Yield: 10 treatments
Index: 137613

3IN1 SKIN STIMULATING FACE CREAM MASK

Intended for:
all skin types.

Active ingredients:

Ginkgo Biloba, Coenzyme Q10, Vitamin C, Vitamin E, Elastin, Squalane, Hemp Seed Oil, Rosemary Oil, Hyaluronic Acid, Indian Fig Oil, Trehalose.

Action:

- moisturizes
- deeply nourishes
- regenerates and soothes irritations
- strengthens and stimulates skin renewal.

Capacity: 150 g
Yield: 20 treatments
Index: 137617

TREATMENTS SET

Set contains:

- 1 x Capillary Repair 2-Phase Skin Stimulating Serum, 15 ml
- 1 x Normalizing 2-Phase Skin Stimulating Serum, 15 ml
- 1 x Revitalizing 2-Phase Skin Stimulating Serum, 15 ml
- 1 x Anti-Aging 2-Phase Skin Stimulating Serum, 15 ml

Index: 201006

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care product: Skin Stimulating Active Face Cream.

BEAUTY PARLOUR FORMULA

MICROBIOME PRO CARE

INDICATIONS

• problematic, dysfunctional skin • dry, dehydrated skin • skin weakened by anti-acne treatments, aggressive cosmetic treatments • lack of balance of skin microbiota resulting from such factors as stress, environmental pollution, medicines taken, UV radiation

ACTION

• supports the reconstruction of skin microbiota • soothes and moisturises the skin • strengthens the natural barrier functions of the skin • regenerates • protects the skin against harmful external factors • restores healthy and radiant look to the skin • soothes the skin, e.g. after intensive cosmetic treatments

CONTRAINDICATIONS

• allergy or hypersensitivity to ingredients contained in preparations

ADVANTAGES / BENEFITS

• Silky Smooth Face Massage Powder soothes, provides glide, is non-comedogenic, ideal for acne and oily skin

NOTES

• powder massage is performed analogously to massage with oil product • professional use only • prior to performing the treatment, it is necessary to exclude any contraindications and to sign the Client Consent (supplied with each treatment kit)

1 | 2

Remove make-up thoroughly from the skin on which the treatment will be performed with Bielenda Professional preparations tailored to the type of client's skin. We especially recommend products from the MICROBIOME Pro Care line. Apply the Delicate Micellar Gel Makeup Remover to the dry skin of the face and neck and massage gently with circular movements. Rinse it with moist treatment tissues or cotton pads. After cleansing the skin, apply the Delicate Face Toner with a cotton pad.

Next, exfoliate dead skin cells with the Delicate Enzymatic Face Foam Peeling. Apply a dose of the preparation on the skin (avoiding the eye area) and leave for approx. 10 minutes. Then rinse the preparation thoroughly with moist treatment tissues or cotton pads, and then tone the skin.

3 | 4

Apply the Silky Smooth Face Massage Powder onto cleansed skin and perform a delicate dry massage. Remove the remnants of the preparation from the face using moist cotton pads, and then tone the skin.

Apply the Multiactive Balancing and Protecting Face Concentrate. Massage it gently into the skin. To strengthen the effect of the preparation, use ultrasounds or needle-free mesotherapy.

TREATMENT PROCEDURE

5 | 6

BALANCING AND PROTECTING FACE TREATMENT

MAIN ACTIVE INGREDIENTS

SYNBIOTIC COMPLEX

Pre- and pro-biotic complex and lactic acid. It strengthens the natural barrier functions of the skin, supports the reconstruction of healthy skin microbiota, smooths, brightens, restructures dysfunctional skin, improves its comfort, moisturises and nourishes the skin.

BIOPROTECTION SHIELD

The barrier protecting the skin against harmful effects of „urban“ external factors: UV radiation, coal dust, heavy metals and other air/water pollutants.

β-GLUCAN

Polysaccharide which improves defence mechanisms of the skin, increases its ability to regenerate, intensively relieves the skin and stimulates collagen production, it accelerates skin healing, it has anti-inflammatory and moisturising effect.

EXPERT ADVICE

Marta Zielińska - *Beautician of the Year 2018, Master of pedagogy, certified cosmetologist, graduate of postgraduate qualification studies in cosmetology and psychodietetics. Lecturer in post-secondary schools and state examiner in the profession of a technician of cosmetic services. Currently a student of postgraduate studies in the field of herbalism and phytotherapy.*

Use this treatment in the treatment of acne tarda (adult acne) skin, especially if you offer the client a series of acid exfoliation. Beta-glucan contained in the preparations improves the immune functions of the epidermis, and the combination of pre-biotics and probiotics helps to restore the proper microflora of the epidermis. In the treatment of this type of skin, it is important not only to exfoliate, but most of all to rebuild the hydro-lipid coat. Spanish sage oil, rich in EFAs, will accelerate the regeneration of damaged tissues, prevent the development of inflammation, while protecting the skin from excessive water loss.

RECOMMENDATIONS

Use on the face, neck and cleavage in a series of 4-8 treatments or once for quick relief.

PRODUCTS FOR THE TREATMENT FACE CARE

DELICATE MICELLAR GEL MAKE-UP REMOVER

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive skin, weakened by e.g. anti-acne treatments, imbalance of skin microbiota.

Active ingredients:

Synbiotic Complex, Squalane, Trehalose, Spanish Sage Oil, Witch Hazel, D-panthenol, Avocado Oil.

Action:

- removes make-up gently and thoroughly
- cleanses the skin
- soothes and relieves irritation.

Capacity: 500 ml
Yield: 60 treatments
Index: 137584

DELICATE FACE TONER

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive skin, weakened by e.g. anti-acne treatments, imbalance of skin microbiota.

Active ingredients:

Synbiotic Complex, Rose Water, Hyaluronic Acid, Witch Hazel.

Action:

- restores the physiological pH of the skin
- moisturizes and soothes
- strengthens the skin.

Capacity: 500 ml
Yield: 60 treatments
Index: 137585

DELICATE ENZYMATIC FACE FOAM PEELING

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive skin, weakened by e.g. anti-acne treatments, imbalance of skin microbiota.

Active ingredients:

Keratolytic Lactic Acid, β -Glucan, Complete Biotic Formula.

Action:

- exfoliates very gently
- prepares for the intake of active ingredients.

Capacity: 160 ml
Yield: 15 treatments
Index: 137586

SILKY SMOOTH FACE MASSAGE POWDER

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive skin, weakened by e.g. anti-acne treatments, imbalance of skin microbiota.

Active ingredients:

Complete Biotic Formula, β -Glucan.

Action:

- provides glide during the massage
- calms and soothes.

Capacity: 3 g
Yield: 1 treatment

MULTIACTIVE BALANCING AND PROTECTING FACE CONCENTRATE

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive skin, weakened by e.g. anti-acne treatments, imbalance of skin microbiota.

Active ingredients:

Synbiotic Complex, Ultra-Low Molecular Weight Hyaluronic Acid, Lactic Acid, Sodium Lactate, Witch Hazel, Bioprotection Shield.

Action:

- helps rebuild the skin microbiota
- regenerates, soothes and restores comfort
- protects against external factors
- strengthens the skin.

Capacity: 5 ml
Yield: 1 treatment

BALANCING AND PROTECTING SHEET FACE MASK

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive skin, weakened by e.g. anti-acne treatments, imbalance of skin microbiota.

Active ingredients:

Synbiotic Complex, Bioprotection Shield, Squalane, Spanish Sage, Prebiotics, Probiotics, β -Glucan, Witch Hazel, Hyaluronic Acid.

Action:

- helps to rebuild the skin microbiota
- regenerates, soothes and strengthens
- restores the feeling of comfort.

Capacity: 35 g
Yield: 1 treatment
Index: 137587

TREATMENTS SET

Set contains:

- 5 x Silky Smooth Face Massage Powder, 3 g
- 5 x Multiactive Balancing And Protecting Face Concentrate, 5 ml
- 5 x Balancing And Protecting Sheet Face Mask, 35 g

Index: 200970

BALANCING AND MOISTURISING FACE CREAM

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive skin, weakened by e.g. anti-acne treatments, imbalance of skin microbiota.

Active ingredients:

Synbiotic Complex, β -Glucan, Spanish Sage Oil, Witch Hazel, Squalane, Trehalose, Bioprotection Shield, Avocado Oil, Vitamin E.

Action:

- moisturizes
- helps to rebuild the skin microbiota
- soothes and strengthens
- protects against external factors and strengthens.

Capacity: 50 ml
Yield: 25 treatments
Index: 137588

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the MICROBIOME Pro Care line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

BEAUTY PARLOUR
FORMULA

ESSENCE OF ASIA

INDICATIONS

- tired, dull skin, devoid of glow • wrinkles, lack of skin firmness • skin exposed to harmful external factors, including free radicals • skin affected by premature aging and oxidative stress • smoker's skin

ACTION

- stimulation of synthesis of collagen and elastin • restoration of natural barrier functions of the skin • protection against the harmful effects of external factors • protection against free radicals • increase in moisture level and skin tension • skin rejuvenation and firming

CONTRAINDICATIONS

- allergy or hypersensitivity to the ingredients contained in the preparations

ADVANTAGES / BENEFITS

- the concentrate acts as both a serum and a light non-comedogenic massage preparation

NOTES

- face massage is an important part of the procedure, the original massage created especially for the needs of Bielenda Professional can be found on the CD attached to the treatment set

1 | 2

Perform a thorough makeup removal of the area submitted to treatment using products from the Bielenda Professional range, chosen depending on client's skin type. We especially recommend products from the Essence of Asia line. Apply the Balm-to-Oil Makeup Remover to dry skin of the face and neck, gently massaging in circular motions. Next, wet your hands and repeat the action until an emulsion is formed. Wash the skin with a damp treatment cloth or cotton pads. After cleansing the skin, wipe it with a cotton swab saturated with the Antioxidant Facial Toning Essence.

Exfoliate the skin using the Smoothing Powder Face Scrub. Pour a dose of the product into the palm of your hand. Add water to create a creamy emulsion. Apply the emulsion to the skin and massage gently. Massage time should be adjusted to the level of exfoliation we want to obtain. Wash off with a damp treatment cloth or cotton pads, then wipe the skin with a cotton swab saturated with the Antioxidant Facial Toning Essence.

3 | 4

Apply 2in1 Glow Restoring Facial Massage Multiconcentrate on the cleansed face and perform an original Essence of Asia massage. Do not rinse!

Next, apply the Tightening Sheet Mask to the face and neck so that it fits snugly over the entire surface of the skin. Leave for 15-20 minutes, then remove and massage the remaining essence into the skin.

TREATMENT PROCEDURE

5 | 6

At the end of the treatment apply the Glow Restoring Revitalizing Face Cream SPF 20 to the face and neck, massaging gently.

In order to enhance and extend the effects of the treatment, we recommend using the 5in1 Glow Restoring Face Elixir for professional home care.

INTERNAL GLOW RESTORING TREATMENT

MAIN ACTIVE INGREDIENTS

DONGBAEK OIL

Traditionally sourced Camellia Japonica seed oil is characterized by a wealth of antiradical ingredients, it has antioxidant effect and reduces skin inflammation. The content of phytosterols promotes skin regeneration. It also stimulates fibroblasts to produce collagen and elastin.

YEAST FILTRATE

Rich in polysaccharides, flavonoids, aminoacids and anti-inflammatory β -glucan. It helps to regenerate the skin and adds glow.

ANTI-POLLUTION SYSTEM

A unique ingredient that protects the skin against the harmful effects of external factors, including coal dust, heavy metals, and UV radiation.

EXPERT ADVICE

Monika Hajdziony - *Beautician of the Year 2017, cosmetologist, Master of biotechnology applied in cosmetology, pharmacist, podologist. Participant of numerous industry trainings, workshops, conferences and symposiums.*

Introduce the client to the climate of oriental relaxation from the very beginning of the visit. A chimney with the aroma of green tea will welcome our guest, and a cup of Green Tea will supplement the atmosphere of relaxation. Green tea, popular in Asia, present in the Essence of Asia line, is a source of biologically active compounds, affecting the human body comprehensively, considered to be a „drink of youth“.

RECOMMENDATIONS

Apply the treatment on the face, neck, chest, the proposed series is 4-8 treatments once a week. To maintain the effects - 1 treatment once a month. The treatment can be performed once to quickly improve the condition of the skin.

PRODUCTS FOR THE TREATMENT FACE CARE

BALM-TO-OIL MAKEUP REMOVER

Intended for:
tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:
Dongbaek Oil, Rice Oil, Avocado Oil, Bamboo Extract.

Action:

- removes makeup gently and effectively
- thoroughly cleanses the skin
- prepares skin for the treatment.

Capacity: 150 g
Yield: 40 treatments
Index: 137558

ANTIOXIDANT FACIAL TONING ESSENCE

Intended for:
tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:
Green Tea Hydrolate, Fermented Yeast Filtrate, Soybean Ferment Filtrate, Vitamin C, Allantoin, Extracts: Bamboo, Aloe, Cherry, Giseeng Root, Hyaluronic Acid.

Action:

- antioxidant effect
- restores physiological pH level
- tones
- regenerates and nourishes
- moisturizes.

Capacity: 500 ml
Yield: 60 treatments
Index: 137559

SMOOTHING POWDER FACE SCRUB

Intended for:
tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:
Matcha, β -glucan, Glucose, Aloe, Exfoliating particles.

Action:

- exfoliates superficial layers of the epidermis,
- antioxidant effect
- prepares the skin to receive active ingredients
- soothes.

Capacity: 100 g
Yield: 50 treatments
Index: 137560

2IN1 GLOW RESTORING FACE MASSAGE MULTI-CONCENTRATE

Intended for:
tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:
Centella Asiatica, Fermented Yeast Filtrate, Anti-pollution System, Green Tea Hydrolate, Extracts: Bamboo, Giseeng root, Cherry, Aloe Vera, Vitamin C, Hyaluronic Acid.

Action:

- ensures a perfect slip during massage
- moisturizes and soothes
- strengthens natural barrier functions of the skin
- antioxidant properties.

Capacity: 145 g
Yield: 5 treatments
Index: 137561

GLOW RESTORING REVITALIZING FACE CREAM

Intended for:
tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:
Dongbaek Oil, Anti-pollution System, Green Tea Herbal Water, Vitamin C, Bamboo and Cherry Extracts, Anti-Pollution System, Soybean Ferment Extract.

Action:

- regenerates and nourishes
- moisturizes
- revitalizes the skin
- protects against harmful external factors.

Capacity: 50 ml
Yield: 25 treatments
Index: 137563

TIGHTENING GLOW RESTORING SHEET MASK

Intended for:
tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:
Anti-pollution system, Peptides, Fermented Yeast Filtrate Extract, Green Tea Herbal Water, Hyaluronic Acid, Aloe, Ginseng and Cherry Extracts.

Action:

- protects against harmful external factors
- moisturizes and regenerates
- firms
- has antioxidant properties.

Capacity: 25 g
Yield: 1 treatment
Index: 137562

ESSENCE OF ASIA TREATMENT AVAILABLE IN TREATMENT SET AND IN SINGLE SELL

SET CONTAINS:

- 1 x Smoothing Powder Face Scrub, 100 g
 - 1 x 2in1 Glow Restoring Face Massage Multi-Concentrate, 145 g
 - 5 x Tightening Glow Restoring Sheet Mask, 25 g
 - 1 x Glow Restoring Revitalizing Face Cream SPF 20, 50 ml
 - 1 x original Essence of Asia massage instruction DVD
- Index: 200907**

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the ESSENCE OF ASIA line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

BEAUTY PARLOUR FORMULA

SKIN BREATH

INDICATIONS

• dull and anoxic skin • smoker's skin, ashen skin • wrinkles, lack of skin firmness • dry skin • skin affected with premature ageing and oxidative stress • puffy eyes and dark circles • sensitive skin • excessively tanned skin

ACTION

• fresh, youthful look • illuminated, brighter and oxygenated skin • cleansing and deep moisturization of the skin • slowing down changes caused by oxidative stress and harmful effect of UV radiation • reduction of puffy eyes and dark circles • reduction of wrinkle depth and increased skin firmness

CONTRAINDICATIONS

• allergy or hypersensitivity to the ingredients contained in the preparations

ADVANTAGES / BENEFITS

• innovative formula of enzymatic peeling and algae mask

NOTES

• prepare the Client for the tickling sensations that may appear when the Bubble Peel Mask is foaming and increasing its volume

1 | 2

Remove make-up precisely from the treatment area with the Bielenda Professional cosmetics best matching the skin type of the client. We especially recommend Skin Breath products. In order to cleanse the skin, apply the Skin Breath Micellar Gel-Cream Make-up Remover on a cotton pad and remove make-up. It is also perfect for the sensitive skin of the eye area. After cleansing the skin, wipe it with a cotton pad soaked with the Energizing Toning Facial Essence. Do not rinse.

Apply a portion of Skin Breath Bubble Peel Mask (approximately 10 doses) on the cleansed face. The mask will gently tickle your skin when foaming. After approximately 10 minutes, rinse with clean water. CAUTION! The mask increases its volume considerably when foaming, so avoid the eye, mouth and nostril area and leave approximately 1 cm margin. Rinse with lukewarm water in the case of irritation.

3 | 4

Massage Skin Breath Energizing and Nourishing Face Concentrate into cleansed skin. The preparation may also be applied with ultrasounds or needleless mesotherapy. You can apply the serum directly or in combination with the ultrasound gel. Do not rinse.

Measure out 90 ml of cold still mineral water in the shaker. Add 2 measures of powder and shake vigorously several times. Pour the mask into the shaker cap and then apply onto the face with a spatula, avoiding the eye, mouth and nostril area. Remove the mask in one piece after 15-20 minutes.

TREATMENT PROCEDURE

5 | 6

At the end of the treatment, apply Skin Breath Energizing Caffeine Eye Cream onto the eye area and Skin Breath Energizing and Oxygenating Face Cream, gently patting them in.

For longer and more intensive effects of the treatment we recommend Professional Home Care products from the SKIN BREATH line: 2-Phase Oxygenating Face Serum, Energizing Oxygenating Face Cream, Energizing Caffeine Eye Cream.

ENERGIZING OXYGENATING FACE TREATMENT

MAIN ACTIVE INGREDIENTS

COENZYME Q10

A component of cellular respiration. It helps to assimilate oxygen and produce ATP, a cellular fuel for which demand increases when the cell is exposed to harmful external factors. Administration of Q10 in a liposome increases its availability in the skin.

SEA MINERALS

They ensure correct level of skin nutrition and better blood supply and blocking transepidermal water loss.

GINSENG

The vitality restoring ingredient that has been used in Chinese medicine for four thousand years. It is rich in vitamins, minerals, amino acids, polysaccharides and the most important - ginsenosides, which increase haemoglobin's ability to attach oxygen, causing better nutrition and oxygenation of the skin.

EXPERT ADVICE

Justyna Dziura - Cosmetologist, Bielenda Professional Coach, Regional Sales Manager.

The treatment guarantees an immediate effect of illuminated skin and reduces the dark circles and puffy eyes. I also recommend it as a „banquet” treatment. It's perfect for skin affected by oxidative stress, which causes premature skin ageing. Thanks to professional home care from the Skin Breath line, clients will enjoy a strengthened and prolonged effect of the treatment.

RECOMMENDATIONS

Apply the treatment on the face, neck, chest, the proposed series is 4-8 treatments once a week. To maintain the effects - 1 treatment once a month. The treatment can be performed once to quickly improve the condition of the skin.

PRODUCTS FOR THE TREATMENT FACE CARE

MICELLAR GEL-CREAM MAKE-UP REMOVER

Intended for:
tired and underoxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients:
Trehalose, Ginseng Extract, Sorbitol, D-panthenol.

Action:

- removes make-up gently and effectively
- purifies the skin
- prepares skin for the treatment
- soothes.

Capacity: 500 g
Yield: 30 treatments
Index: 137516

ENERGIZING TONING FACIAL ESSENCE

Intended for:
tired and underoxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients:
Hyaluronic Acid, Orange Water Essence, Yeast Filtrate Extract.

Action:

- removes make-up gently and effectively
- purifies the skin
- prepares skin for the treatment
- soothes.

Capacity: 500 ml
Yield: 60 treatments
Index: 137515

BUBBLE PEEL MASK

Intended for:
tired and underoxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients:
Sea Minerals, Papain Bromelain, Citric Acid, Trehalose.

Action:

- gently exfoliates
- prepares the skin for absorption of active ingredients
- brightens the skin
- nourishing and oxygenating effect.

Capacity: 45 g
Yield: 10 treatments
Index: 137512

ENERGIZING AND NOURISHING FACE CONCENTRATE

Intended for:
tired and underoxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients:
Ginseng Extract, Coenzyme Q 10, Caffeine, Vitamin C, Hyaluronic Acid.

Action:

- restores skin's vitality
- oxygenates and nourishes
- regenerates
- moisturizes.

Capacity: 30 ml
Yield: 10 treatments
Index: 137514

ENERGIZING OXYGENATING FACE CREAM

Intended for:
tired and underoxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients:
Ginseng, Coenzyme Q10, Sea Minerals, Caffeine, Vitamin C.

Action:

- revitalizes the skin
- oxygenates
- moisturizes.

Capacity: 50 ml
Yield: 25 treatments
Index: 137509

ENERGIZING CAFFEINE EYE CREAM

Intended for:
tired, under-oxygenated skin, wrinkles around the eyes, dark circles, puffy eyes.

Active ingredients:
Caffeine, Eyebright Extract, Ginseng Extract, Marine Minerals, Hyaluronic Acid.

Action:

- reduces dark circles
- reduces puffy eyes
- has anti-wrinkle effect.

Capacity: 15 ml
Yield: 25 treatments
Index: 137510

OXYGENATING PEEL OFF ALGAE MASK WITH SEA MINERALS

Intended for:
tired and underoxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients:
Glucose, Sea Minerals.

Action:

- moisturizes
- oxygenates the skin..

Capacity: 80 g
Yield: 5 treatments
Index: 137513

SHAKER FOR ALGAE MASK
1 PIECE
Index: 137518

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the SKIN BREATH line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

BEAUTY PARLOUR
FORMULA

POWER OF NATURE

INDICATIONS

• dull, anoxic skin with impurities frequently exposed to deteriorating urban elements • skin in need of regeneration, after intensive exfoliation and/or aesthetic medicine procedures, also with special equipment • irritated, ageing skin; skin with acne and/or acne scars

ACTION

• detoxication and lightening of the skin • deep hydration and improved texture • restoration of skin barrier • strong antioxidant action • restoration and regeneration of the skin

CONTRAINDICATIONS

• allergy or hypersensitivity to the ingredients contained in the preparations

ADVANTAGES / BENEFITS

• peeling thoroughly and quickly removed without using water

NOTES

• inform the Client that tingling or tickling sensation may appear during removing peeling from the skin

1 | 2

Very thoroughly remove make-up around the treatment area using Bielenda Professional products matching customer's skin type. We especially recommend Micellar Make-up Removing Essence from the Power of Nature line.

NOTE! Protect the eyes against exfoliating magnetite filings. It is recommended to make a compress for tired eyes with cotton pads and Satin Rose Water. Apply a portion of the Magnetic Enzymatic Face Scrub and massage into the skin. The massage should last 2 to 5 minutes. Leave the peeling on the skin for up to 10 minutes. Remove magnetite filings from the skin with the included magnet. NOTE! Wrap the magnet in a disposable tissue. Wash off the rest of the preparation with a compress or sponge. Remove the protecting compress from the eyes.

3 | 4

Apply the Creamy Regenerating and Nourishing Face Mask with your hand or a brush. You may use occlusion to intensify the effect. Wash off the rest of the preparation with a compress or sponge.

Apply the Rebuilding Repair Serum with Snail Slime Extract on dry skin. Massage gently. You may use special equipment to apply the serum to enhance the effect. We recommend ultrasound or needleless mesotherapy with the 2-in-1 Photon Ultrasonic Massager. Do not wash off. If you use the device, remove excess contact gel for the ultrasound treatment.

TREATMENT PROCEDURE

5 | 6

Prepare the Detoxifying Algae Gel Face Mask with Activated Carbon by mixing 2 parts of the mask in 3 parts of cold, still mineral water. Mix until smooth and apply on the treatment area. Do not remove the mask until it is solid. Depending on customer skin temperature and ambient temperature, this may be about 15-20 minutes. After the solidification time, remove the whole algae gel mask in one piece.

At the end of the treatment, apply the Regenerating Face Cream with Snail Slime Extract SPF 15, and massage it in gently. The cream is perfect for care of the sensitive area around eyes as well.

DETOXIFYING AND REGENERATING TREATMENT

MAIN ACTIVE INGREDIENTS

SNAIL SLIME EXTRACT

Works like a regenerating potion. It contains collagen, elastin, glycolic acid, allantoin, antibacterial substances, and vitamins A, C, and E. It restores collagen fibres, has antibacterial properties, lightens and gently exfoliates the skin.

ACTIVATED CARBON

Demonstrates a deep cleansing, detoxifying, and bactericidal properties, and absorbs excess sebum.

MAGNETITE

It is a natural mineral whose filings are the scrub's abrasive particles. In addition to pyrrhotite, it's one of the naturally occurring magnetic substances. Its crystals are attracted by a magnet.

EXPERT ADVICE

Monika Hajdziony - *Beautician of the Year 2017, cosmetologist, Master of biotechnology applied in cosmetology, pharmacist, podologist. Participant of numerous industry trainings, workshops, conferences and symposiums.*

It's a perfect treatment also for men. The magnetic-enzymatic scrub thoroughly cleanses the skin, preparing it for the treatment. The magnet attached to the package will remove the exfoliating particles from the skin surface, perfectly dealing with facial hair, even of bearded men. The active ingredients cleanse and detoxify the skin while maintaining the regenerative effect, which is especially important in the care of men's skin.

RECOMMENDATIONS

Apply the treatment on the face, neck, chest, the proposed series is 4-8 treatments once a week. To maintain the effects - 1 treatment once a month. The treatment can be performed once to quickly improve the condition of the skin.

PRODUCTS FOR THE TREATMENT FACE CARE

MAGNETIC ENZYMATIC FACE SCRUB

Intended for: gray, underoxygenated skin, with impurities, skin requiring regeneration and detoxification, skin having frequent contact with urban contamination.

Active ingredients: Keratoline, Hyaluronic acid, Magnetite filings.

Action:

- exfoliates dead skin cells
- smoothes
- moisturizes.

Capacity: 150 g
Yield: 30 treatments
Index: 137482

CREAMY REGENERATING AND NOURISHING FACE MASK

Intended for: gray, underoxygenated skin, with impurities, skin requiring regeneration and detoxification, skin having frequent contact with urban contamination.

Active ingredients: Avocado oil, Babassu oil, Vitamin E, Rose oil, Activated carbon, Green tea.

Action:

- cleanses and detoxifies
- regenerates
- has antioxidant and anti-ageing properties
- moisturizes
- smoothes.

Capacity: 150 ml
Yield: 20 treatments
Index: 137483

REGENERATING AND REJUVENATING FACE SERUM WITH SNAIL SLIME EXTRACT

Intended for: gray, underoxygenated skin, with impurities, skin requiring regeneration and detoxification, skin having frequent contact with urban contamination.

Active ingredients: Hyaluronic Acid, Snail slime extract, Aloe, Vitamin B3.

Action:

- moisturizes
- soothes
- regenerates.

Capacity: 30 ml
Yield: 10 treatments
Index: 137484

MICELLAR MAKE-UP REMOVING ESSENCE

Intended for: every skin type, especially with impurities, skin requiring regeneration..

Active ingredients: Hyaluronic Acid, Yeast Filtrate Extract, Hydrolyzed Glycosaminoglycans, D-panthenol, Allantoin.

Action:

- gently and effectively removes make-up
- cleanses the skin
- prepares the skin for the treatment.

Capacity: 500 ml
Yield: 60 treatments
Index: 137594

DETOXYFYING ALGAE GEL FACE MASK WITH ACTIVATED CARBON

Intended for: gray, underoxygenated skin, with impurities, skin requiring regeneration and detoxification, skin having frequent contact with urban contamination.

Active ingredients: Glucose, Activated carbon, Oat silk.

Action:

- deeply cleanses and detoxifies the skin
- absorbs excess sebum
- alleviates irritations.

Capacity: 190 g
Yield: 10 treatments
Index: 137481

REGENERATING FACE CREAM WITH SNAIL SLIME EXTRACT SPF 15

Intended for: gray, underoxygenated skin, with impurities, skin requiring regeneration and detoxification, skin having frequent contact with urban contamination.

Active ingredients: Snail slime extract, Hyaluronic acid, Rose oil, Aloe, Buriti oil, Sweet almond oil.

Action:

- regenerates
- provides deep moisturisation
- alleviates
- strengthens collagen and elastin
- has antioxidant properties.

Capacity: 100 ml/50 ml
Yield: 50/25 treatments
Index: 137508/137486

NEODYMIUM MAGNET FOR THE TREATMENT 1 PIECE
Index: 137487

POWER OF NATURE TREATMENT AVAILABLE IN TREATMENT SET AND IN SINGLE SELL

SET CONTAINS:

- 1x Magnetic - Enzymatic Face Scrub, 150 g
 - 1x Creamy Regenerating and Nourishing Face Mask, 150 ml
 - 1x Rebuilding Repair Face Serum with Snail Slime Extract, 30 ml
 - 1x Regenerating Face Cream with Snail Slime Extract SPF 15, 50 ml
 - 1x Magnet
 - 1x Head Band
 - 5x Cream sample
- Index: 200806**

THE PRODUCT IS RECOMMENDED FOR TREATMENTS PERFORMED WITH THE USE OF APPARATUS

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the POWER OF NATURE line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

BEAUTY PARLOUR FORMULA

HYDRA-HYAL² INJECTION

INDICATIONS

- every type of skin • treatment recommended for those over 30 years of age • skin with clearly delineated wrinkles • dry skin with symptoms of loss of firmness and elasticity • sensitive skin, skin showing signs of aging

ACTION

- intense and long-lasting hydration • improved natural contours of the face • smoothing of superficial wrinkles • increased skin elasticity and firmness • smoothed skin • radiant and visibly rejuvenated skin • improvement of the structure and appearance of the skin

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- the skin becomes more tense immediately • the treatment perfectly complements rejuvenating therapies in aesthetic medicine procedures (we do not perform ultrasounds in the procedure then)

NOTES

- make sure that the client does not suffer from claustrophobia and warn that after applying the Anatomic algae and gypsum mask, they may feel weight on their face

1 | 2

Remove eye and lip make-up using Eye and lip makeup remover. Cleanse the skin of the face, neck and décolleté using Ultra moisturizing cream for make-up removal. Next, apply the Ultra moisturizing facial toner to tone the skin.

Apply the Hyaluronic enzymatic face scrub to the area undergoing the treatment. Apply a thin layer to clean and dry face skin avoiding the eye area. Leave for approx. 3 minutes. For about 3 minutes with circular movements perform a gentle massage, during which occurs a rolling effect of the product and the abrasion of dead skin cells. Rinse off with lukewarm water and tone the skin.

3 | 4

Apply three doses of 3.5% Hyaluronic Facial Serum to cleansed skin. The serum must be applied in a thin, even layer over the entire surface of the treated skin (face, neck). Then massage in the serum for about 5 minutes using ultrasounds or massage manually until absorbed.

NOTE! We suggest the application of a thin layer of Contact-Gel for ultrasound treatments, in order to increase comfort and glide between the device head and the skin. Do not rinse off the serum, any excess of Contact-Gel can be removed with dry cosmetic pads. Secure the eye area with cosmetic pads soaked in Satin rose water.

TREATMENT PROCEDURE

5 | 6

Apply a thick layer of Hyaluronic lifting face mask on the face, neck and neckline. Cover the face and neck with clean gauze, leaving the nostrils unobstructed. Mix 5 scoops of the powder and 3 scoops of cold mineral water (still) until the texture is smooth. Then immediately put the mask evenly over the entire face and neck - avoiding the eye area, and leaving the nostrils free. Apply the mask by massaging vigorously in even stripes outwards and slightly upwards. After 20 minutes, carefully remove the mask in one piece.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available in the end of the catalogue). Apply the Hyaluronic liquid crystal face cream SPF 15 onto the face, neck and chest.

REJUVENATING FACE VOLUMETRY TREATMENT

MAIN ACTIVE INGREDIENTS

HEXAPEPTIDE (ARGIRELINE™)

It is a neuropeptide that blocks the release of neurotransmitters, and reduces the intensity and frequency of facial muscles micro-contractions. This helps to reduce wrinkles resulting from movement of the facial muscles, and prevents the formation of new mimic wrinkles.

LOW MOLECULAR WEIGHT HYALURONIC ACID (LMW)

It has the capacity to penetrate through the stratum corneum of the epidermis, thus activating biochemical processes in deeper layers of the skin. It ensures the correct level of skin hydration at the epidermal and dermal levels, and reduction of TEWL. The Low molecular weight Hyaluronic acid used in the preparations has a molecular weight of 0,4-100 kDa.

HIGH MOLECULAR WEIGHT HYALURONIC ACID (HMW)

It remains on the skin surface, where it forms an occlusive layer, the so-called hydrofilm, ensuring the appropriate level of hydration, and protecting the skin from loss of elasticity. The High molecular weight hyaluronic acid used in the preparations has a molecular weight of 1-1.5 million kDa.

EXPERT ADVICE

Justyna Dziura - *Cosmetologist, Bielenda Professional Coach, Regional Sales Manager.*

Occlusion in the form of algae and gypsum face mask enhances the penetration of active ingredients, reduces TEWL and improves hydration of the epidermis. In addition, this type of modelling mask gently tightens the skin and improves the face contour while setting. We apply the mask symmetrically in strands towards the sides and upwards, along the muscles.

RECOMMENDATIONS

Treatment to be applied to the face and neck. The suggested regimen is a series of 4-6 treatments, once a week. To sustain the effects, one treatment once a month, plus one-off treatments to quickly improve the condition of the skin.

PRODUCTS FOR THE TREATMENT FACE CARE

HYALURONIC MAKE-UP REMOVER

Intended for:
dry skin lacking firmness, skin with signs of ageing.

Active ingredients:
Low Molecular Weight Hyaluronic Acid, High Molecular Weight Hyaluronic Acid, Allantoin, Vitamin E.

Action:

- toned and refreshed skin
- optimum hydration
- reduced skin tension
- a perfect finish of make-up removal.

Capacity: 500 ml
Yield: 60 treatments
Index: 137455

HYALURONIC FACE TONER

Intended for:
dry skin lacking firmness, skin with signs of ageing.

Active ingredients:
Low Molecular Weight Hyaluronic Acid, D-panthenol.

Action:

- perfectly removes make-up, also from the eyes
- cleanses and refreshes the skin
- relieves and soothes irritation
- provides optimum hydration.

Capacity: 500 ml
Yield: 60 treatments
Index: 137454

HYALURONIC ENZYMATIC FACE SCRUB

Intended for:
all skin types, including dry skin, skin lacking firmness and skin with signs of ageing.

Active ingredients:
Low Molecular Weight Hyaluronic Acid, High Molecular Weight Hyaluronic Acid, Trehalose, Papaya extract, Pineapple extract, D-Panthenol.

Action:

- exfoliates dead skin cells gently
- smooths and moisturises the skin
- relieves irritation effectively
- brightens and improves skin tone.

Capacity: 150 g
Yield: 30 treatments
Index: 137456

3,5% HYALURONIC FACE SERUM

Intended for:
dry skin with loss of firmness, showing signs of ageing, also around the eyes.

Active ingredients:
Low molecular weight Hyaluronic acid, High molecular weight Hyaluronic acid, Hyaluronic acid, Allantoin.

Action:

- intensely hydrates
- stimulates natural skin moisturizing mechanisms
- smooths the skin
- adds elasticity and firms the skin
- creates a hydrofilm on the skin (prevents drying)
- reduces superficial wrinkles.

Capacity: 50 g
Yield: 17 treatments
Index: 137393

HYALURONIC FACE CREAM SPF 15

Intended for:
dry skin with loss of firmness, showing signs of ageing.

Active ingredients:
Hydra-HYAL² technology (Low molecular weight Hyaluronic acid, High molecular weight Hyaluronic acid, Hydrolyzed Glycosaminoglycans, Hexapeptide).

Action:

- reduces skin roughness and the feeling of skin tension
- offers long-term protection against dryness
- smooths and firms the skin
- overall effects of lightly mattified skin.

Capacity: 150 ml
Yield: 50 treatments
Index: 137396

ANATOMICAL ALGAE-GYPSUM FACE MASK

Intended for:
dry skin with loss of firmness, showing signs of ageing.

Active ingredients:
Alginate, Gypsum.

Action:

- facilitates absorption of active substances from the preparations applied under the mask
- improves skin firmness
- volumizes and shapes the face contour.

Capacity: 800 g
Yield: 10 treatments
Index: 137394

THE PRODUCT IS RECOMMENDED FOR TREATMENTS PERFORMED WITH THE USE OF APPARATUS

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the HYDRA-HYAL² INJECTION line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

BEAUTY PARLOUR FORMULA

AQUA-PORIN ULTRA EFFECT

essential

INDICATIONS

• all skin types from 25 years of age • dry and dehydrated skin deprived of sufficient oxygen • skin after excessive exposure to the sun • after microdermabrasion and acid exfoliation, or other beauty treatments

ACTION

• intensive and long-lasting moisturizing action from the inside and outside • progressive activation of aquaporins in the skin • reinforcement and regeneration of the skin • leaving it soft and silky smooth • improved skin firmness and elasticity • delivers the sensation of skin comfort • soothes and calms irritation • the skin looks radiant and healthy

CONTRAINDICATIONS

• allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

• the treatment perfectly complements rejuvenating therapies in aesthetic medicine procedures (we do not perform ultrasounds in the procedure then)

NOTES

• to extend the time of contact of the head with the skin, apply a top layer of Contact gel for ultrasound treatments after application of the serum

1 | 2

Remove eye and lip make-up with the Face & Lip Make-up Remover. Cleanse the face, neck and décolleté with the Ultra Moisturizing Makeup Removal Cream. Rebalance the skin with the Ultra Moisturizing Facial Toner.

Apply the 2in1 Enzymatic Fine Grained Facial Scrub with Papain and Bromelain on the treatment area. Exfoliate the face, neck and décolleté for 5-10 minutes. Rinse the scrub with lukewarm water, dry and balance the skin. NOTE! Choose the proper exfoliation method depending on the skin type. Follow the instructions provided on the packaging.

3 | 4

Apply the Ultra Moisturizing Facial Serum on cleansed skin. Massage it gently into the skin; use a suitable system (ultrasounds, etc.) to deliver better treatment results.

The Ultra Moisturizing Facial Mousse can be used for a relaxing massage of the face, neck and décolleté.

TREATMENT PROCEDURE

5 | 6

After the serum has been applied on the skin, soak cosmetic pads with the Satin Rosewater and apply them on closed eyes. Next, prepare the Transparent Ultra Moisturizing Algae Mask (mix 3 portions of the powder and 2 portions of cold mineral water), and apply it on the face and neck. The Ultra Moisturizing Facial Mousse can be used instead of the Algae Mask. Leave it on for 20 minutes and remove.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available in the end of the catalogue). Apply the Ultra Moisturizing Liquid Crystal Facial Cream SPF 15 on the face, neck and décolleté.

ULTRA HYDRATING ANTI-AGEING TREATMENT

MAIN ACTIVE INGREDIENTS

DUO AQUA - PORIN

Salicornia herbacea extract (salt marsh plant living in coastal areas which can adapt to the most extreme environmental conditions) responsible for aquaporin-mediated water and urea transport, the so-called hydrostatic equilibrium. It helps effectively rebuild the structure of the epidermis to restore optimum skin hydration levels.

TREHALOSE

A natural disaccharide that permits survival of selected plant species in conditions of extreme dehydration. Trehalose protects human skin against excessive dehydration. It helps maintain proper skin moisture and prevents fibroblast degeneration.

BETAINE

A natural product with unusual water-binding properties. It protects the skin against mechanical and chemical damage. It smoothes the skin, giving instant impression of smoothness. Betaine influences the proper transport of water to and from the skin cells.

EXPERT ADVICE

Sylwia Wójcik - Care Expert, Coach, Bielenda Professional Research & Development Expert.

Scientific discoveries and observation of skin physiology have become the inspiration for the creation of the treatment. The discovery of Aquaporins was awarded the Nobel Prize in 2003. The laboratory of Bielenda Professional used this discovery to create a treatment that maintains the hydrostatic balance of the skin and effectively rebuilds the structure of the epidermis. The liquid crystal technology used in the treatment copies the structure of intercellular cement of the epidermis, thanks to which it effectively seals the natural barrier of the skin.

RECOMMENDATIONS

Apply on the face, neck and décolleté, a series of 6 treatments once per week is initially recommended, subsequently once per month to prolong treatment effects, occasionally before special events.

PRODUCTS FOR THE TREATMENT FACE CARE

ULTRA HYDRATING FACE CLEANSING CREAM

Intended for:
all skin types, especially dry and dehydrated skin.

Active ingredients:
Trehalose, Sweet Almond Oil, Vitamin E.

Action:

- effective makeup remover
- the skin is well prepared for the treatment
- removes all impurities
- calms and soothes skin irritation
- restores optimum hydration
- leaves the epidermis smooth and soft.

Capacity: 500 ml
Yield: 60 treatments
Index: 137319

ULTRA HYDRATING FACE TONER

Intended for:
all skin types, especially dry and dehydrated skin.

Active ingredients:
Lactic Acid, Sodium Lactate, Trehalose, Betaine.

Action:

- toned and refreshed skin
- restores optimum hydration
- alleviates the sensation of skin tightness
- delivers the final touch in make-up removal.

Capacity: 500 ml
Yield: 60 treatments
Index: 137320

2in1 ENZYMATIC FINE GRAIN SCRUB WITH PAPAINE AND BROMELAIN

Intended for:
sensitive, dry and dehydrated skin.

Active ingredients:
Papain, Bromelain, Urea, Avocado Oil.

Action:

- combined enzymatic and mechanical exfoliation
- cornified epidermal cells removed
- the skin is well prepared for the treatment
- smooth and regenerated skin
- leaves the skin radiant and refreshed
- the skin becomes silky soft.

Capacity: 150 g
Yield: 30 treatments
Index: 137321

ULTRA HYDRATING FACE SERUM

Intended for:
all skin types, especially dry and dehydrated skin.

Active ingredients:
Trehalose, Betaine.

Action:

- provides intensive hydration
- supports the natural skin protection mechanisms
- prevents water and urea loss
- restores the proper skin elasticity
- improves the skin suppleness
- smoothes the epidermis
- anti-ageing action.

Capacity: 30 ml
Yield: 10 treatments
Index: 137322

ULTRA HYDRATING FACE MOUSSE

Intended for:
all skin types, especially dry and dehydrated skin.

Active ingredients:
Duo AQUAPorin, Trehalose, Grape Seed Oil.

Action:

- provides intensive hydration
- activates the natural skin hydration mechanisms
- delivers long-lasting protection against dehydration
- reduces the sensation of rough and tight skin.

Capacity: 150 g
Yield: 20 treatments
Index: 137323

TRANSPARENT ULTRA HYDRATING ALGAE FACE MASK

Intended for:
all skin types, especially dry and dehydrated skin.

Active ingredients:
Alginate, Trehalose, Betaine, Microcapsulated Vitamin E.

Action:

- improved skin hydration and nourishment
- calms and soothes skin irritation
- intensified skin regeneration
- prevents loss of skin elasticity
- tones the skin.

Capacity: 190 g
Yield: 10 treatments
Index: 137324
Index (Refill package): 137326

ULTRA HYDRATING LIQUID CRYSTAL FACE CREAM SPF 15

Intended for:
all skin types, especially dry and dehydrated skin.

Active ingredients:
Ceramides, Phytosterols, Linoleic Acid and Linolenic Acid extracted from Kukui Nut Oil, Linoleic Acid extracted from Passiflora Oil, Duo AQUAPorin, Trehalose, Betaine.

Action:

- intensive and long-lasting moisturization (water retention in the skin)
- protection against transepidermal water loss
- activates the natural skin hydration mechanisms
- stimulates regeneration of the epidermal barrier lipids
- makes the skin look radiant and healthy
- calms the sensation of skin discomfort
- delivers proper skin moisturization.

Capacity: 100 ml
Yield: 30 treatments
Index: 137325

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Liquid Crystal Ultra Hydrating Face Cream SPF 15 for professional home care.

BEAUTY PARLOUR
FORMULA

ESSENCE OF YOUTH

essential

INDICATIONS

- any kind of skin after 35 years of age
- skin with symptoms of decline in elasticity and firmness
- skin with an increased tendency to form wrinkles

ACTION

- moisturizes, nourishes
- minimizes the harmful influence of external factors (UV radiation, pollution)
- the skin is visibly rejuvenated
- skin becomes radiant and regains firmness and the potential for intensive, natural regeneration

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- fundamental skin rejuvenation

NOTES

- at the last stage of the treatment, after the application of the algae mask, you can perform a relaxing hand massage using the Cold paraffin hand mask with shea butter

ANTI-AGING TREATMENT WITH STEM CELLS PHYTOCELLTEC™ ARGAN

MAIN ACTIVE INGREDIENTS

PHYTOCELLTEC™ ARGAN

An innovative ingredient based on plant stem cells derived from argan sprouts. This is the first active ingredient with scientifically proven protective and revitalizing effect on skin stem cells.

ARGAN OIL

Obtained exclusively by the traditional method of pressing Argan tree nuts. It contains: tocopherols, phytosterols, triterpenalcohols, saturated fats, unsaturated fats and OMEGA fatty acids. It has antioxidant properties. It has excellent moisturising effect on the skin.

HYALURONIC ACID

A very strong moisturiser that occurs in our skin. A strong anti-wrinkle ingredient penetrates into the epidermis easily and quickly and fills wrinkles from the inside.

EXPERT ADVICE

Justyna Mrówczyńska - Master of cosmetology, Regional Assistant Sales Manager, Bielenda Professional Coach.

PhytoCellTec™ Argan stem cell extract used in the Essence of Youth treatment penetrates deep into the skin through hair follicles and clearly rejuvenates, tightens and moisturises the skin, increases its density and protects it against external factors. Rejuvenating face mousse with argan oil is perfectly suited for face massage.

1 | 2

Thoroughly remove make-up from the treatment area with the use of Bielenda Professional products, selected for the skin type of the client (full offer of make-up removal products is available in the end of the catalogue).

Apply Facial Scrub with stem cells PhytoCellTec™ Argan on the area covered by the treatment. For about 5-10 minutes massage the face, neck and décolleté. After this time wash the scrub off with warm water and dry the skin, then tone. NOTE! Match the peel with the client's skin type. Follow the instructions on the packaging.

RECOMMENDATIONS

Treatment designed for face, neck and décolleté, proposed as a series of 6-8 treatments twice a week, to maintain the effects one treatment once a month. A single application may be treated as a 'banquet' treatment.

3 | 4

Apply Face Serum with stem cells PhytoCellTec™ Argan. Massage the serum into the skin, use the machine of your choice (eg ultrasound) to enhance the effects.

NOTE! We suggest the application of a thin layer of Contact-Gel for ultrasound treatments, in order to increase comfort and glide between the device head and the skin. If the serum is applied manually, perform a relaxing massage of the face, neck and décolleté with the Rejuvenating Facial Mousse with stem cells PhytoCellTec™ Argan.

TREATMENT PROCEDURE

5 | 6

After the application of serum soak cotton pads in Satin Rose Water and apply to eyes as a soothing compress. Then prepare the Algae Mask with stem cells PhytoCellTec™ Argan (2.5 scoops of powder per 3 scoops and mineral water), apply it on face and neck. Interchangeably with algae mask you can use Rejuvenating Facial Mousse of stem cells PhytoCellTec™ Argan. To intensify the effects create the occlusion by putting the Algae Mask on top of it. Leave for 20 minutes, then remove.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available on page 68 of the catalogue). To the face, neck and décolleté apply Rejuvenating Facial Cream with stem cells PhytoCellTec™ Argan SPF 15.

PRODUCTS FOR THE TREATMENT FACE CARE

ARGAN FACE SCRUB WITH PLANT STEM CELLS

Intended for:

dry, combination, sensitive skin.

Active ingredients:

PhytoCellTec™ Argan, Argan Oil, Olive Oil, Avocado Oil, Sweet Almond Oil, D-Panthenol, Vitamin E.

Action:

- removes dead skin cells
- prepares the skin for further stages of the treatment
- nourishes and moisturises the skin intensively
- makes skin soft and velvety smooth
- smooths and regenerates skin
- brightens, refreshes and relaxes skin.

Capacity: 150 g**Yield: 30 treatments****Index: 137309**

FACE SERUM WITH PLANT STEM CELLS

Intended for:

skin that needs revitalisation.

Active ingredients:

PhytoCellTec™ Argan, Arginine, Urea, Sodium Lactate, Lactic Acid, Hyaluronic Acid.

Action:

- revitalised skin cells
- moisturised and nourished skin
- more elastic, tender and denser skin
- reduced depth of wrinkles
- it intensifies the process of microdamage regeneration
- it strengthens the metabolic functions of the skin.

Capacity: 30 ml**Yield: 10 treatments****Index: 137293**

REJUVENATING FACE MOUSSE WITH PLANT STEM CELLS

Intended for:

skin lacking elasticity and firmness.

Active ingredients:

PhytoCellTec™ Argan, Argan Oil, Vitamin E, Hyaluronic Acid.

Action:

- rejuvenated and revitalised skin
- moisturised and nourished skin
- strengthened regenerative potential of the skin
- increased skin firmness and density
- improved skin tension
- reduced depth of wrinkles
- it revitalises and protects the valuable cells of the dermis.

Capacity: 175 g**Yield: 20 treatments****Index: 137294**

REJUVENATING FACE CREAM WITH PLANT STEM CELLS SPF 15

Intended for:

skin lacking elasticity and firmness.

Active ingredients:

PhytoCellTec™ Argan, Argan Oil, Bio-Peptides, Hyaluronic Acid.

Action:

- rejuvenates the skin thoroughly
- moisturised and revitalised skin
- revitalises the stem cells of the dermis
- strengthened regenerative potential of the skin
- increased skin firmness and density
- improved skin tension
- reduced depth of wrinkles
- revitalises and protects the valuable cells of the dermis.

Capacity: 100 ml**Yield: 30 treatments****Index: 137296**

ALGAE FACE MASK WITH PLANT STEM CELLS

Intended for:

skin lacking elasticity and firmness.

Active ingredients:

PhytoCellTec™ Argan, Alginate (100% brown algae extract).

Action:

- revitalised skin cells
- moisturised and nourished skin
- more elastic, tender and denser skin
- intensifies the process of skin regeneration.

Capacity: 190 g**Yield: 10 treatments****Index: 137295****Index (Refill package):****137297**

BEAUTY PARLOUR
FORMULA

WATERFALLS OF GOLD

essential

INDICATIONS

- each skin type • complexion requiring brightening and firming • fine wrinkles and expression lines • occasionally before a special event

ACTION

- increased collagen and elastin synthesis • intensive skin moisturization and softening • improved skin density and structure • reduced fine wrinkles • skin nourishment and regeneration • bright and radiant-looking skin

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- firm, regenerated and illuminated skin

NOTES

- at the last stage of the treatment, after the application of the algae mask, you can perform a relaxing hand massage using the Cold paraffin hand mask with shea butter • serum is intended for manual application

EXCLUSIVE MOISTURIZING & FIRMING TREATMENT

MAIN ACTIVE INGREDIENTS

COLLOIDAL GOLD

The small size of gold particles (about 4 microns) allows it to be absorbed through the skin, where it stimulates repair processes, supports the production of collagen and positively affects the blood supply to the capillaries.

MICROCOLLAGEN

It is a tripeptide with a structure identical to the one that stimulates collagen synthesis in our skin. It is a biomimetic peptide because it mimics our natural reactions occurring in the skin.

BOSWELIA SERRATA

It has remarkable irritation relieving and soothing properties. It reduces the symptoms of pain, redness and itching by blocking the key enzyme that causes inflammatory reactions.

EXPERT ADVICE

Sylwia Wójcik - Care Expert, Coach, Bielenda Professional Research & Development Expert.

The treatment will be great for mature skin, which needs firming and regeneration. Thanks to the content of such ingredients as colloidal gold, caviar extract and vegetable oil blends, the skin will be smoothed and nourished after the treatment, and the brightening particles contained in the serum and algae mask will give the skin a healthy and radiant look.

1 | 2

Remove make-up thoroughly on the treatment area using products from the Bielenda Professional brand matching the client's skin type (a full range of facial make-up remover products is available in the end of the catalogue in the section „Make-up Removal”).

Apply a peel matching the client's skin type (a full range of facial peels is available in the end of the catalogue in the section: „Peelings”).

3 | 4

Perform a relaxing face, neck and chest massage using a Nourishing face massage cream. After the massage, remove the excess cream with a moist compress.

Apply the Firming serum with colloidal gold. Massage it into the skin gently. After applying the serum, wet cotton pads with Satin rose water and apply to the eyes as a compress for tired eyelids.

TREATMENT PROCEDURE

5 | 6

Prepare the Algae mask with colloidal gold, and apply it on the face and neck. Leave it for 20 minutes. Remove the mask and tone the skin. Then apply the Gold firming mask for the face, neck and chest, leave to absorb.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available in the end of the catalogue). Apply the Regenerating face cream with colloidal gold SPF 10 onto the face, neck and chest.

RECOMMENDATIONS

Apply on face, neck and décolleté, a series of 5 treatments once per week is initially recommended, subsequently once per month to prolong treatment effects, occasionally before special events.

PRODUCTS FOR THE TREATMENT FACE CARE

FIRMING FACE SERUM WITH COLLOIDAL GOLD

Intended for:
all skin types.

Active ingredients:
Colloidal gold, Caviar.

Action:

- stimulates the natural vitality of cells
- inhibits the process of wrinkle formation
- smooths and reduces existing wrinkles
- increases the bounciness and elasticity of the epidermis
- eliminates discolouration and evens skin tone
- makes skin illuminated and radiant.

Capacity: 50 ml
Yield: 25 treatments
Index: 137112

GOLD FIRMING FACE MASK

Intended for:
all skin types.

Active ingredients:
Colloidal gold, Microcollagen, Bio-bustyl, Caviar extract.

Action:

- moisturises and softens the epidermis intensely
- stimulates the natural vitality of cells
- improves skin density and strengthens its structure
- reduces fine lines
- nourishes and regenerates skin
- makes skin illuminated and radiant.

Capacity: 175 ml
Yield: 20 treatments
Index: 137251

REGENERATING FACE CREAM WITH COLLOIDAL GOLD SPF 10

Intended for:
all types of skin that needs regeneration.

Active ingredients:
Colloidal Gold, Boswellia Serrata, Niacinamide PC, Macadamia Oil, Kukui Oil, Arginine.

Action:

- accelerates the regeneration of the epidermis thanks to the unique combination of gold, aminopeptides and medicinal plant oils
- moisturises skin, relieves itching and burning
- has antibacterial properties
- UV protection.

Capacity: 150 ml
Yield: 50 treatments
Index: 137149

FACE ALGAE MASK WITH COLLOIDAL GOLD

Intended for:
skin lacking firmness.

Active ingredients:
Colloidal gold, Alginate (100% brown algae extract).

Action:

- stimulates the production of collagen and elastin
- improves skin density and strengthens its structure, tightens and smooths it (lifting effect)
- shapes the facial contour
- neutralizes free radicals
- moisturises deeply
- improves skin tone.

Capacity: 190 g
Yield: 10 treatments
Index: 137095
Index (Refill package): 200078

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Regenerating Face Cream with Colloidal Gold SPF 10.

BEAUTY PARLOUR
FORMULA

DIAMOND LIFTING

essential

INDICATIONS

- mature skin with reduced firmness and elasticity • skin requiring re-generation, strengthening and firming • fine wrinkles and expression lines • occasionally before a special event

ACTION

- lifting and firming effect • reduced visibility of wrinkles • improved elasticity • face contour modelling • reduced signs of fatigue and stress • absorption of active substances that activate skin recovery • improved skin hydration and colour

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- skin lifting • perfect as a 'banquet' treatment

NOTES

- the treatment serum is intended for manual application

EXCLUSIVE LIFTING TREATMENT FOR MATURE SKIN

MAIN ACTIVE INGREDIENTS

POWDERED DIAMOND

A mineral, natural crystalline substance called the „king of gems“. Powdered diamonds have the ability to reflect light, which gives illuminating effect that adds radiance to the skin.

BIO-BUSTYL®

It contains three synergistic substances: a biotechnological bacterial filtrate rich in growth cells, a biopeptide stimulating collagen synthesis and a biopeptide called „elastic“, because it is made of elastin sequences.

EASY LIFT

A complex of two synergistic ingredients. It tightens the skin by mechanical action caused by polymer structure. The active ingredient is adsorbed and stretches over the surface of the skin creating a uniform, elastic film. It retracts and stretches the skin in a short time. This results in visible and immediate smoothing of wrinkles.

EXPERT ADVICE

Justyna Mrówczyńska - Master of cosmetology, Regional Assistant Sales Manager, Bielenda Professional Coach.

The treatment gives the skin an immediate effect of tension, reduction of fine lines, hydration and brightening. Applied in a series, it can visibly improve the overall condition of mature skin. In the last stage of the treatment after applying the algae mask, we can perform a relaxing hand massage using cold paraffin - hand mask with shea butter, which additionally softens, lubricates and nourishes the skin.

1 | 2

Thoroughly remove make-up from the treatment area with the use of Bielenda Professional products, selected for the skin type of the client (full offer of make-up removal products is available in the end of the catalogue).

Perform a face peeling using a product tailored to the client's skin (full offer of face peelings available in the end of the catalogue).

RECOMMENDATIONS

Apply on face, neck and décolleté, a series of 8 treatments once per week is initially recommended, subsequently once per month to prolong treatment effects, occasionally before special events.

3 | 4

Perform a relaxing massage using the Nourishing face massage cream. After the massage, remove any excess of the cream with wet compress.

Apply Diamond lifting face serum. Gently massage it into the skin. After the serum is applied, soak cosmetic pads with Satin Rose Water and put them on eyes as a compress for tired eyelids.

TREATMENT PROCEDURE

5 | 6

Prepare Diamond Algae Mask, and apply it on the face and neck. Leave it on for 20 minutes. Remove the mask and balance the skin. Apply Diamond Lifting Mask on the face, neck and décolleté, leave to absorb.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available on page 68 of the catalogue). Apply the Diamond Lifting Face Cream SPF 15 on the face, neck and décolleté.

PRODUCTS FOR THE TREATMENT FACE CARE

DIAMOND LIFTING FACE SERUM

Intended for:
mature skin.

Active ingredients:
Diamond powder, Easy-Lift.

Action:

- improves and enriches all cosmetic treatments
- inhibits the process of wrinkle formation
- smooths and reduces existing wrinkles
- improves the bounciness and elasticity of the face, neck and chest.

Capacity: 50 ml
Yield: 25 treatments
Index: 137215

DIAMOND LIFTING FACE MASK

Intended for:
mature skin.

Active ingredients:
Diamond powder, Easy-Lift, Microcollagen, Bio-bustyl.

Action:

- lifting effect on the skin
- improved skin tension
- smooths wrinkles by filling them from the inside
- tightened and moisturised skin
- prevents the skin from slackening.

Capacity: 175 ml
Yield: 20 treatments
Index: 137253

DIAMOND LIFTING FACE CREAM SPF 15

Intended for:
mature skin that needs lifting.

Active ingredients:
Diamond powder, Easy-Lift ECOCERT certified, Ginseng, Marine Collagen.

Action:

- moisturised and regenerated skin
- optically reduced wrinkles
- improved skin tension
- immediate lifting effect
- antioxidant properties
- rejuvenates and regenerates skin cells.

Capacity: 100 ml
Yield: 30 treatments
Index: 137290

DIAMOND ALGAE FACE MASK

Intended for:
mature skin that needs lifting.

Active ingredients:
Diamond powder, Alginate (100% brown algae extract), Macroelements, Microelements.

Action:

- optically reduced wrinkles
- more tense and smoother skin
- quick and effective hydration of the skin
- intensively nourishes the skin ensuring its proper functioning
- combats free radicals and thus prolongs youthful look of the skin.

Capacity: 190 g
Yield: 10 treatments
Index: 137199
Index (Refill package): 200182

PROFESSIONAL HOME CARE

BEAUTY PARLOUR
FORMULA

In order to intensify and prolong effects of the treatment, we recommend using Diamond Lifting Face Cream SPF 15.

THE INJECTION OF YOUTH

essential

INDICATIONS

• for over-25-year-olds representing each skin type • dry skin • skin requiring regeneration • structural wrinkles and expression lines • supplementary to aesthetic medicine treatments • occasionally before a special event

ACTION

• smoothed and reduced wrinkles • intensive hydration • replenishment of water deficits in the horny layer of the epidermis • protects the skin against dryness • improved skin density and structure • prevention of the skin ageing process • nourishment and regeneration • reduced signs of tiredness and stress

CONTRAINDICATIONS

• allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

• smooth skin • instant effect • strong hydration

NOTES

• to extend the time of contact of the head with the skin, apply a thick layer of Contact gel for ultrasound treatments after application of the serum

ANTI-WRINKLE TREATMENT WITH HYALURONIC ACID

MAIN ACTIVE INGREDIENTS

HYALURONIC ACID

A polysaccharide that is found in all living organisms. It binds water in the epidermis and is responsible for proper hydration of collagen (building material of the supporting fibres of the skin). Thanks to the film it forms on the skin, it ensures adequate hydration and prevents loss of elasticity.

ARGAN OIL

Oil obtained exclusively by the traditional method of pressing Argan tree nuts. It contains: tocopherols, phytosterols, triterpenalcohols, saturated fats, unsaturated fats and OMEGA fatty acids. It has antioxidant and disinfecting properties, kills fungi and bacteria and improves blood circulation. It has excellent moisturising effect on the skin.

MICROCOLLAGEN

A iniature protein fragment with a structure identical to the factor that stimulates collagen synthesis in our skin. It is a biomimetic peptide because it mimics our natural reactions occurring in the skin, signalling the initiation of synthesis of substances needed to saturate the skin. The effect is wrinkles filled from the inside, i.e. smoother skin.

EXPERT ADVICE

Justyna Dziura - *Cosmetologist, Bielenda Professional Coach, Regional Sales Manager.*

The main active ingredient of the treatment - hyaluronic acid - is an excellent natural moisturiser. It can bind as much as 40 times more water molecules than it weighs. This is the secret of its great ability to hydrate and smooth the skin and reduce wrinkles. It is a great solution to protect skin against dryness and slow down the ageing process. I also recommend the injection of youth as a „banquet” treatment - it produces quick effects, it is non-invasive, and leaves the skin hydrated and smooth.

1 | 2

Thoroughly remove make-up from the treatment area with the use of Bielenda Professional products, selected for the skin type of the client (full offer of make-up removal products is available in the end of the catalogue).

Perform a face peeling using a product tailored to the client's skin (full offer of face peelings available in the end of the catalogue).

3 | 4

Apply Hyaluronic acid serum on the cleansed skin of the face. Massage it gently into the skin manually or using ultrasounds to strengthen the effect.

If the serum is applied manually, perform a relaxing massage of the face, neck and décolleté with the Nourishing face massage cream or Caviar face massage cream.

TREATMENT PROCEDURE

5 | 6

Prepare Algae Mask with Hyaluronic Acid (2.5 parts of powder per 3 parts of mineral water), cover the face and neck. Leave it on for 20 minutes. Remove the mask and balance the skin. Next apply Anti-wrinkle Mask with Hyaluronic Acid. Leave it on to absorb. Remove any excess of the mask and tone the skin.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available on page 68 of the catalogue). Apply Anti-wrinkle Cream with Hyaluronic Acid SPF 15 on the face, neck and décolleté.

RECOMMENDATIONS

Apply on face, neck and décolleté, a series of 6-8 treatments twice a week is initially recommended, subsequently once per month to prolong treatment effects, occasionally before a special event

PRODUCTS FOR THE TREATMENT FACE CARE

FACE SERUM WITH HYALURONIC ACID

Intended for:
reduction of wrinkles, moisturization.

Active ingredients:
Hyaluronic acid, Microcollagen, Taurine.

Action:

- fills wrinkles providing effective anti-wrinkle therapy
- improves skin tension.

Capacity: 30 ml
Yield: 10 treatments
Index: 137249

ANTI-AGE FACE MASK WITH HYALURONIC ACID

Intended for:
mature and dry skin.

Active ingredients:
Hyaluronic acid, Taurine, Pomegranate extract.

Action:

- smoother and intensely hydrated skin
- eliminates wrinkles on the surface of the skin
- binds water in the epidermis
- strengthens the protective properties of the skin
- increases skin elasticity
- smooths and firms the skin.

Capacity: 175 ml
Yield: 20 treatments
Index: 137247

ANTI-WRINKLE FACE CREAM WITH HYALURONIC ACID SPF 15

Intended for:
mature and dry skin.

Active ingredients:
Hyaluronic acid, Argan oil, Coenzyme Q10.

Action:

- contains SPF 15 UVA, UVB protection
- stimulates skin renewal, regenerates and nourishes the skin
- smooths the skin and improves hydration of the epidermis
- oxygenates cells, neutralises free radicals.

Capacity: 100 ml
Yield: 30 treatments
Index: 137262

FACE ALGAE MASK WITH HYALURONIC ACID

Intended for:
dry skin with signs of wrinkles.

Active ingredients:
Hyaluronic acid, Alginate (100% brown algae extract).

Action:

- binds water in the epidermis
- eliminates wrinkles on the surface of the skin
- strengthens the protective properties of the skin
- smooths the skin and improves hydration of the epidermis
- increases skin elasticity, smooths and firms the skin.

Capacity: 190 g
Yield: 10 treatments
Index: 137248
Index (Refill package): 200248

THE PRODUCT IS RECOMMENDED FOR TREATMENTS PERFORMED WITH THE USE OF APPARATUS

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Anti-Wrinkle Face Cream with Hyaluronic Acid SPF 15.

BEAUTY PARLOUR FORMULA

INDICATIONS

- dilated capillaries, sensitive skin prone to irritation • acne rosacea
- for men and women at every age

ACTION

- tightening of blood vessels • reinforcement of capillary walls, which become more flexible and resistant to damage • prevention of dilated capillaries • reduction sensitivity of cutaneous thermoreceptors • skin cooling • alleviated irritation • improvement of protective functions of the epidermis • skin tone compensation

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- effectively reduces skin redness

NOTES

- to extend the time of contact of the head with the skin, apply a thick layer of Contact gel for ultrasound treatments after application of the serum

1 | 2

Thoroughly remove make-up from the treatment area with the use of Bielenda Professional products, selected for the skin type of the client (full offer of make-up removal products is available in the end of the catalogue).

Perform a face peeling using a product tailored to the client's skin (full offer of face peelings available in the end of the catalogue).

3 | 4

Apply Capillary Repair Serum and spread a film of Capillary Repair Ultrasound Gel. Use sonophoresis to stimulate absorption into deeper epidermal layers.

If the serum is applied manually, perform a relaxing massage of the face, neck and décolleté with the Nourishing face massage cream or Caviar face massage cream.

TREATMENT PROCEDURE

5 | 6

Next, apply Cooling Algae Mask (avoid the eyes area) or Strengthening face mask with Rutin and Vitamin C. To intensify the operation of this mask across the occlusion we propose to put on Algae Mask and leave it on for 20 minutes.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available on page 68 of the catalogue). Apply Rutin and Vitamin C Face Cream SPF 15.

STRENGTHENING TREATMENT FOR DILATED CAPILLARY SKIN

MAIN ACTIVE INGREDIENTS

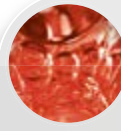

STABLE VITAMIN C

Traditional forms of Vitamin C are unstable, sensitive to oxygen, light, metal ions and decompose quickly. Stable Vitamin C or Ascorbyl Glucoside is activated after application onto the skin. In contact with skin enzymes it undergoes hydrolysis, which results in pure, active Vitamin C and glucose. It is a very strong antioxidant, it participates in the synthesis of collagen.

HORSE CHESTNUT EXTRACT

It contains aescin, which in combination with flavonoids and coumarin derivatives seals capillary walls, reduces their fragility, restores elasticity, improves blood circulation in the skin and smooth muscles. Thanks to the bioflavonoids contained in horse chestnut extract, it also has an anti-wrinkle effect.

TROXERUTIN

It has an intense protective effect on blood vessels, strengthens their walls, increases their flexibility. It is an active antioxidant.

EXPERT ADVICE

Justyna Mrówczyńska - Master of cosmetology, Regional Assistant Sales Manager, Bielenda Professional Coach.

Couperose skin requires special care. Its fragile blood vessels should be sealed by using preparations reducing redness and soothing irritation. The algae mask used in the treatment gently cools, calms the skin and evens out its tone. To balance the skin tone you can also use CC concealing and toning face cream, which gently adjusts to the skin type and leaves the skin brightened and radiant.

RECOMMENDATIONS

Apply on face, neck and décolleté, a series of 6 treatments once a week is initially recommended, subsequently once per month to prolong treatment effects.

PRODUCTS FOR THE TREATMENT FACE CARE

CAPILLARY REPAIR SERUM

Intended for:
sensitive, couperose skin.

Active ingredients:
Rutin, Horse Chestnut Extract, Stable Vitamin C.

Action:

- visibly strengthens the walls of blood vessels and increases their elasticity
- prevents broken capillaries and the formation of so-called "spider veins"
- relieves irritation effectively
- moisturises the skin actively
- brightens and improves skin tone.

Capacity: 30 ml
Yield: 10 treatments
Index: 137053

STRENGTHENING FACE MASK WITH RUTIN AND VITAMIN C

Intended for:
sensitive, couperose skin.

Active ingredients:
Rutin, Stable Vitamin C, Horse Chestnut, Cranberry extract.

Action:

- visibly strengthens the walls of blood vessels and increases their elasticity
- relieves irritation effectively
- stimulates the natural immune defence system of the skin
- prevents broken capillaries
- eliminates inflammation and reduces skin redness
- brightens and improves skin tone.

Capacity: 175 ml
Yield: 20 treatments
Index: 137287

CAPILLARY REPAIR FACE CREAM WITH RUTIN AND VITAMIN C SPF 15

Intended for:
sensitive, redness-prone couperose skin.

Active ingredients:
Rutin, Stable Vitamin C.

Action:

- calms and soothes inflammation
- reduces the hypersensitivity of blood vessels
- stimulates the natural immune defence system
- strengthens fragile capillaries
- prevents the formation of "spider veins"
- moisturises the skin and improves its tone
- provides optimal UVA and UVB protection, SPF 15.

Capacity: 100 ml
Yield: 30 treatments
Index: 137147

STRENGTHENING FACE MASK WITH RUTIN AND VITAMIN C

Intended for:
sensitive, couperose skin.

Active ingredients:
Rutin, Stable Vitamin C, Horse Chestnut, Cranberry extract.

Action:

- visibly strengthens the walls of blood vessels and increases their elasticity
- relieves irritation effectively
- stimulates the natural immune defence system of the skin
- prevents broken capillaries
- eliminates inflammation and reduces skin redness
- brightens and improves skin tone.

Capacity: 190 g
Yield: 10 treatments
Index: 137016
Index (Refill package): 137072

THE PRODUCT IS RECOMMENDED FOR TREATMENTS PERFORMED WITH THE USE OF APPARATUS

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products from the S.O.S. line.

For more product information, see Chapter 4 of the catalogue - Professional Home Care.

BEAUTY PARLOUR FORMULA

SEBO-PURITY

essential

INDICATIONS

• mixed, oily, and acne-prone skin • problematic skin (dilated orifices of sebaceous glands, blackheads) • excessive sebum secretion • cystic acne, oily skin with a tendency towards excessive shine

ACTION

• skin cleansing by removal of deep impurities • cleansed orifices of the sebaceous glands by elimination of dead epidermal cells • skin pore contraction • balanced sebum secretion by reduced hyperactivity of sebaceous glands • relieved inflammations, reduced number of blackheads • skin detoxification • alleviation of irritations • improved skin moisturization and texture • balanced skin colour

CONTRAINDICATIONS

• allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

• reduced visibility of enlarged pores

NOTES

• at the last stage of the treatment, after the application of the algae mask, you can perform a relaxing hand massage using the Cold paraffin hand mask with shea butter

PURIFYING AND NORMALIZING TREATMENT

MAIN ACTIVE INGREDIENTS

NIACINAMIDE

This is a form of vitamin B3. It has a very good effect on the skin and the processes occurring in it. It regulates the distribution of melanin in the epidermis, preventing discoloration and illuminating the skin. It strengthens the skin barrier: prevents transepidermal water loss (TWEL), because it increases resistance to damage. It improves the appearance of ageing skin, stimulates and increases the synthesis of collagen.

SALICYLIC ACID

An organic chemical compound from the group of aromatic hydroxy carboxylic acids. It has antiseptic, keratolytic and antifungal properties. In higher concentrations it is used to remove calloused epidermis.

KUKUI NUT OIL

Is a natural vegetable oil, obtained by cold pressing of kukui tree nuts, growing in Hawaii. It absorbs very well through the skin without leaving a greasy film on it. It contains unsaturated fatty acids, mainly linoleic acid. It has a unique skin softening effect, increases the skin's resistance to external factors and soothes irritation.

EXPERT ADVICE

Justyna Dziura - Cosmetologist, Bielenda Professional Coach, Regional Sales Manager.

Thanks to the targeted compositions of all preparations, the Sebo-Purity treatment effectively reduces inflammation and purifies the skin. Antibacterial mask also works well for mature skin with excessive sebum production and the softening mask is recommended to be used with or without a steamer.

1 | 2

Remove eye and lip make-up with Liquid Face & Lip Make-up Remover. Cleanse the face, neck and décolleté with Antibacterial Make-up Removing Gel. Balance the skin with Antibacterial Normalizing Toner.

Apply Enzymatic Face Scrub on the treatment area. Leave it on for approx. 10 minutes. Rinse the scrub with lukewarm water, dry and balance the skin.

RECOMMENDATIONS

Apply on face, neck and décolleté, back and forearms, use for mechanical skin cleansing, a series of 4-6 treatments every 2 weeks or 1 treatment once every 4 weeks is recommended depending on the condition and appearance of the skin (mechanical skin cleansing is not necessary), subsequently once per month to prolong treatment effects.

3 | 4

Apply Softening Mask with Kukui Oil on the treatment area. Use a brush to apply the mask. Use Vapozone or a sollux lamp with a red filter for more intensive skin softening effect. Wash away the mask after 15 minutes and cleanse the skin manually. Disinfect it with Antibacterial Normalizing Toner and carry out darsonvalisation.

Apply Cleansing Mud & Algae Mask or Antibacterial Mask with Green Clay. Keep it on for 15 minutes and balance the skin. Apply Normalizing Serum and gently massage it into the skin, or - if the skin was not cleansed manually - use a suitable system (ultrasounds, etc.) for better treatment results. In this case, Balancing Ultrasound Gel can be also applied.

TREATMENT PROCEDURE

5 | 6

Prepare Citrus Algae Mask and apply it onto face and décolleté. Leave it on for 20 minutes. Remove the mask in one piece and tone the skin.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available on page 68 of the catalogue). Apply Normalizing & Mattifying Face Cream.

PRODUCTS FOR THE TREATMENT FACE CARE

ANTI-BACTERIAL MAKE-UP REMOVER GEL

Intended for:
combination, oily, acne-prone skin.

Active ingredients:
Salicylic acid, Vitamin B3, Green tea extract, Allantoin, D-Panthenol.

- Action:**
- cleanses the skin gently and thoroughly
 - does not clog the sebaceous glands
 - prevents the formation of blackheads
 - regulates sebum production
 - removes dead skin cells
 - does not cause irritation and skin dryness
 - soothes skin inflammation.

Capacity: 500 ml
Yield: 60 treatments
Index: 137308

ANTI-BACTERIAL NORMALIZING TONIC

Intended for:
combination, oily, acne-prone skin.

Active ingredients:
Niacinamide PC, Aloe Vera, Green Tea.

- Action:**
- thoroughly cleanses and tightens skin pores reducing their visibility
 - regulates the functioning of sebaceous glands and reduces the shine of the skin
 - relieves and soothes irritation
 - reduces the growth of bacteria and the formation of blackheads
 - leaves the skin perfectly clean, fresh and matte.

Capacity: 500 ml
Yield: 60 treatments
Index: 137194

SKIN SOFTENING FACE MASK WITH KUKUI NUT OIL

Intended for:
all skin types.

Active ingredients:
Kukui nut oil, Marshmallow extract, Urea.

- Action:**
- prepares the skin for the cleansing procedure
 - softens and moisturises the epidermis strongly
 - improves blood circulation and oxygenation of the skin
 - relieves and soothes irritation.

Capacity: 150 ml
Yield: 20 treatments
Index: 137005

NORMALIZING FACE SERUM

Intended for:
combination, oily, acne-prone skin.

Active ingredients:
Niacinamide PC, Salicylic acid, Green tea.

- Action:**
- deeply cleansed skin
 - disinfects the epidermis and inhibits bacterial growth
 - regulates sebum production and gives the skin a matte finish
 - soothes irritation and inflammation.

Capacity: 30 ml
Yield: 10 treatments
Index: 137055

ANTIBACTERIAL FACE MASK WITH GREEN CLAY

Intended for:
combination, oily, acne-prone skin.

Active ingredients:
Green clay, Green tea, Allantoin.

- Action:**
- anti-bacterial and anti-inflammatory effect
 - deeply cleanses the outlets of sebaceous glands
 - reduces redness and irritation of the epidermis
 - closes the enlarged outlets of sebaceous glands
 - strengthens, firms and smooths the epidermis.

Capacity: 150 g
Yield: 20 treatments
Index: 137025

PURIFYING MUD AND ALGAE FACE MASK

Intended for:
skin that needs thorough cleansing, the so-called "smoker's skin".

Active ingredients:
Laminaria algae, Fucus.

- Action:**
- cleanses the skin deeply, absorbs about 95% of impurities: excess sebum, toxins and harmful metal ions
 - reduces skin hypersensitivity and prevents irritation
 - neutralizes free radicals, makes skin tenser, firmer and smoother (lifting effect)
 - deeply moisturises the skin and improves skin water balance
 - provides nutrients, macro- and micro-elements, vitamins and phytohormones
 - has refreshing and revitalising effect, improves skin tone and face contour.

Capacity: 150 g
Yield: 20 treatments
Index: 137026

NORMALIZING AND MATTIFYING FACE CREAM

Intended for:
combination, oily, acne-prone skin.

Active ingredients:
Niacinamide, Lactobionic acid, Allantoin, D-Panthenol, Avocado oil.

- Action:**
- gives the oily area of the face (forehead, nose, chin) a long-lasting matte finish
 - normalises and slows down overactive sebaceous glands
 - moisturises the dry skin of the face sides
 - eliminates the shine of the skin
 - soothes irritation and inflammation
 - provides protection against UV radiation.

Capacity: 100 ml
Yield: 30 treatments
Index: 137148

NORMALIZING ALGAE FACE MASK NETTLE AND LEMON BALM

Intended for:
combination, oily, skin, skin with imperfections.

Active ingredients:
Green Clay, Niacinamide, Nettle and Lemon Balm Extract.

- Action:**
- reduces visibility of imperfections
 - normalizes the skin.

Capacity: 200 g
Yield: 10 treatments
Index: 137490
Refill pkg. Index: 137503

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Normalizing-Mattifying Face Cream for professional home care.

BEAUTY PARLOUR
FORMULA

FEAST FOR THE SKIN

essential

INDICATIONS

• dry, mixed, sensitive • mature skin, requiring firming • suffering on shortages from nutrients, caused with ageing, fatigue and stress • for women and men

ACTION

• instant improvement of skin firmness and hydration • smoothed expression lines and age-related wrinkles • supplemented mineral deficiencies • assisted epidermal regeneration • strengthened natural protective functions of the skin • fresh looking and radiant complexion

CONTRAINDICATIONS

• allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

• immediate skin hydration

NOTES

• at the last stage of the treatment, after the application of the algae mask, you can perform a relaxing hand massage using the Cold paraffin hand mask with shea butter

NOURISHING AND MOISTURIZING TREATMENT WITH CAVIAR

MAIN ACTIVE INGREDIENTS

CAVIAR

An extremely rich source of proteins and vitamins: A, D, E and B, oligoelements and iodine, necessary for proper growth of tissues. The phospholipids and phosphorus contained in caviar stimulate the regeneration of the epidermis. Caviar has an intensive moisturising and firming effect. It improves the elasticity and condition of the skin.

CENTELLA ASIATICA

It stimulates cellular renewal, improves subcutaneous circulation, firms and smooths the skin.

CHITOZAN

It has a strong moisturising effect, because it effectively retains water in the skin. It forms a delicate protective film on the skin that protects it against harmful external factors.

EXPERT ADVICE

Justyna Mrówczyńska - Master of cosmetology, Regional Assistant Sales Manager, Bielenda Professional Coach.

Caviar is the main active ingredient used in Feast For The Skin preparations. It is rich in phospholipids, EFA, vitamins A and E, and thus strengthens and rebuilds the protective barrier of the skin, accelerates regeneration processes, nourishes and firms the skin and has antioxidant properties.

1 | 2

Thoroughly remove make-up from the treatment area with the use of Bielenda Professional products, selected for the skin type of the client (full offer of make-up removal products is available in the end of the catalogue).

Perform a face peeling using a product tailored to the client's skin (full offer of face peelings available in the end of the catalogue).

3 | 4

Apply Serum with Caviar on the cleansed skin. Massage it gently manually or use ultrasounds to strengthen the effect.

NOTE! To extend the time of contact of the head with the skin, apply a thick layer of Contact gel for ultrasound treatments after application of the serum.

If the serum is applied manually, perform a relaxing massage of the face, neck and décolleté with the Nourishing face massage cream or Caviar face massage cream.

TREATMENT PROCEDURE

5 | 6

Apply Nourishing & Moisturising Caviar Mask. Leave to absorb for approx. 15-20 minutes. Do not rinse off the mask! Next, tone the skin.

At the end of the treatment, apply a preparation matching the needs of the client's skin to the eye area (a full range of products is available on page 68 of the catalogue). Apply Rejuvenating and Firming Caviar Face Cream SPF 15.

RECOMMENDATIONS

Recommended for tired looking skin needing nutrient replenishment, apply on face, neck and décolleté, a series of 6 treatments once a week is initially recommended, subsequently once per month to prolong treatment effects.

PRODUCTS FOR THE TREATMENT FACE CARE

FACE SERUM WITH CAVIAR

Intended for:
skin lacking firmness.

Active ingredients:
Caviar, Centella Asiatica, Bio-Peptides.

Action:

- reduces the roughness of the skin and makes skin silky smooth
- firms and tightens the skin
- it has lifting properties, which significantly reduces the visibility and depth of wrinkles
- improves the tone and general condition of the skin.

Capacity: 30 ml
Yield: 10 treatments
Index: 137043

NOURISHING AND MOISTURIZING FACE MASK WITH CAVIAR

Intended for:
all skin types.

Active ingredients:
Caviar, Sea Water Concentrate, Marine Collagen.

Action:

- it improves hydration and soothes irritated face skin
- it makes skin tenser and improves the face contour (lifting effect)
- helps the skin regain its proper firmness, making small wrinkles and skin folds less visible
- skin becomes velvety, smooth and delicate to the touch
- brightens skin tone and improves the grey shade of "smoker's skin"
- relaxes the body and the mind.

Capacity: 175 ml
Yield: 20 treatments
Index: 137027

REJUVENATING AND FIRMING CAVIAR FACE CREAM SPF 15

Intended for:
mature skin lacking firmness.

Active ingredients:
Caviar, Chitozan, Marine Collagen, Vitamin B3.

Action:

- revitalises all cell functions
- protects and strengthens the skin's immune defence system
- smooths wrinkles
- firms facial features, making them more distinctive and attractive
- provides instant brightness and vitality
- inhibits the skin ageing process
- optimum UVA and UVB protection, SPF 15.

Capacity: 100 ml
Yield: 30 treatments
Index: 137146

CAVIAR FACE MASSAGE CREAM

Intended for:
all skin types.

Active ingredients:
Caviar, Macadamia Oil.

Action:

- relaxes the facial muscles, gives the skin comfort and relief
- stimulates the renewal of epidermal cells
- has a stimulating and energising effect on the skin
- intensive moisturisation
- smooths facial lines
- gives the skin a youthful smoothness and freshness.

Capacity: 175 ml
Yield: 15 treatments
Index: 137107

THE PRODUCT IS RECOMMENDED FOR TREATMENTS PERFORMED WITH THE USE OF APPARATUS

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Anti-Wrinkle Face Cream with Hyaluronic Acid SPF 15.

BEAUTY PARLOUR FORMULA

SHAPE ARCHITECT

INDICATIONS

• loss of skin firmness and elasticity • flaccid skin and skin lacking tautness • various forms of cellulite • stretch marks • excessive fat tissue (abdomen, thighs, buttocks) • skin requiring intensive hydration and regeneration

ACTION

• shapes the figure • moisturizes, nourishes, regenerates • improves the level of skin elasticity and tension • supports the reduction of fat tissue and gradual reduction of cellulite

CONTRAINDICATIONS

• allergies to any ingredient contained in the formulations used in the treatment • pregnancy, breast-feeding • high/low blood pressure • diseases of blood vessels • heart diseases • cancer • rheumatism, arthritis • severe systemic diseases

ADVANTAGES / BENEFITS

• body shaping • moisturized, renewed and regenerated skin • improved skin elasticity and firmness

NOTES

• prior to performing the treatment, it is necessary to exclude any contraindications and to sign the Client Consent (supplied with each treatment kit) • professional training is mandatory • do not apply on wounded skin and/or skin with lesions • do not apply in case of hypersensitivity to any of the ingredients

MODELING ANTI-CELLULITE BODY SHAPING TREATMENT

MAIN ACTIVE INGREDIENTS

L- CARNITINE

It facilitates the process of burning fat in body cells and gives visible slimming effects, accelerates metabolism, removes excess water and toxins from the skin, strengthens and improves skin structure.

LAMINARIA AND BLADDER FUCUS EXTRACTS

They accelerate metabolism, affect the reduction of adipose tissue, improve blood circulation and lymphatic circulation, they cleanse the skin of toxins. They soothe irritations, strengthen the protective barrier of the epidermis, moisturise the skin and restore its firmness and elasticity.

CAFFEINE AND GUARANA EXTRACT

They stimulate the processes of lipolysis, i.e. the decomposition of fat to fatty acids and glycerol, prevent excessive fat deposition in fat cells. They improve the flow of lymph in lymph vessels and blood in vascular vessels, which facilitates the removal of toxins and metabolic products.

EXPERT ADVICE

Justyna Dziura – *Cosmetologist, Regional Sales Manager, Bielenda Professional Coach.*

The multitude of active ingredients used in the treatment guarantees an immediate effect of regeneration, hydration and nourishment of the skin of the body. Shape Architect Body Wrapping Therapy is the use of innovative bandage technology, thanks to which we support the gradual reduction of cellulite and fat tissue reduction.

RECOMMENDATIONS

Bandages give sensations of heating or cooling - the client's skin reactions and the intensity of their thermal sensations should be monitored, which are an individual feature. Recommended series of 6-8 treatments, once a week.

1 | 2

Apply the portion of Acid Peel Spray to the area covered by the treatment (legs, abdomen, buttocks). Wait until it absorbs. Do not rinse. The preparation contains the combination of acids. Apply the product in disposable gloves and avoid contact with eyes and mucous membranes.

Remove the bandages from the packaging - pour the rest of the essence into the treatment bowl. Wrapping starts from the ankle upwards, making sure that subsequent layers of the bandage overlap with each other (by about 1.5 cm). The bandage should adhere tightly to the skin without exerting additional pressure. Rub the remaining part of the preparation into the bandage.

3 | 4

Cover the area covered by the treatment with body wrapping foil and a blanket. Leave on the skin for about 30 minutes - the exact duration of the treatment should be adapted to the customer's feelings. Dry the skin gently after removing the bandages. Do not rinse. After removing the bandages, a short-lasting effect of skin redness may occur.

Massage the Modeling & Anti-Cellulite Massage Body Balm into the skin at the end of the treatment and perform a delicate lymphatic massage.

PRODUCTS FOR THE TREATMENT BODY CARE

ACID PEEL SPRAY - BODY SHAPING ACTIVATOR

Intended for:
all skin types.

Active ingredients:

Lactic Acid, Lactobionic Acid, Citric Acid, Glycolic Acid.

Action:

- skin preparation for the treatment
- ensuring better absorption of active substances.

Capacity: 150 ml
Index: 137605

CRYO-MODELING WRAPPING BANDAGE - 2 PCS.

Intended for:

loss of skin firmness and elasticity, cellulite, stretch marks, excessive fat tissue, skin requiring hydration and regeneration.

Active ingredients:

Organic Silica, Caffeine, Spirulina Extract, Marine Algae, Aloe Extract, Guarana Extract, Ivy Extract, Menthol, Hylauronic Acid, Kigelia Africana, Mint Extract.

Action:

- supports body contouring
- helps to reduce fat tissue and cellulite
- improves the level of skin tension and elasticity
- moisturizes, nourishes and regenerates.

Capacity: 250 g
Yield: 1 treatment
Index: 137603

MODELING & ANTI-CELLULITE MASSAGE BODY BALM

Intended for:
loss of skin firmness and elasticity, cellulite, stretch marks, excessive fat tissue, skin requiring hydration and regeneration.

Active ingredients:

Caffeine, Organic Silica, Elastin, Laminaria Algae Extract, Bladder Fucus Extract, Centella Asiatica, Kigelia Africana Extract, Ivy Extract, Spirulina, Vitamin E, Shea Butter, Babassu Oil.

Action:

- moisturizes, nourishes and regenerates
- supports body contouring.

Capacity: 300 ml
Index: 137606

THERMO-CONTOURING BODY WRAPPING BANDAGE - 2 PCS.

Intended for:

loss of skin firmness and elasticity, cellulite, stretch marks, excessive fat tissue, skin requiring hydration and regeneration.

Active ingredients:

L-carnitine, Caffeine, Collagen, Ginseng Extract, Centella Asiatica Extract, Laminaria Algae, Chilli Extract, Hylauronic Acid, Angelica Extract, Chestnut Extract.

Action:

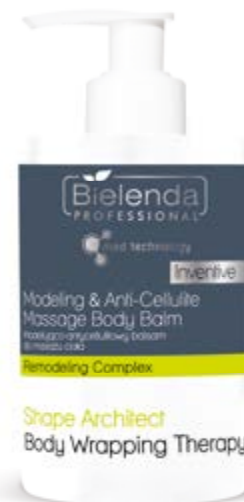

- supports body contouring
- helps to reduce fat tissue and cellulite
- improves the level of skin tension and elasticity
- moisturizes, nourishes and regenerates.

Capacity: 250 g
Yield: 1 treatment
Index: 137604

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment and between treatments, we recommend using Modeling & Anti-Cellulite Massage Body Balm from the SHAPE ARCHITECT line for home care.

BEAUTY PARLOUR
FORMULA

NATURAL BEAUTY

INDICATIONS

- skin of the body that requires regeneration and nutrition • tension • dryness • discomfort • itching • burning of the skin • prevention of stretch marks and loss of skin firmness • treatment recommended for women during pregnancy and after delivery

ACTION

- smooths the skin • improves blood circulation • provides minerals • prevents the formation of stretch marks and loss of skin firmness • helps maintain proper hydration • nourishes • strengthens and regenerates • improves elasticity • relieves discomfort, itching and burning • relaxes

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- natural, safe ingredients, even for pregnant women

NOTES

- if the treatment is performed on a pregnant woman, it is necessary to make sure that there are no contraindications to carry it out

4 GESTURES OF NATURAL BEAUTY

MAIN ACTIVE INGREDIENTS

MAGNESIUM CHLORIDE

It is one of easily absorbable forms of this element. Products containing magnesium chloride will supplement the lack of magnesium, relieve pain and muscle spasms, reduce swelling, cleanse the body of toxins, have a relaxing effect.

FIELD HORSETAIL EXTRACT

It contains a wealth of compounds, including silica, that improve the condition of the skin. It increases skin elasticity, firms and revitalizes.

ORANGE ESSENTIAL OIL

It has amazing aromatherapy properties, relaxes, soothes, improves the mood while adding energy.

EXPERT ADVICE

Paulina Skóra - *Cosmetologist, Care Expert, consultant in the field of cosmetic ingredients, Beautician of the Year 2016.*

In the Natural Beauty treatment, we apply an algae mask on two areas of the body. I recommend first to prepare the mask for one area, e.g. belly, and apply it, and then to prepare the mask for the other area - breasts. This way, we do not have to hurry during application and we can apply the mask precisely. Remember that the mask is mixed with warm water to make the treatment pleasant for the mother and the baby inside her belly.

RECOMMENDATIONS

The treatment is recommended especially for pregnant women (after the first trimester). The treatment can be continued after childbirth (also during breastfeeding). If there is a tendency to stretch marks, we recommend using the treatment twice a month. Prevention and wellness – once a month in combination with body and face care.

1 | 2

Apply the right amount of the Mineral Body Scrub to clean skin of the selected parts of the body (remember to stir the product before use). Gently scrub the body using moist hands. Then, put a towel soaked in lukewarm water on the scrubbed body part and leave it for a few minutes to dissolve the minerals. Next, remove the scrub using compresses or in the shower.

Apply a dose of the Strengthening Serum for Thighs, Belly and Breasts onto your hands, spread and gently massage it into the body parts subject to the procedure until fully absorbed. Do not rinse off.

3 | 4

Mix 2.5 scoops of the Soothing Algae Mask for Belly and Breasts with 3 scoops of warm mineral water (or a multiple of this amount, depending on the surface of the body subject to the procedure) to obtain a uniform paste. Apply the mask evenly to the body parts subject to the procedure. Remove after 15 minutes.

Apply a dose of the Natural Firming Oil onto your hands. Apply the oil to selected parts of the body and perform a gentle massage. Leave to absorb, do not wash off.

SAFE FOR
MOTHER AND
BABY

PRODUCTS FOR THE TREATMENT BODY CARE

MINERAL BODY SCRUB

Intended for:

skin of the body that requires regeneration – tense, dry, itching, burning skin with discomfort. Recommended for women during pregnancy and after childbirth.

Active ingredients:

Salt, Magnesium Chloride, Argan Oil, Avocado Oil, Babassu Oil, Sorbitol, Glucose, Vitamin E.

Action:

- deeply cleanses
- relaxes
- soothes the skin
- prepares the skin for the treatment and to absorb active ingredients.

Capacity: 650 g

Yield: 10 treatments

Index: 137565

STRENGTHENING SERUM FOR THIGHS, BELLY AND BREASTS

Intended for:

skin of the body that requires regeneration – tense, dry, itching, burning skin with discomfort. Recommended for women during pregnancy and after childbirth. Stretch marks prevention.

Active ingredients:

Hyaluronic Acid, Field Horsetail Extract, Ivy Extract, D-panthenol, Aloe Extract, Vitamin C.

Action:

- regenerates and nourishes the skin
- moisturizes
- soothes
- relieves discomfort, tension, itching, burning of the skin
- helps prevent stretch marks.

Capacity: 190 g

Yield: 10 treatments

Index: 137566

SOOTHING ALGAE MASK FOR BELLY AND BREASTS

Intended for:

skin of the body that requires regeneration – tense, dry, itching, burning skin with discomfort. Recommended for women during pregnancy and after childbirth.

Active ingredients:

Diatomaceous Earth, Alantoin, Silky Oat Flour, β-Glucan, Sea Algae, Spirulina, Goat Milk.

Action:

- moisturizes
- soothes
- relieves discomfort, tension, itching, burning of the skin.

Capacity: 500 g

Yield: 10 treatments

Index: 137568

NATURAL FIRMING OIL

Intended for:

skin of the body that requires regeneration – tense, dry, itching, burning skin with discomfort. Recommended for women during pregnancy and after childbirth.

Active ingredients:

Avocado Oil, Macadamia Oil, Argan Oil, Vitamin E, Orange Essential Oil.

Action:

- regenerates and nourishes the skin
- deeply moisturizes
- helps prevent stretch marks and loss of skin firmness
- improves elasticity
- relaxes.

Capacity: 190 ml

Yield: 10 treatments

Index: 137567

	RITUAL 1	RITUAL 2	RITUAL 3

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Natural Firming Oil from the NATURAL BEAUTY line as professional home care.

BEAUTY PARLOUR
FORMULA

RASPBERRY BODY PROGRAM

essential

INDICATIONS

- excess fat tissue (abdomen, thighs, buttocks, arms) • various forms of cellulite • unpurified and insufficiently oxygenated skin • abnormal excretion of toxins • water retention in the tissues (edema) • loss of firmness and elasticity of the skin • low metabolism, slow blood circulation • after labor (not while lactating) • while dieting, passive lifestyle

ACTION

- helps to reduce cellulite • prevents forming of cellulite • supports reduction of body fat (supports lipolysis, prevents lipogenesis) • helps maintaining the results achieved during surgical procedures • stimulates microcirculation and skin metabolism • supports secretion of water and toxins by stimulating the microcirculation in the skin in order to clear the tissues (skin cleansing and detoxification) • slims and shapes the body • tightens and tones the skin • intensively nourishes and moisturizes • improves skin texture • reduces swelling • possesses antioxidant properties • relaxes

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- treatment can be performed in SPA capsules

NOTES

- 2in1 concentrate ensures very good conductivity of ultrasonic waves and prolongates the time of contact of the head with the skin by providing uninterrupted glide

1 | 2

Apply Raspberry body scrub with Guarana Bio-Caffeine on dry skin (excluding the breast area), and massage gently in circular motions. Peeling intensity can be adjusted by the level of pressure during the massage. Remove the scrub with warm water in the shower or using wet compresses. Thoroughly dry the skin with a towel.

Spread 2in1 Raspberry body concentrate with Guarana Bio-Caffeine evenly over the body and gently massage focusing on places with excess fat or cellulite symptoms until the product is completely absorbed.

3 | 4

The concentrate can be applied with needle-free mesotherapy or sonophoresis (ultrasound) for about 10 minutes. Do not wash the concentrate off. Additional, a classic or anti-cellulite massage of the whole body or the areas subjected to treatment can be performed, with the use of one of Bielenda Professional's massage product (full offer of products available in the end of the catalogue).

Next, apply Raspberry Body Mask with Guarana Bio-Caffeine. Using latex gloves apply the mask evenly to the whole body (avoid the breast area), or only to the selected body parts. You can also use Body wrapping, spa capsule or thermal blanket. After 20 minutes, remove the foil and wash the mask off with warm water in the shower. Dry the skin thoroughly.

TREATMENT PROCEDURE

5 |

SLIMMING AND DETOXIFYING TREATMENT WITH BRAZILIAN GUARANA BIO-CAFFEINE

MAIN ACTIVE INGREDIENTS

BRAZILIAN GUARANA BIO-CAFFEINE

Guarana fruits have high content of caffeine which has a stimulating effect. It is composed, among others, of theophylline, theobromine, tannins and saponins, which have astringent, antibacterial properties and support the decomposition of fats.

PERILLA OIL

A rich source of linoleic acid, vitamins and minerals. It prevents the loss of skin elasticity and improves its tension, as well as protects against the destructive effects of free radicals.

CENTELLA ASIATICA

It grows in tropical swampy areas. It supports healing, creates new connective tissue and stimulates skin regeneration, improves circulation. Demonstrates antiradical and anti-aging effects.

EXPERT ADVICE

Justyna Dziura - Cosmetologist, Bielenda Professional Coach, Regional Sales Manager.

Body Wrapping – a method of wrapping the body with cosmetic foil to enhance the effects and penetration of active ingredients – plays an important role in the Raspberry Body Program. This is a comprehensive solution for body shaping and firming and shaping a perfect figure.

RECOMMENDATIONS

The treatment can be applied to the whole body or some of its parts, except the bust area, the recommended amount is 8-12 treatments twice a week. NOTE! Clients with varicose veins or fragile blood vessels should not be subjected to treatment with the use of heat.

PRODUCTS FOR THE TREATMENT BODY CARE

2IN1 RASPBERRY BODY CONCENTRATE WITH GUARANA BIO-CAFFEINE

Intended for:

slimming, detoxification, cellulite prevention.

Active ingredients:

Brazilian Guarana Bio-Caffeine, Raspberry Extract, Centella Asiatica, Green Tea Extract, Ivy, Hyaluronic Acid, Perilla Oil, Avocado Oil.

Action:

- supports reduction of cellulite
- prevents the symptoms of cellulite
- supports lipolysis (fat decomposition process)
- prevents lipogenesis (the process of accumulation of fat in adipocytes)
- stimulates microcirculation and cellular metabolism
- stimulates the excretion of water and toxins from the body
- effectively shapes the body
- firms and slims the body
- improves firmness and elasticity of the skin
- nourishes and moisturizes the skin
- antioxidant properties.

Capacity: 450 ml

Yield: 25 treatments

Index: 137313

RASPBERRY BODY SCRUB WITH GUARANA BIO-CAFFEINE

Intended for:

every skin type.

Active ingredients:

Brazilian Guarana Bio-Caffeine, Raspberry Extract, Sugar, Vitamin E, Perilla Oil.

Action:

- prepares the skin for further treatments
- removes dead skin cells
- facilitates penetration of active ingredients
- stimulates microcirculation
- smooths and firms the skin
- intensely nourishes, lubricates and moisturizes the skin
- stimulates the senses with an aroma of raspberries.

Capacity: 550 g

Yield: 8 treatments

Index: 137311

RASPBERRY MULTI-ACTIVE BODY BALM WITH GUARANA BIO-CAFFEINE

Intended for:

slimming, detoxification, cellulite prevention.

Active ingredients:

Brazilian Guarana Bio-Caffeine, Raspberry Extract, Centella Asiatica, Coenzyme Q10, Perilla Oil, Shea Butter.

Action:

- reduces symptoms of cellulite
- supports the processes of reduction of fatty tissue and cellulite
- tightens and firms the skin
- shapes the body
- moisturizes and regenerates
- imparts soft and silky smooth feeling to the skin
- stimulates the senses and wraps the body in a raspberry fragrance.

Capacity: 500 ml

Yield: 16 treatments

Index: 137314

RASPBERRY BODY MASK WITH GUARANA BIO-CAFFEINE

Intended for:

slimming, detoxification, cellulite prevention.

Active ingredients:

Brazilian Guarana Bio-Caffeine, Raspberry Extract, White Clay, Shea Butter, Centella Asiatica, Garcinia Cambogia, Green Tea Extract, Coenzyme Q10, Perilla Oil, Avocado Oil.

Action:

- anti-cellulite and slimming properties
- stimulates microcirculation and metabolism (preventing puffiness and the beginning of cellulite)
- firms, smooths and improves elasticity of the skin
- shapes the body
- moisturizes and regenerates
- demonstrates antioxidant properties
- supports the process of purifying the body of toxins (detox).

Capacity: 600 g

Yield: 4 treatments (whole body)/ 8 treatments (thighs, buttocks, belly)

Index: 137312

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Modeling & Anti-Cellulite Massage Body Balm as professional home care.

BEAUTY PARLOUR
FORMULA

JUICY TEMPTATION

essential

INDICATIONS

- skin dryness all year round (exposure to sun, solarium central heating, air conditioning)
- dull skin lacking oxygen, with residual impurities and toxins, cellulite
- loss of suppleness and firmness
- bad mood, exposure to stress

ACTION

- regenerates and protects the epidermis
- provides intense and long-lasting moisturization
- provides deep skin purification (detox)
- stimulates blood circulation and delivery of oxygen to skin cells
- firms and strengthens the skin
- compensates for deficiencies of minerals
- preserves the suntan
- deeply relaxes

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- treatment can be performed in SPA capsules

NOTES

- 2in1 concentrate ensures very good conductivity of ultrasonic waves and prolongates the time of contact of the head with the skin by providing uninterrupted glide

1 | 2

Apply Watermelon body scrub all over the body (excluding the breast area) and massage gently in circular motions. Peeling intensity can be adjusted by the level of pressure during the massage. Rinse in a shower or remove with wet cosmetic compresses.

Spread 2in1 Watermelon body concentrate evenly over the body and gently massage focusing on places with excess fat or cellulite symptoms until the product is completely absorbed.

3 | 4

The concentrate can be applied with needle-free mesotherapy or sonophoresis (ultrasound). Do not wash the concentrate off.

Additional, a classic or anti-cellulite massage of the whole body or the areas subjected to treatment can be performed, with the use of Watermelon butter massage.

TREATMENT PROCEDURE

5 | 6

Apply the Watermelon Gel Body Mask all over body (excluding the breast area). Wrap in film and cover with a thermal blanket for 20 minutes. Remove the film, rinse the body with warm water and dry thoroughly.

Apply a thin layer of Watermelon body lotion on the whole body, or parts covered by the treatment, and gently massage into the skin until the product is fully absorbed. Do not rinse. You can perform the anti-cellulite draining massage (depending on the skin issues).

WATERMELON HYDRATING & CELLULITE-REDUCING TREATMENT

MAIN ACTIVE INGREDIENTS

CELLULITE CONTRA + COMPLEX- (CAFFEINE, IVY, ALGAE, GREEN TEA, CENTELLA ASIATICA)

Complex stimulating blood and lymph microcirculation, facilitating the elimination of toxins from the body. It blocks the activity of enzymes responsible for the conversion of carbohydrates into adipose tissue and facilitates burning of the existing one.

WATERMELON EXTRACT

It has strong softening, moisturizing, antioxidant and anti-aging properties. Thanks to the content of Vitamin C, which is a powerful antioxidant, it inhibits free radicals and combats the effects of photoaging.

AVOCADO OIL

Oil rich in Vitamins A, B1, B2, D, K, E, PP, proteins, pantothenic acid and glycerides of oleic and linoleic acids. It is a natural sunscreen, protects the skin against the harmful effects of external factors. It moisturizes, lubricates and regenerates the skin.

EXPERT ADVICE

Justyna Mrówczyńska - Master of cosmetology, Regional Assistant Sales Manager, Bielenda Professional Coach.

Moisturising, anti-cellulite effect and aromatherapy in one. Watermelon extract, rich in micronutrients, moisturises and nourishes the skin. It removes excess water from the body, which greatly supports the fight against cellulite. It contains lycopene - a strong antioxidant. Its fruity fragrance will leave no-one indifferent. The advantage of the treatment is a gel body mask thanks to which the skin will receive a huge portion of hydration and relaxation. For better results, I recommend additional body wrapping.

RECOMMENDATIONS

Apply all over the body or onto the selected body parts, apply on breasts, except for nipples, 6 treatments are recommended, twice or once a week, e.g. after sunbathing.

PRODUCTS FOR THE TREATMENT BODY CARE

WATERMELON BODY SCRUB

Intended for:
every skin type.

Active ingredients:
Watermelon Extract, Avocado Oil.

Action:

- perfectly cleanses and smooths the skin
- improves blood circulation and oxygenation of the skin
- optimally moisturizes and gently lubricates
- prepares the skin to absorb active ingredients
- leaves the skin velvety to the touch.

Capacity: 600 g
Yield: 8 treatments
Index: 137231

2IN1 WATERMELON BODY CONCENTRATE

Intended for:
hydration and cellulite reduction.

Active ingredients:
Hydromaniol™, Cellulite Contra+ Complex, Watermelon Extract, Caffeine, Hyaluronic Acid.

Action:

- provides intense and long-lasting hydration
- reduces cellulite
- eliminates toxins from the body
- restores firmness and elasticity of the skin.

Capacity: 450 ml
Yield: 25 treatments
Index: 137233

WATERMELON BODY LOTION

Intended for:
every skin type.

Active ingredients:
Hydromaniol™, Cellulite Contra+ Complex, Watermelon Extract, Avocado Oil, Vitamin E.

Action:

- provides intense and long-lasting hydration
- regulates exfoliation of the stratum corneum
- restores firmness and elasticity of the skin
- supports cellulite reducing processes
- improves the condition and tone of the skin
- prevents skin aging processes
- wraps the body in a fresh, watermelon scent.

Capacity: 500 ml
Yield: 16 treatments
Index: 137234

WATERMELON BUTTER MASSAGE

Intended for:
relaxation and cellulite reduction.

Active ingredients:
Watermelon Extract, Avocado Oil, Shea (Karite) Butter.

Action:

- reduces cellulite
- provides the skin with vitamins, unsaturated fatty acids and antioxidants
- deeply moisturizes
- improves blood circulation
- strengthens and nourishes the epidermis
- relaxes, ensures well-being.

Capacity: 500 ml
Yield: 8 treatments
Index: 137261

WATERMELON BODY MASK IN GEL

Intended for:
every skin type.

Active ingredients:
Cellulite Contra+ Complex, Watermelon Extract, Hyaluronic Acid.

Action:

- reduces cellulite
- strengthens collagen fibers
- improves skin hydration and elasticity
- provides intense and long-lasting hydration
- eliminates the roughness of the epidermis
- softens and smooths the skin, which becomes velvety to the touch.

Capacity: 600 ml
Yield: 4 treatments (whole body)/
8 treatments (thighs, buttocks, belly)
Index: 137232

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Modeling & Anti-Cellulite Massage Body Balm as professional home care.

BEAUTY PARLOUR
FORMULA

CHOCOLATE DELIGHT

SLIMMING AND RELAXING BODY TREATMENT

essential

INDICATIONS

- overweight • all forms of cellulite • loss of firmness and premature skin aging • impure and dull skin • tired skin which needs nutrition

ACTION

- reduction of adipose tissue • cellulite reduction • excellent smoothness and nourishment • endorphins stimulation • skin stress reduction

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- treatment can be performed in SPA capsules

NOTES

- 2in1 concentrate ensures very good conductivity of ultrasonic waves and prolongates the time of contact of the head with the skin by providing uninterrupted glide

MAIN ACTIVE INGREDIENTS

CAFFEINE

It stimulates the metabolism and contributes to the removal of fat deposits due to the effect of tissue drainage, demonstrates slimming and detoxifying effect. Improves microcirculation of blood in skin tissue.

COCOA EXTRACT

It contains polyphenols and flavonoids: theobromine, caffeine and theophylline, substances that stimulate blood circulation and strengthen blood vessels. It contains antioxidants that protect against free radicals.

L-CARNITINE

It is a vitamin-like substance, essential in energy and metabolic cellular processes. It affects the mobilization of fat cells of the lower layers of the skin, accelerating fat metabolism and skin regeneration.

EXPERT ADVICE

Justyna Mrówczyńska - Master of cosmetology, Regional Assistant Sales Manager, Bielenda Professional Coach.

Chocolate, otherwise known as the „Drink of the Gods”, apart from the slimming and relaxing effect, stimulates the body to produce endorphins, which are responsible for our well-being. For the treatment to be pleasant and relaxing, the products used for it should be heated in a water bath or an aroma chimney. Apply the mask to the whole body starting from the feet towards the heart and wrap the whole body with foil or apply the body wrapping method. While waiting for the mask to absorb, do a relaxing face or head massage.

1 | 2

Apply the Sugar Body Scrub on dry skin of the body (excluding bust area) or on selected parts treated during the procedure, and lightly massage in circular motions. The intensity of exfoliation can be adjusted by the pressure applied during the massage. Then, remove the scrub with warm water in the shower or using warm, moist compresses and dry the skin with a towel.

Spread the 2in1 Chocolate Body Concentrate with L-carnitine evenly on the skin of the body and massage gently into areas with excess of adipose tissue or areas affected by cellulite, until completely absorbed.

RECOMMENDATIONS

Treatment for the body or parts of the body with problems, the whole series consists of 8-10 treatments applied every 2-4 days, treatment is also recommended for sensitive skin and skin with dilated capillaries, the treatment gives excellent results in persons with tired skin, especially due to slimming diets or pregnancy.

3 | 4

The concentrate can also be applied using professional apparatus. We recommend needle-free mesotherapy or ultrasounds. Do not rinse the concentrate off the skin.

Additionally, you can perform a classic or relaxing massage of the whole body or its parts subject to the procedure, using a body massage product from the Bielenda Professional line (full product offer - available in the end of the catalogue).

TREATMENT PROCEDURE

5 | 6

Then, apply the Chocolate Body Mask with L-carnitine. The mask should be applied evenly over the whole body (excluding bust area), or on selected parts of the body. You can use the body wrapping technique and use a spa capsule or thermal blanket. After 20 minutes, remove the foil and rinse off the mask in the shower with warm water, then dry the skin thoroughly.

At the end of the treatment, apply the Chocolate Body Lotion with L-carnitine to the whole body or its parts subject to the procedure. Gently massage into the skin until fully absorbed. Do not rinse off.

PRODUCTS FOR THE TREATMENT BODY CARE

SUGAR BODY SCRUB

Intended for:
every skin type.

Active ingredients:
Granulated Sugar, Grapefruit Oil.

Action:

- cleanses and smooths the skin
- stimulates microcirculation
- strengthens and firms the skin
- gently lubricates
- optimally hydrates
- prepares the skin to absorb active ingredients.

Capacity: 600 g
Yield: 8 treatments
Index: 137034

CHOCOLATE BODY LOTION WITH L-CARNITINE

Intended for:
every skin type.

Active ingredients:
Cocoa Butter, Cocoa Extract, L-carnitine.

Action:

- restores firmness and elasticity of the skin
- supports the process of body fat reduction
- improves the condition and tone of the skin
- inhibits skin aging
- adds vitality
- wraps the body in a tempting chocolate scent.

Capacity: 500 ml
Yield: 16 treatments
Index: 137165

CHOCOLATE BODY MASK WITH L-CARNITINE

Intended for:
slimming and relaxation.

Active ingredients:
Cocoa Extract, L-carnitine, Caffeine,
Orange Oil.

Action:

- stimulates microcirculation
- reduces the symptoms of cellulite
- improves the condition and tone of the skin
- nourishes, moisturizes and smooths the skin
- leaves a pleasant, chocolate scent on the skin
- improves the mood, relaxes
- adds vitality.

Capacity: 600 ml
Yield: 4 treatments (whole body)/
8 treatments (thighs, buttocks, belly)
Index: 137031

2in1 CHOCOLATE BODY CONCENTRATE WITH L-CARNITINE

Intended for:
slimming, body shaping.

Active ingredients:
L-Carnitine, Caffeine, Cocoa, Ivy, Green Tea Extract, Hyaluronic
Acid, Perilla Oil, Sweet Almond Oil, Centella Asiatica.

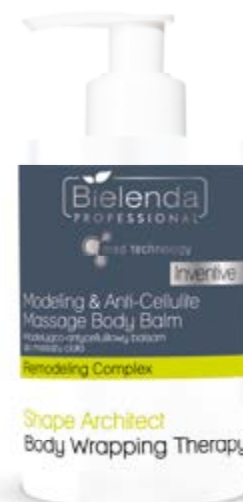

Action:

- reduces fatty tissue and cellulite
- stimulates microcirculation and tissue metabolism
- improves firmness, elasticity and the overall skin condition after weight loss regimens
- improves skin elasticity
- provides active epidermal regeneration.

Capacity: 450 ml
Yield: 25 treatments
Index: 137200

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Modeling & Anti-Cellulite Massage Body Balm as professional home care.

BEAUTY PARLOUR
FORMULA

EXPRESS HAND TRIO

essential

INDICATIONS

- all skin types • rough and damaged skin • requiring regeneration, nourishment and renewal • dry, sensitive skin with first signs of aging • tightness of the skin

ACTION

- intensively moisturizes and regenerates the skin • improves the condition of cuticles • eliminates the feeling of roughness, dryness of the hand • nourishes

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- an effective treatment that immediately regenerates the hands

NOTES

- the EXPRESS HAND TRIO treatment can be a stand-alone treatment or can be combined with any care treatment offered by Bielenda Professional

3 STEPS TO BEAUTIFUL HANDS - AN EXPRESS HAND TREATMENT

MAIN ACTIVE INGREDIENTS

SHEA BUTTER

It has amazing skin care properties - smooths and softens the skin, moisturizes and lubricates it. Accelerates regeneration and healing. It is a safe ingredient - it can be used even on the most sensitive skin. Protects against dryness and adverse external factors.

LANOLIN

It is a wax with a composition resembling the lipid layer of human skin. It reduces roughness, smooths the skin. It also has moisturizing and lubricating properties. It is a dream ingredient for very dry and damaged, cracked skin of the hands.

MARINE MINERALS AND VITAMINS

Marine minerals in the Mineral line as well as the Vitamin complex in the Multivitamin line enrich the product formulas with additional nutritional and skin care benefits.

EXPERT ADVICE

Justyna Mrówczyńska - Master of cosmetology, Regional Assistant Sales Manager, Bielenda Professional Coach.

The most important element of a hand care treatment is mechanical peel, which exfoliates dead skin cells, smooths, nourishes and revitalises the skin. It is a perfect preparation for further stages of the treatment. Multivitamin and Mineral Peels contain a natural abrasive substance - volcanic rock pumice. During a massage, the colour of both peels changes because of increased intensity of the treatment.

RECOMMENDATIONS

The suggested regimen includes a series of 5 treatments once a week or depending on the needs and condition of the skin.

1 | 2

TREATMENT PROCEDURE

3 | 4

Apply the scrub to dry or wet skin of the hands. Massage. Then, remove the remains of the scrub with warm water. Dry the skin. The scrub during the massage changes color, showing the effectiveness of the treatment.

Apply a thick layer of the product in such a way that the entire hands are covered with it. Put on plastic gloves. Additionally, you can put on terry gloves. Leave for about 20 minutes and remove the residue. The product can also be used for hand massage.

At the end of the procedure, massage a small amount of the cream into the skin of the hands, cuticles and nails.

We recommend Multivitamin or Mineral hand cream 50 ml for professional home care.

PRODUCTS FOR THE TREATMENT HAND CARE

MULTIVITAMIN HAND SCRUB

Intended for:
damaged, rough skin in need of intense regeneration and renewal.

Active ingredients:
Shea Butter, Pumice, Niacinamide, Vitamin Complex.

Action:

- removes dead skin cells
- smooths the skin of the hands
- prepares the skin to absorb active ingredients.

Capacity: 175 g
Index: 137523

MULTIVITAMIN COLD PARAFFIN HAND MASK

Intended for:
damaged, rough skin in need of intense regeneration and renewal.

Active ingredients:
Shea Butter, Coenzyme Q10, Lanolin, Carnitine, Vitamin A, Vitamin E.

Action:

- regenerates the skin
- moisturizes and regenerates
- smooths the skin
- eliminates tightness and roughness.

Capacity: 150 g
Index: 137525

MULTIVITAMIN HAND CREAM

Intended for:
damaged, rough skin in need of intense regeneration and renewal.

Active ingredients:
Shea Butter, Lanolin, D-panthenol, Coenzyme Q10, Carnitine, Niacinamide, Vitamin C, Vitamin E.

Action:

- moisturizes and regenerates without leaving a greasy residue
- protects the skin against external factors
- smooths the skin.

Capacity: 500 ml
Index: 137524

MINERAL HAND SCRUB

Intended for:
dry, sensitive skin in need of nutrition and with first signs of aging.

Active ingredients:
Shea Butter, Pumice, Mineral Complex.

Action:

- removes dead skin cells
- smooths the skin of the hands
- prepares the skin to absorb active ingredients.

Capacity: 175 g
Index: 137519

MINERAL COLD PARAFFIN HAND MASK

Intended for:
dry, sensitive skin in need of nutrition and with first signs of aging.

Active ingredients:
Shea Butter, Marine Minerals, Lanolin, Buriti Oil, Field Horsetail Extract.

Action:

- regenerates the skin
- moisturizes and regenerates
- smooths the skin
- eliminates tightness and roughness.

Capacity: 150 g
Index: 137521

MINERAL HAND CREAM

Intended for:
dry, sensitive skin in need of nutrition and with first signs of aging.

Active ingredients:
Shea Butter, Marine Minerals, Laminaria Algae Extract, Buriti Oil, Keratin, Lanolin.

Action:

- moisturizes and regenerates without leaving a greasy residue
- protects the skin against adverse external factors
- smooths the skin.

Capacity: 500 ml
Index: 137520

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care products.

BEAUTY PARLOUR FORMULA

HAND PROGRAM

essential

INDICATIONS

- every skin type • hands exposed to external factors (wind, frost, sun, detergents) • dry, rough skin • hand skin aging • sun spots and nicotine discoloration

ACTION

- smooths and improves skin elasticity • strengthens the skin's resistance to external factors • provides the skin with essential nutritional and nourishing ingredients • improves the skin tone • restores the hydrolipidic coat • provides intensive hydration of the skin • improves the condition of nails and cuticles

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

- comprehensive hand care

NOTES

- the HAND PROGRAM treatment can be a stand-alone treatment or can be combined with any care treatment offered by Bielenda Professional

MOISTURIZING AND REGENERATING HAND TREATMENT

MAIN ACTIVE INGREDIENTS

SILK PROTEINS

They have an electrostatic charge opposite to the load of the skin, which causes the products containing them to strongly adhere to the surface of the skin. They retain moisture, causing long-lasting smooth skin effect.

ALANTOIN

An urea derivative, it regenerates and accelerates the renewal and healing of damaged epidermis. It has strong soothing and calming properties. Reduces burning and redness of skin sensitive to harmful external factors. It moisturizes and softens the skin.

GROUND COCONUT SHELL

Ground particles exfoliate dead skin cells, smooth and prepare the skin to absorb further active ingredients.

EXPERT ADVICE

Justyna Mrówczyńska - Master of cosmetology, Regional Assistant Sales Manager, Bielenda Professional Coach.

Products from the HAND PROGRAM line will relieve dry skin of the hands, exposed to external factors. They nourish and regenerate the skin, restoring its proper level of hydration. They protect against unfavourable factors such as: dry, hot air, wind, frost, detergents. Hand mask - cold paraffin is a great alternative to classic, warm paraffin, also suitable for hand massage.

1 | 2

Apply the Hand Scrub to the skin of the hands (including fingers and wrists) and make a few-minute massage. Rinse off the remaining product or remove it using a moist compress.

Apply the Regenerating Hand Mask to the clean and dry skin subject to treatment and perform a relaxing massage, starting with the fingers.

RECOMMENDATIONS

The proposed treatment includes a series of 5 treatments once a week. To sustain the effects, one treatment once a month. In case of applying hot paraffin wax mask with the treatment, repeat the procedure once every two weeks.

3 | 4

Then, apply again a thick layer of the Regenerating Hand Mask evenly to the hands and nails.

Prepare a paraffin bath with any selected paraffin mask. Dip the hands 3 times in a paraffin wax heater with Apricot or Grapefruit Paraffin Mask, and put on foil gloves and then terry gloves. Leave for about 20 minutes. Then, remove the paraffin wax completely together with the foil gloves. Massage the excess cream mask into the skin of the hands.

TREATMENT PROCEDURE

5 | 6

An alternative to the hot paraffin wax mask is to apply cold paraffin hand mask with Shea Butter (description of the use on the packaging of the product).

At the end of the treatment, massage the Luxury Hand and Nail Cream or the Revitalizing Hand and Nail Lotion with Shea Butter SPF 6 gently into the skin of the hands and between the fingers. Leave to absorb. Do not rinse off.

PRODUCTS FOR THE TREATMENT HAND CARE

HAND PEELING

Intended for:
particularly dry skin in need of regeneration.

Active ingredients:
Ground Coconut Shell, Silk Proteins, Urea.

Action:

- removes dead skin cells
- stimulates microcirculation
- prepares the skin to absorb active ingredients
- smooths and firms the skin
- optimally hydrates
- leaves the skin silky to the touch.

Capacity: 175 g
Index: 137286

REGENERATING HAND MASK

Intended for:
dry and damaged skin of the hands.

Active ingredients:
Silk Proteins, D-panthenol, Urea, Alantoin.

Action:

- accelerates regeneration of damaged epidermis
- intensively moisturizes
- protects against the harmful effects of external factors
- improves softness and elasticity of the epidermis
- imparts silky softness to the skin.

Capacity: 175 ml
Index: 137254

LUXURY HAND AND NAIL CREAM

Intended for:
dry, cracked and damaged skin of the hands.

Active ingredients:
Silk Proteins, Vitamin Complex: PP, B5, B6, C, and E, Calcium, D-panthenol.

Action:

- intensively regenerates
- absorbs completely
- visibly firms and smooths the skin of the hands, which becomes soft and velvety to the touch.

Capacity: 500 ml
Index: 137127

REVITALIZING HAND AND NAIL LOTION WITH SHEA BUTTER, SPF 6

Intended for:
dry and cracked skin of the hands, hypersensitive to external environmental factors, weakened nail plate.

Active ingredients:
Shea Butter, Ceramides, Rice Oil, Vegetable Glycerin, Vitamin E, Lanolin, Lactic Acid.

Action:

- revitalizes
- regenerates nail plate and cuticles
- strengthens the nails
- soothes redness and irritation
- moisturizes, nourishes
- makes the skin soft and silky smooth
- has anti-aging properties
- softens, smooths and firms the skin
- relaxes the hands, leaving a pleasant smell.

Capacity: 500 ml
Index: 137361

COLD PARAFFIN - HAND MASK WITH SHEA BUTTER

Intended for:
dry and cracked skin of the hands, irritated and hypersensitive to external environmental factors.

Active ingredients:
Shea Butter, Ceramides, Lanolin, Vitamin A, Vitamin E.

Action:

- helps rebuild the hydrolipidic layer of the skin
- protects the skin from excessive drying
- reduces the feeling of roughness, itching and tightness
- prevents cracking of the skin
- softens and relaxes the skin
- lubricates and nourishes the skin
- moisturizes and regenerates.

Capacity: 150 g
Index: 137360

GRAPEFRUIT PARAFFIN MASK

Intended for:
regeneration of the skin of the hands, feet and the whole body.

Active ingredients:
Paraffin Wax, Bees Wax, Sweet Almonds Oil, Vitamin E, Vitamin C, Grapefruit Oil.

Action:

- optimally moisturizes the skin
- regenerates, smooths and refreshes the epidermis
- helps to brighten pigmentation spots
- stimulates microcirculation
- facilitates deeper penetration of active ingredients.

Capacity: 400 g
Index: 137137

APRICOT PARAFFIN MASK

Intended for:
regeneration of the skin of the hands, feet and the whole body.

Active ingredients:
Paraffin Wax, Kukui Oil, Macadamia Oil, Bees Wax.

Action:

- optimally moisturizes the skin
- regenerates, smooths and softens the skin
- improves the tone of the skin
- stimulates microcirculation
- facilitates deeper penetration of active ingredients.

Capacity: 400 g
Index: 137028

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend professional home care from the HAND PROGRAM line.

BEAUTY PARLOUR FORMULA

INDICATIONS

• dry and rough feet • signs of aging of the skin of the feet • cracking of the epidermis • excessive sweating of the feet • relaxation for the feet and the entire body • feet regeneration

DZIAŁANIE

• antibacterial and refreshing effects • nourishing and strengthening of the skin

CONTRAINDICATIONS

• allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

• specialist, comprehensive foot care

NOTES

• the PODO EXPERT treatment can be a stand-alone treatment or can be combined with any care treatment offered by Bielenda Professional

REGENERATING AND REFRESHING FOOT TREATMENT

MAIN ACTIVE INGREDIENTS

UREA

NMF component. It has a keratolytic effect, due to which it facilitates the penetration of biologically active substances. Increases the keratin water binding properties, softens, refreshes, and tones the skin.

SALICYLIC ACID

An organic chemical compound from the group of carboxylic acids. It has antiseptic, keratolytic and antifungal properties. In higher concentrations, Salicylic Acid is used to remove keratinized epidermis.

LANOLIN

Natural wax, creates an occlusive film on the skin surface, which reduces the evaporation of water from the epidermis. It has the ability to penetrate well into the skin, making it smooth.

EXPERT ADVICE

Justyna Dziura - Cosmetologist, Bielenda Professional Coach, Regional Sales Manager.

PODO EXPERT is a line of specialist foot care preparations. Thanks to a comprehensive approach in the selection of active ingredients, we have achieved effective performance on many levels - refreshment, regeneration, softening and exfoliation of keratinized epidermis, antibacterial effect and reduction of excessive sweating of the feet.

1 | 2

Prepare a foot bath with the use of Bielenda Professional products, selected for the skin type of the client (full offer of foot bath products is available on the next page). The client should soak her / his feet for about 15 minutes.

Dry the skin and apply a scrub properly selected for the skin type (full offer of foot scrubs is available on the next page) and massage the feet, which will help with the exfoliation and facilitate the penetration of active ingredients from products applied in subsequent steps of the procedure. Rinse off the remaining product or remove it using a moist compress.

RECOMMENDATIONS

The proposed treatment includes a series of 8-10 treatments 1-2 times a month. In case of applying hot paraffin wax mask with the treatment, repeat the procedure once every two weeks.

3 | 4

Apply the Regenerating Foot Mask to the clean and dry skin of the feet and between the toes, and perform a relaxing massage, starting with the toes.

Then, apply again a thick layer of the Regenerating Foot Mask evenly to the feet and nails.

TREATMENT PROCEDURE

5 | 6

Prepare a paraffin bath with any selected paraffin mask. Dip the feet 3 times in a paraffin wax heater with Apricot or Grapefruit Paraffin Mask, and put on foil socks and then special terry socks (especially in autumn and winter). Leave for about 20 minutes. Then, remove the paraffin wax completely together with the foil socks. Massage the excess cream mask into the skin of the feet.

At the end of the treatment, gently massage into the skin of the feet and between the toes a foot cream selected for the client's skin needs (full offer of products is available on the next page). Leave to absorb. Do not rinse off.

PRODUCTS FOR THE TREATMENT FOOT CARE

SOFTENING FOOT BATH PEARLS WITH UREA

Intended for:
preparatory treatment prior to pedicure treatments; dry, calloused and damaged skin of the feet; excessive sweating of the feet.

Active ingredients:
Urea, Essential Oils: Mint, Lavender, Cypress, Lemon Peel.

Action:

- softens the epidermis prior to pedicure treatment
- refreshes the feet
- relaxes and delivers lightness to heavy feet
- smooths the epidermis.

Capacity: 400 g
Index: 137457

FOOT BATH SALT WITH LIME & MINT

Intended for:
recommended prior to pedicure treatment.

Active ingredients:
Aloe, Urea, Lime.

Action:

- softens hardened skin
- facilitates the removal of corns and callouses
- refreshes and disinfects the skin
- effectively prevents sweating of the feet
- relaxes tired feet.

Capacity: 600 g
Index: 137209

SOFTENING GEL FOR HARDENED SKIN, CORNS AND CALLOUSES

Intended for:
excessively hardened skin.

Active ingredients:
20% Urea.

Action:

- softens excessively hardened skin
- allows for quick and easy removal of hardened skin, calluses and corns
- shortens the time of pedicure procedures.

Capacity: 500 ml
Index: 137318

SMOOTHING FOOT SCRUB WITH PUMICE

Intended for:
dry, hardened, damaged skin; excessive sweating.

Active ingredients:
Urea, Pumice, Essential Oils: Mint, Lavender, Cypress, Lemon Peel; Ground Coconut Shell.

Action:

- exfoliates and smooths hardened skin of the feet and heels
- accelerates regeneration processes of the epidermis
- nourishes and lubricates
- prepares the skin to absorb active ingredients from further treatment products.

Capacity: 500 ml
Index: 137458

FOOT BATH SALT WITH GOAT MILK

Intended for:
cracking skin of the feet, hardened epidermis; excessive sweating; recommended prior to pedicure treatments.

Active ingredients:
Natural Salt, Goat Milk.

Action:

- softens hardened epidermis, corns, callouses and cracked skin,
- disinfects the skin
- salt bath: strengthens the skin, prevents it from cracking, as well as from sweating.

Capacity: 600 g
Index: 137122

SOFTENING FOOT CREAM 20% UREA + SALICYLIC ACID

Intended for:
hardened, rough, dry and cracked skin of the feet.

Active ingredients:
Urea, Salicylic Acid, Ceramides, Kukui Oil, Macadamia Oil, Vitamin A, Vitamin E, Wild Pansy Extract, Lanolin, D-panthenol.

Action:

- has anti-bacterial and anti-itching effects
- soothes irritation
- accelerates regeneration of the skin.

Capacity: 500 ml
Index: 137317

CREAMY FOOT SCRUB

Intended for:
recommended for foot, knee and elbow exfoliation.

Active ingredients:
Sweet Almond Oil, Pumice, Lime Extract.

Action:

- deeply exfoliates the skin
- prepares the skin to absorb active ingredients
- softens and smooths
- improves blood circulation in feet.

Capacity: 500 ml
Index: 137125

REGENERATING FOOT MASK

Intended for:
dry and damaged skin of the feet.

Active ingredients:
Urea, Salicylic Acid, Alginate.

Action:

- intensively regenerates and moisturizes
- softens and smooths the skin
- refreshes and cools the skin
- light feet effect.

Capacity: 175 ml
Index: 137255

REGENERATING FOOT CREAM

Intended for:
cracking heels and dry skin of the feet.

Active ingredients:
Urea, Arginine PCA, Lime Extract, Alantoin.

Action:

- softens and exfoliates hardened skin
- prevents cracking of the skin and stimulates healing
- soothes itching
- prevents the formation of corns and callouses
- absorbs quickly
- immediately moisturizes the skin of the feet, making it extremely smooth and soft
- improves blood circulation, refreshes and delivers lightness to the feet.

Capacity: 500 ml
Index: 137126

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using professional home care product: Deeply Moisturizing and Reconstructing Foot Cream.

BEAUTY PARLOUR FORMULA

PODOCALL THERAPY

INDICATIONS

- strongly keratinised and hard skin of the feet • calluses • keratinisation • foot skin requiring renewal and regeneration

ACTION

- intense softening of calluses • easier removal of calluses • regeneration and renewal of the skin of the feet • refreshment

CONTRAINDICATIONS

- allergy or hypersensitivity to any of the ingredients

ADVANTAGES / BENEFITS

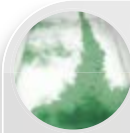

- instant callus softening • targeted action without intense exfoliation

NOTES

- the PODOCALL THERAPY treatment can be a stand-alone treatment or can be combined with any care treatment offered by Bielenda Professional

ADVANCED SOFTENING AND REGENERATING TREATMENT FOR FEET

MAIN ACTIVE INGREDIENTS

KOH (POTASSIUM HYDROXIDE)

A safe ingredient with proven effect - it softens the skin and removes keratosis. It has keratolytic properties.

UREA

The ingredient of NMF, the natural moisturising factor of the skin. It has strong moisturising and regenerating effect and the ability to retain water in the epidermis.

MAGNESIUM CHLORIDE

One of the more easily absorbable forms of this element. Cosmetics with magnesium chloride supplement the lack of magnesium, relieve pain and muscle spasms, reduce swelling, purify from toxins, have a relaxing effect.

EXPERT ADVICE

Sylwia Wójcik - Care Expert, Coach, Bielenda Professional Research & Development Expert.

The use of occlusion strengthens and accelerates the effect of softening the epidermis. Occlusion can be done by wrapping the treatment area with cosmetic foil. You can also place a non-woven compress soaked in gel under the foil. The softening gel should be applied to the skin with gloves, preferably nitrile gloves.

1 | 2

Dissolve a measuring cup of the relaxing foot bath in 3 liters of warm water. Soak client's feet for 10-15 minutes. The salt can also be used in foot massagers.

Put on disposable gloves before performing the treatment. Apply the Gel intensively softening calluses onto calluses on the cleansed skin of the feet and tightly protect with plastic wrap. Depending on the severity of calluses, leave for 15-20 minutes on the skin.

RECOMMENDATIONS

The proposed series of treatments depends on the client's skin condition. The number of treatments is selected individually to the client's needs. After the treatment, we recommend giving the client the foot file to be used at home.

3 | 4

Remove the wrap and remove the calluses using a plastic knife/scraper, dry skin remover or foot file.

Smooth the skin with a foot file.

5 |

At the end of the treatment, massage Moisturising and rebuilding foot cream into the skin.

PRODUCTS FOR THE TREATMENT FOOT CARE

RELAXING FOOT BATH SALT

Intended for:

preparation for the pedicure procedure, horny, damaged and irritated skin of the feet.

Active ingredients:

Urea, Magnesium chloride, Salvia extract, Marshmallow root extract.

Action:

- refreshes the skin
- antiseptic effect
- prepares for the pedicure treatment
- softens the skin
- soothes.

Capacity: 400 g**Index: 137569**

DEEPLY MOISTURIZING AND RECONSTRUCTING FOOT CREAM

Intended for:

firmly keratinized and hard skin of the feet.

Active ingredients:

Urea, Lanolin, Salvia Extract, D-Panthenol, Allantoin, Tea Tree Essential Oil.

Action:

- intensive regeneration and renewal
- strongly hydrates
- soothes
- refreshes the skin of the feet.

Capacity: 500 ml**Index: 137571**

CALLUS DEEPLY SOFTENING GEL

Intended for:

firmly keratinized and hard skin of the feet.

Active ingredients:

KOH, Lactic acid, Salicylic acid.

Action:

- strongly softens calluses
- prepares the skin for mechanical removal of calluses
- smoothes.

Capacity: 200 g**Index: 137570**

FOOT FILE

PROFESSIONAL HOME CARE

In order to intensify and prolong effects of the treatment, we recommend using Deeply Moisturizing and Reconstructing Foot Cream from the PODOCALL THERAPY line as professional home care.

BEAUTY PARLOUR FORMULA

FACE CARE PRODUCTS

MAKE-UP REMOVAL

MAKE-UP REMOVER MILK

Intended for: every skin type.

Active ingredients: Milk Thistle Emollient, Avocado Oil, Babassu Oil, Hemp Seed Oil, Rosemary Oil.

Action:

- removes make-up very gently
- cleanses the skin
- soothes
- prepares for the treatment.

Capacity: 500 ml
Yield: 30 treatments
Index: 137610

MULTI-ACTIVE FACE TONER

Intended for: every skin type.

Active ingredients: Green Tea Essence, Orange Water Essence, D-Panthenol, Gluconolactone, Trehalose.

Action:

- restores pH balance
- soothes

Capacity: 500 ml
Yield: 60 treatments
Index: 137611

DELICATE MICELLAR GEL MAKE-UP REMOVER

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive, weakened skin, imbalance of the skin microbiota.

Active ingredients:

Synbiotic Complex, Squalane, Trehalose, Spanish Salvia Seed Oil, Witch Hazel Leaf Extract, D-panthenol, Avocado Oil.

Action:

- removes make-up gently and thoroughly
- cleanses the skin
- soothes and relieves irritation.

Capacity: 500 ml
Yield: 60 treatments
Index: 137584

DELICATE FACE TONER

Intended for:

problematic, dysfunctional, dry, dehydrated, sensitive, weakened skin, imbalance of the skin microbiota.

Active ingredients:

Synbiotic Complex, Rose Water, Hyaluronic Acid, Witch Hazel Leaf Extract.

Action:

- restores the physiological pH of the skin
- hydrates and soothes
- strengthens the skin.

Capacity: 500 ml
Yield: 60 treatments
Index: 137585

MICELLAR MAKE-UP REMOVING ESSENCE

Intended for: every skin type, especially with impurities, requiring regeneration.

Active ingredients: Hyaluronic Acid, Yeast Filtrate Extract, Hydrolyzed Glycosaminoglycans, D-panthenol, Allantoin.

Action:

- removes make-up gently and effectively
- cleanses the skin
- prepares the skin for the treatment.

Capacity: 500 ml
Yield: 60 treatments
Index: 137594

MICELLAR LIQUID CLEANSER

Intended for: all skin types.

Active ingredients: Micelles, Pearl, Caviar.

Action:

- can be used as a perfect substitute for face cleansing milk, tonic and water
- skin cleansing and refreshment
- absorbs excess sebum, make-up and other impurities
- helps to maintain optimum skin hydration
- leaves the skin fresh and smooth, without a trace of skin tightness.

Capacity: 300 ml
Index: 137242

GENTLE LIP & EYE MAKE-UP REMOVER

Intended for:

sensitive skin of eyelids and around the eyes, may be used by persons wearing contact lenses.

Active ingredients: Hyaluronic acid, Allantoin, D-panthenol.

Action:

- removes water-proof make-up
- moisturizes delicate skin around the eyes.

0% AROMATIC COMPOSITION
0% ALLERGENS
Capacity: 200 ml
Index: 137446

GENTLE FACE CLEANSER POWDER

Intended for: sensitive skin of every skin type, especially skin in need of deep cleansing.

Active ingredients: Silky Oat Flour, Urea, Glucose.

Action:

- deep cleansing of the skin
- make-up and excess sebum removal
- mattifying and moisturizing of the skin.

Capacity: 100 g
Yield: 50 treatments
Index: 137494

BALM-TO-OIL MAKEUP REMOVER

Intended for:

tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:

Dongbaek Oil, Rice Oil, Avocado Oil, Bamboo Extract.

Action:

- removes make-up gently and effectively
- thoroughly cleanses the skin
- prepares skin for the treatment.

Capacity: 150 g
Yield: 40 treatments
Index: 137558

ANTIOXIDANT FACIAL TONING ESSENCE

Intended for:

tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:

Green Tea Hydrolate, Fermented Yeast Filtrate, Soybean Ferment Filtrate, Vitamin C, Allantoin, Extracts: Bamboo, Aloe, Cherry, Giseng Root, Hyaluronic Acid.

Action:

- antioxidant effect
- restores physiological pH level
- tones
- regenerates and nourishes
- moisturizes.

Capacity: 500 ml
Yield: 60 treatments
Index: 137559

MICELLAR GEL-CREAM MAKE-UP REMOVER

Intended for:

tired and under-oxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients:

Trehalose, Ginseng Extract, Sorbitol, D-panthenol.

Action:

- removes make-up gently and effectively
- purifies the skin
- prepares skin for the treatment
- soothes.

Capacity: 500 g
Yield: 30 treatments
Index: 137516

ENERGIZING TONING FACIAL ESSENCE

Intended for:

tired and under-oxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients:

Hyaluronic Acid, Orange Water Essence, Yeast Filtrate Extract.

Action:

- removes make-up gently and effectively
- purifies the skin
- prepares skin for the treatment
- soothes.

Capacity: 500 ml
Yield: 60 treatments
Index: 137515

MAKE-UP REMOVAL

LIQUID EYE AND LIP MAKE-UP REMOVER

Intended for: sensitive eyelid skin and skin around the eyes.

Active ingredients: Chamomile, Vitamin B5.

Action:

- effective and fast make-up removal (eye pencils, eye shadows, waterproof mascaras)
- gently and effectively cleanses the sensitive skin around the eyes
- strengthened and more flexible eyelashes
- gentle moisturization and powerful skin refreshment
- improved looks of the skin around the eyes and eyelid skin.

Capacity: 200 ml
Index: 137002

SOOTHING MICELLAR LIQUID FOR FACE CLEANSING & MAKE-UP REMOVAL

Intended for: every skin type, in particular sensitive skin prone to redness of different origins, overreactive skin, rosacea.

Active ingredients: Hyaluronic acid, Allantoin, D-panthenol.

Action:

- gently and effectively removes face, eye and lip make-up
- moisturizes the skin
- refreshes
- soothes the skin.

0% AROMATIC COMPOSITION
0% ALCOHOL
Capacity: 500 ml
Index: 137445

Intended for: any type of skin, especially dry and sensitive.

Active ingredients: D-panthenol, Urea.

Action:

- refreshes the skin and improves blood circulation
- regenerates the protective layer of the skin
- soothes
- moisturizes
- anti-inflammatory properties
- strengthens and seals the blood vessels
- tones.

Capacity: 500 ml
Index: 137292

SATIN TONIC GEL

Intended for: all skin types, especially dry and sensitive skin.

Active ingredients: Hydromanil™, Sea Samphire, D-panthenol.

Action:

- balances the skin, restores the natural pH level
- cleanses and refreshes the skin
- calms and soothes irritations
- stimulates cellular respiration
- boosts skin defence
- delivers optimum hydration.

Capacity: 500 ml
Index: 137004

SATIN MAKE-UP REMOVER

Intended for: all skin types.

Active ingredients: Sweet Almond Oil, Sea Samphire, Vitamin E.

Action:

- gently and effectively cleanses the skin to prepare it for treatment
- softens and regenerates the epidermis
- helps to maintain the optimum skin hydration
- neutralizes free radicals, prevents skin ageing
- protects the lipid layer of the skin from drying.

Capacity: 500 ml
Index: 137003

LACTOBIONIC ACID TONER

Intended for: sensitive, capillary, overreactive, dry skin; rosacea; skin redness of different origins.

Active ingredients: Lactobionic acid, Gluconolactone, Trehalose, D-panthenol.

Action:

- prepares the skin for exfoliation with lactobionic acid
- tones, refreshes and moisturizes the skin.
- may be used for cavitation peeling.

Capacity: 200 ml
Index: 137447

HYALURONIC MAKE-UP REMOVER MILK

Intended for: dry skin with loss of firmness, skin with signs of aging.

Active ingredients: Low Molecular Weight Hyaluronic Acid, High Molecular Weight Hyaluronic Acid, Allantoin, Vitamin E.

Action:

- effective make-up remover
- smooths and firms the skin
- effect of lightly mattified skin.

Capacity: 500 ml
Index: 137455

HYALURONIC FACE TONER

Intended for: dry skin with loss of firmness, skin with signs of aging.

Active ingredients: Low Molecular Weight Hyaluronic Acid, High Molecular Weight Hyaluronic Acid, D-panthenol.

Action:

- toned and refreshed skin
- lifting effects
- intensely nourished and perfectly cleaned skin.

Capacity: 500 ml
Index: 137454

ULTRA HYDRATING FACE CLEANSING CREAM

Intended for: all skin types, especially dry and dehydrated skin.

Active ingredients: Trehalose, Sweet Almond Oil, Vitamin E.

Action:

- effective makeup remover
- the skin is well prepared for the treatment
- removes all impurities
- calms and soothes skin irritation
- restores optimum hydration
- leaves the epidermis smooth and soft.

Capacity: 500 ml
Index: 137319

ULTRA HYDRATING FACE TONER

Intended for: all skin types, especially dry and dehydrated skin.

Active ingredients: Lactic Acid, Sodium Lactate, Trehalose, Betaine.

Action:

- toned and refreshed skin
- restores optimum hydration
- alleviates the sensation of skin tightness
- delivers the final touch in make-up removal.

Capacity: 500 ml
Index: 137320

ANTIBACTERIAL GEL MAKE-UP REMOVER

Intended for: mixed and oily skin, prone to acne.

Active ingredients: Salicylic acid, Vitamin B3, Green tea extract, Allantoin, D-panthenol.

Action:

- gently and thoroughly cleanses the skin
- does not clog the sebaceous glands
- prevents formation of blackheads
- regulates sebum secretion
- removes dead skin cells
- does not cause irritation
- reduces skin inflammation.

WITHOUT SLS AND PARABENS.
Capacity: 500 g
Index: 137308

ANTIBACTERIAL & NORMALIZING FACE TONIC

Intended for: mixed, oily, acne skin.

Active ingredients: Niacinamide PC, Aloe, Green Tea.

Action:

- effectively cleanses and contracts skin pores, which makes them less visible
- balanced sebum secretion, skin matting effect
- calms and soothes irritations
- inhibits bacteria growth and prevents the formation of blackheads
- leaves the skin perfectly clean, fresh, and matt.

Capacity: 500 ml
Index: 137194

FACE CARE PRODUCTS

DELICATE ENZYMATIC FACE FOAM PEELING

Intended for: problematic, dysfunctional, dry, dehydrated, sensitive, weakened skin, imbalance of the skin microbiota.

Active ingredients: Keratolytic Lactic Acid, β -Glucan, Complete Biotic Formula..

Action:

- exfoliates very gently
- prepares for the intake of active ingredients.

Capacity: 160 ml
Yield: 15 treatments
Index: 137586

SKIN STIMULATING ACIDIC PEEL

Intended for: grey, tired, with the first signs of aging, fine wrinkles, dry, dehydrated, couperose, sensitive, requiring regeneration, problematic, oily, combination skin.

Active ingredients: Glycolic Acid, Citric Acid, Mandelic Acid, Lactobionic Acid, Lactic Acid..

Action:

- exfoliates the superficial layers of the epidermis
- smoothes and illuminates the skin
- prepares for the intake of active ingredients.

Capacity: 100 g
Yield: 20 treatments
Index: 137612

SMOOTHING POWDER FACE SCRUB

Intended for: tired, dull skin, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients: Matcha, β -glucan, Glucose, Aloe, Exfoliating particles.

Action:

- exfoliation of superficial layers of the epidermis,
- preparation of the skin to receive active ingredients
- calms the skin
- soothes.

Capacity: 100 g
Yield: 50 treatments
Index: 137560

BUBBLE PEEL MASK

Intended for: tired and under-oxygenated skin, dull, dry and sensitive skin, wrinkles, skin affected with premature ageing and oxidative stress, excessively tanned skin.

Active ingredients: Sea Minerals, Papain Bromelain, Citric Acid, Trehalose.

Action:

- gentle exfoliation
- prepares the skin for active ingredients absorption
- skin brightening
- smoothing.

Capacity: 45 g
Yield: 10 treatments
Index: 137512

MAGNETIC ENZYMATIC FACE SCRUB

Intended for: gray, underoxygenated skin, with impurities, skin requiring regeneration and detoxification, skin having frequent contact with urban contamination.

Active ingredients: Keratoline, Hyaluronic acid, Magnetite fillings.

Action:

- exfoliates dead skin cells
- smoothes
- moisturizes.

Capacity: 150 g
Index: 137482

NEODYMIUM MAGNET INDEX: 137487

HYALURONIC ENZYMATIC FACE SCRUB

Intended for: every skin type, including dry skin with loss of firmness and signs of aging.

Active ingredients: Low molecular hyaluronic acid, High molecular hyaluronic acid, Trehalose, Papaya extract, Pineapple extract, D-panthenol.

Action:

- delicately removes dead skin cells
- smoothes and moisturizes the skin
- effectively reduces irritation.

Capacity: 150 g
Index: 137456

FINE-GRAINED FACE PEELING

Intended for: normal and dry skin.

Active ingredients: Hyaluronic acid, Milk acid, Urea, Glycerin, Bits of peeling, Acai berry extract.

Action:

- exfoliation,
- removal of impurities
- skin tone equalization
- smoothing.

Capacity: 150 g
Index: 137463

COARSE-GRAINED FACE PEELING

Intended for: mixed, oily and acne skin.

Active ingredients: Urea, Almond acid, Glycerine, Bits of peeling, Cucumber extract, Aloe extract.

Action:

- exfoliation
- removal of impurities
- skin tone equalization
- smoothing.

Capacity: 150 g
Index: 137464

2in1 ENZYMATIC FINE-GRAIN SCRUB WITH PAPAIN AND BROMELAIN

Intended for: sensitive, dry and dehydrated skin.

Active ingredients: Papain, Bromelain, Urea, Avocado Oil.

Action:

- combined enzymatic and mechanical exfoliation
- cornified epidermal cells removed
- the skin is well prepared for the treatment
- smooth and regenerated skin
- leaves the skin radiant and refreshed
- the skin becomes silky soft.

Capacity: 150 g
Index: 137321

ARGAN FACE SCRUB WITH PLANT STEM CELLS

Intended for: dry, combination and sensitive skin.

Active ingredients: PhytoCellTec™ Argan Oil, Olive Oil, Avocado Oil, Sweet Almond Oil, D-panthenol, Vitamin E.

Action:

- removes dead skin cells
- prepares the skin for further stages of the treatment
- intensely nourishes and moisturizes the skin
- makes the skin soft and silky smooth
- smoothes and regenerates the skin
- brightens and refreshes the skin.

Capacity: 150 g
Index: 137309

ENZYMATIC FACE SCRUB

Intended for: dry, sensitive skin with dilated capillaries.

Active ingredients: Keratoline, Aloe, Hydromanil™.

Action:

- removes dead epidermal cells, stimulates microcirculation
- detoxifies the skin and improves the future absorption of active ingredients
- strengthens and firms the skin
- offers a smoothing, moisturizing, relaxing and calming effect.

Capacity: 150 g
Index: 137007

FACE SCRUB WITH JOJOBA MICROCAPSULES

Intended for: all skin types.

Active ingredients: Sweet Almond Oil, Laminaria Algae, Jojoba Microparticles.

Action:

- removes dead epidermal cells
- detoxifies the skin
- stimulates microcirculation
- strengthens, smoothes the skin and makes it more flexible
- improves the future absorption of active ingredients.

Capacity: 150 g
Index: 137008

ALGAE MASKS

SOOTHING ALGAE MASK FOR BELLY AND BREASTS

Intended for:
skin in need of regeneration – tight, dry. Skin itching, burning sensation and discomfort. Product recommended for women during pregnancy and puerperium.

Active ingredients:
Diatomaceous Earth, Allantoin, Silk Oatmeal, Beta-glucan, Algae, Spirulina, Goat Milk.

Action:

- moisturizes
- soothes
- relieves discomfort tension, itching, burning.

Capacity: 500 g
Yield: 10 treatments
Index: 137568

NORMALIZING FACE ALGAE GEL MASK NETTLE & MELISSA EXTRACT

Intended for:
oily, mixed skin with imperfections.

Active ingredients:
Green Clay, Niacinamide, Nettle and Melissa Extract.

Action:

- reduces visible imperfections
- normalizes the skin.

Capacity: 200 g
Yield: 10 treatments
Index: 137490
Refill pckg. Index: 137503

REFRESHING FACE ALGAE GEL MASK APPLE BLOSSOM

Intended for:
gray, tired, under-oxygenated skin.

Active ingredients:
Papain, Bromelain, Betaine, Apple Tree Fruit extract.

Action:

- brightens and refreshes the skin
- unifies skin color.

Capacity: 200 g
Yield: 10 treatments
Index: 137488
Refill pckg. Index: 137501

SMOOTHING FACE ALGAE GEL MASK ORCHID

Intended for:
dry, rough, irritated skin.

Active ingredients:
Aloe Vera Extract, Sorbitol, Urea, Orchid extract.

Action:

- moisturizes the skin
- soothes skin irritations.

Capacity: 200 g
Yield: 10 treatments
Index: 137491
Refill pckg. Index: 137491

FIRMING FACE ALGAE GEL MASK CHERRY BLOSSOM

Intended for:
dry, dehydrated skin with the first signs of aging.

Active ingredients:
Hyaluronic Acid, Collagen, Trehalose, Cherry Blossom extract.

Action:

- revitalizes the skin
- nourishes and moisturizes.

Capacity: 200 g
Yield: 10 treatments
Index: 137489
Refill pckg. Index: 137502

STRENGTHENING FACE ALGAE GEL MASK VIOLET

Intended for:
delicate, sensitive and capillary skin.

Active ingredients:
Beta-glucan, Rutin, Vitamin C, Tricolor Violet extract.

Action:

- protects the skin against harmful external factors
- calms and soothes irritations.

Capacity: 200 g
Yield: 10 treatments
Index: 137492
Refill pckg. Index: 137505

SOOTHING FACE ALGAE GEL MASK CUCUMBER & ALOE VERA

Intended for:
irritated and very sensitive skin.

Active ingredients:
Alginate, Glucose, Cucumber extract, Aloe extract.

Action:

- soothing irritations
- soothes the skin.

Capacity: 190 g
Yield: 10 treatments
Index: 137467

HYDRATING FACE ALGAE GEL MASK POMEGRANATE

Intended for:
dry and dehydrated skin.

Active ingredients:
Alginate, Glucose, Pomegranate extract.

Action:

- moisturizes dry and dehydrated skin
- nourishes.

Capacity: 190 g
Yield: 10 treatments
Index: 137469

ANTIOXIDANT FACE ALGAE GEL MASK ACAI BERRY

Intended for:
damaged skin with visible effects of photoaging.

Active ingredients:
Alginate, Glucose, Acai berry extract.

Action:

- elimination of free radicals
- rejuvenation
- skin becomes illuminated and more elastic.

Capacity: 190 g
Yield: 10 treatments
Index: 137468

ALGAE FACE MASK WITH UREA

Urea - one of the components of NMF, natural skin moisturizing factor, responsible for its proper hydration. Increases the keratin water binding properties, softens, refreshes, and tones the skin.

Intended for:
dry, irritable skin.

Active ingredients:
Glucose, Urea.
Capacity: 260 g
Yield: 10
Index: 137388

ALGAE FACE MASK WITH GREEN CLAY

Green clay - an ingredient rich in mineral salts and micro-elements. It has strong skin-purifying and mattifying properties. Particularly recommended for care of oily and acne-prone skin.

Intended for:
combination and oily skin prone to acne.

Active ingredients:
Glucose, Green Clay.
Capacity: 260g
Yield: 10
Index: 137380

ALGAE FACE MASK WITH ACTIVATED CHARCOAL

Activated charcoal - has strong absorption properties - perfectly cleanses the skin of toxins and pollutants.

Intended for: under-oxygenated, polluted skin requiring detoxification.

Active ingredients: Glucose Activated charcoal, Kaolin.

Capacity: 260 g
Yield: 10 treatments
Index: 137382

ALGAE FACE MASK WITH ZINC - CRYO EFFECT

Zinc - prevents infections, reduces excessive secretion of sebum. Soothes irritations and skin inflammation.

Intended for: sensitive skin, with capillaries, skin irritated after cosmetic treatments (e.g. manual skin cleansing, microdermabrasion).

Active ingredients: Glucose, Zinc, Menthol.
Capacity: 260 g
Yield: 10 treatments
Index: 137384

ALGAE FACE MASK WITH PAPAYA AND PINEAPPLE

Extracts from papaya and pineapple contain enzymes Papain and Bromelain with keratolytic and cleansing properties, as well as sugars, amino acids, skin softening and hydrating minerals which gently lighten and brighten the skin.

Intended for: skin that requires lightening, lacking in radiance, with discolorations.

Active ingredients: Glucose, Papain, Bromelain.
Capacity: 260 g
Yield: 10 treatments
Index: 137386

COLLAGEN FACE ALGAE MASK

Intended for: skin requiring moisturizing and lifting.

Active ingredients: Collagen, Vitamin E in microcapsules, Alginate (100% brown algae extract).

Action:

- firms and shapes
- improves skin tone
- smoothes fine lines
- supports the synthesis of collagen
- moisturizes and regenerates the skin.

Capacity: 190 g
Yield: 10 treatments
Index: 137305
Refill pkg. Index: 137306

FACE ALGAE MASK WITH GHASSOUL CLAY

Intended for: mixed skin.

Active ingredients: Moroccan Ghassoul Clay, Alginate (100% brown algae extract).

Action:

- absorbs noxious substances and toxins from the skin
- removes dead epidermal cells
- improves blood circulation and oxygenates the skin
- contracts dilated pores
- regenerates dull and tired skin to make it look fresh and radiant
- improves the face outline
- supplements elementary substances which are essential for the skin beauty and health: magnesium, silicon, calcium and selenium.

Capacity: 190 g
Yield: 10 treatments
Index: 137119
Refill pkg. Index: 200079

ALOE FACE ALGAE MASK

Intended for: all skin types that need to be regenerated.

Active ingredients: Aloe, Alginate (100% brown algae extract).

Action:

- strengthens skin immune system
- improves skin suppleness and elasticity (visible lifting effect)
- alleviates inflammatory conditions
- supports the treatment of seborrhoea and acne
- provides a long-lasting moisturising effect
- revitalizes tired and dull skin
- brightens and smoothes the skin.

Capacity: 190 g
Yield: 10 treatments
Index: 137154
Refill pkg. Index: 137161

FACE ALGAE MASK WITH SPIRULINA

Intended for: dull complexion lacking oxygen (e.g. smokers).

Active ingredients: Spirulina Algae, Green Tea Aroma, Alginate (100% brown algae extract).

Action:

- provides powerful skin revitalization
- detoxifies the skin
- delivers deep hydration (polysaccharides from the Spirulina algae balance water loss from the skin)
- strengthens and firms the skin
- reduces skin redness and alleviates irritations
- tones and lifts the skin (lifting).

Capacity: 190 g
Yield: 10 treatments
Index: 137012
Refill pkg. Index: 137071

VITAMIN FACE ALGAE MASK

Intended for: all skin types.

Active ingredients: Vitamin E, Vitamin C, Alginate (100% brown algae extract).

Action:

- restores skin vitality, freshness and smoothness
- reduces the levels of noxious, free radicals
- delivers intensive oxygenation, regeneration, hydration, and nourishment
- balances epidermal exfoliation
- tones and lifts the skin (lifting)
- repairs the structure of mature skin.

Capacity: 190 g
Yield: 10 treatments
Index: 137082
Refill pkg. Index: 137086

CRANBERRY FACE ALGAE MASK

Intended for: sensitive, dry, irritated skin.

Active ingredients: Micronized Canadian Cranberry Fruits, Alginate (100% brown algae extract).

Action:

- protects DNA and stimulates cutaneous immunology
- nourishes and firms the skin
- provides long-lasting hydration
- delivers natural vitamins and minerals
- prevents skin ageing process
- delivers an instant skin firming and lifting effect
- improves the skin tone
- has an antibacterial effect.

Capacity: 190 g
Yield: 10 treatments
Index: 137131
Refill pkg. Index: 200135

ALGAE MASKS

ANTIOXIDANT FACE ALGAE MASK WITH MATCHA
Intended for:
mature skin, lacking of firmness and elasticity.
Active ingredients:
Matcha, Aloe, Trehalose, β -Glucan.
Action:
• strengthens the skin
• detoxifies.
Capacity: 200 g
Yield: 10 treatments
Index: 137574

ENERGIZING FACE ALGAE MASK WITH ACEROLA
Intended for:
skin capillaries, sensitive, prone to redness.
Active ingredients:
Acerola, Emblica, Powdered Cranberry.
Action:
• refreshes the skin
• soothes, alleviates irritations.
Capacity: 200 g
Yield: 10 treatments
Index: 137576

REVITALIZING FACE ALGAE MASK WITH CACAO
Intended for:
tired skin requiring revitalization.
Active ingredients:
Cocoa, Marine Collagen, Betaine, Guarana.
Action:
• revitalizes the skin
• relaxes.
Capacity: 200 g
Yield: 10 treatments
Index: 137577

HARMONIZING FACE ALGAE MASK WITH TURMERIC
Intended for:
mixed, oily skin.
Active ingredients:
Turmeric, Yellow Clay, Indian Nettle.
Action:
• soothes
• calms the skin.
Capacity: 200 g
Yield: 10 treatments
Index: 137575

MINERALIZING FACE ALGAE MASK WITH CHLORELLA
Intended for:
dry, dehydrated skin.
Active ingredients:
Chlorella, Spirulina, Hyaluronic Acid, Trehalose.
Action:
• refreshes the skin
• moisturizes.
Capacity: 200 g
Yield: 10 treatments
Index: 137578

ANTI-AGING FACE SHEET MASK

Intended for:
mature skin, requiring revitalization, dry, with loss of firmness and elasticity, wrinkles.

Active ingredients:
Peptides, Organic Silica, Marine Collagen, Elastin, Ginseng Extract, Hyaluronic Acid, Trehalose.

Action:

- regenerates and revitalizes mature skin
- moisturizes.

Capacity: 25 g
Yield: 1 treatment
Index: 137600

CALMING FACE SHEET MASK

Intended for:
sensitive, dry, dehydrated, overactive and irritated skin.

Active ingredients:
Cherry Fruit Extract, Orchid Complex, D-panthenol, Allantoin, Aloe Extract, Rose Water, Hyaluronic Acid.

Action:

- soothes and relieves irritation
- moisturizes
- helps to reduce redness.

Capacity: 25 g
Yield: 1 treatment
Index: 137596

REGENERATING & MOISTURIZING FACE SHEET MASK

Intended for:
skin in need of regeneration, gray, tired, irritated, in contact with urban contamination.

Active ingredients:
Snail Slime Extract, Fermented Yeast Filtrate, Trehalose, Sorbitol, Marine Minerals, Hyaluronic Acid.

Action:

- regenerates and moisturizes the skin
- supports the natural barrier functions of the skin
- soothes.

Capacity: 25 g
Yield: 1 treatment
Index: 137598

BRIGHTENING FACE SHEET MASK

Intended for:
gray, dull, tired skin, with uneven color, discoloration, requiring illumination, brightening.

Active ingredients:
Vitamin C, Ascorbic Acid, Emblica, Orange Blossom Hydrolate, Vitamin B3, Mandelic Acid.

Action:

- brightens the skin
- adds shine, reduces signs of fatigue
- helps to reduce discoloration.

Capacity: 25 g
Yield: 1 treatment
Index: 137599

NORMALIZING FACE SHEET MASK

Intended for:
combination, oily, acne, with imperfections, contaminated skin.

Active ingredients:
Mandelic Acid, Niacinamide, Witch Hazel, Tea Tree Oil, Hydro-Active Azelaic Acid.

Action:

- helps to normalize the complexion and fight against imperfections
- helps to reduce inflammation.

Capacity: 25 g
Yield: 1 treatment
Index: 137597

EYE AREA CARE / MASSAGE PRODUCTS

ENERGIZING CAFFEINE EYE CREAM

Intended for:
tired, under-oxygenated skin, wrinkles around the eyes, dark circles, puffy eyes.

Active ingredients:
Caffeine, Eyebright Extract, Ginseng Extract, Marine Minerals, Hyaluronic Acid.

Action:

- reduces dark circles
- reduces puffy eyes
- has anti-wrinkle effect.

Capacity: 15 ml
Yield: 25 treatments
Index: 137510

PEPTIDE FIRMING SERUM FOR THE EYE AREA

Intended for:
every skin type in the eyes area (especially skin and sensitive skin), dark circles and swelling, mimic wrinkles, loss of firmness.

Active ingredients:
PhytoCellTec™ Alp Rose, Biomimetic Peptides, Hyaluronic Acid, Lactobionic Acid, Argireline™.

Action:

- contains substances that assist in reduction of facial muscle contractions
- stimulates the production of new collagen and elastin
- regenerates, smooths, firms the skin
- protects and enhances the vitality of skin stem cells
- reduces wrinkles.

Capacity: 30 ml
Index: 137330

PEEL-OFF ALGAE MASK WITH ROSE PETALS FOR THE EYE AREA

Intended for:
every skin type in the eyes area (especially skin and sensitive skin), dark circles and swelling, mimic wrinkles, loss of firmness.

Active ingredients:
PhytoCellTec™ Alp Rose, Alginate.

Action:

- gives the feeling of a cold compress
- eliminates signs of fatigue
- reduces dark circles, swelling and redness
- improves microcirculation
- calms down the operation of blood vessels.

Capacity: 90 g
Yield: 10 treatments
Index: 137332

PCORRECTIVE GEL-CREAM FOR WRINKLES AROUND THE EYES WITH PEPTIDES

Intended for:
every skin type in the eyes area (especially skin and sensitive skin), dark circles and swelling, mimic wrinkles, loss of firmness.

Active ingredients:

Action:

- illuminates and restores uniform coloring
- reduces mimic wrinkles and lines
- smooths and hydrates
- fills out wrinkles and fine lines
- limits the signs of fatigue, refreshes
- reduces swelling and dark circles
- light formula - easily absorbed
- perfect as base under the makeup.

Capacity: 50 ml
Index: 137333

EYE CREAM

Intended for:
smoothing and brightening.

Active ingredients:
Dermochlorella, Powdered Pearl, Vitamin A of plant origin.

Action:

- reduces the existing wrinkles and prevents the formation of new ones
- softens the skin around the eyes and makes it more flexible
- improves and enriches eye care treatments
- protects the skin around the eyes against UV radiation - SPF 15.

Capacity: 50 ml
Index: 137208

EYE WRINKLE FILLER

Intended for:
mature skin.

Active ingredients:
Hyaluronic Acid
Microspheres, Vitamin E.

Action:

- fills in the wrinkles from the inside
- stimulates regeneration of collagen fibres
- strengthens and moisturizes the skin under the eyes
- protects it against free radicals.

Capacity: 50 ml
Index: 137133

2IN1 GLOW RESTORING FACE MASSAGE MULTI- CONCENTRATE

Intended for:
tired, dull skin, devoid of glow, wrinkles, skin exposed to harmful external factors, skin affected by premature aging and oxidative stress.

Active ingredients:
Centella Asiatica, Fermented Yeast Filtrate, Anti-pollution System, Green Tea Hydrolate, Extracts: Bamboo, Ginseng root, Cherry, Aloe Vera, Vitamin C, Hyaluronic Acid.

Action:

- ensuring a perfect slip during massage
- moisturizing and soothing effect
- helps fighting against inflammaging
- restoration of natural barrier functions of the skin
- has antioxidant properties.

Capacity: 145 g
Yield: 5 treatments
Index: 137561

NOURISHING MASSAGE

Intended for:
all skin types, including skin requiring regeneration.

Active ingredients:
Hyaluronic Acid, Marula Oil, Babassu, Avocado Oil, Vitamin A, Vitamin E.

Action:

- slide effect
- regenerates the skin
- smooths epidermis
- prevents skin aging
- supplements lipid coat
- antioxidant treatment.

Capacity: 500 ml
Index: 137470

CAVIAR FACE MASSAGE CREAM

Intended for:
all skin types.

Active ingredients:
Caviar, Macadamia Oil, Kukui Oil.

Action:

- relaxes face muscles, provides comfort and soothing
- stimulates regeneration of epidermal cells
- stimulates the skin and delivers a new energy boost
- provides intensive hydration
- smooths the face lines
- adds youth smoothness and freshness to the skin.

Capacity: 175 ml
Index: 137107

REGENERATING & VITAMIN OLIVE BODY MASSAGE

Intended for:
all skin types, including skin requiring regeneration and affected by stretch marks.

Active ingredients:
Marula Oil, Babassu Oil, Vitamin A, Vitamin E.

Action:

- slide effect
- regenerates the skin
- hydrates
- nourishes
- anti-aging treatment.

Capacity: 500 ml
Index: 137471

LUXURY OLIVE BODY MASSAGE

Intended for:
cold and warm body massage.

Active ingredients:
Olive Oil, Vitamin E.

Action:

- intensely moisturizes
- softens the skin
- improves blood circulation
- relaxes
- stimulates fat tissue reduction process.

NOTE! The product can be heated in a porcelain aromatherapy fireplace (maximum heating temperature 35° C)
Capacity: 500 ml
Index: 137338

WATERMELON MASSAGE BUTTER

Intended for:
relaxation and cellulite reduction.

Active ingredients:
Watermelon Extract, Avocado Oil, Shea Butter (Karite).

Action:

- reduces cellulite
- delivers vitamins, unsaturated fatty acids, anti-oxidisers
- leaves the skin deeply hydrated
- improves blood circulation
- strengthens and nourishes the epidermis
- offers relaxation and well-being.

Capacity: 500 ml
Index: 137261

2 IN 1 ULTRASONIC PHOTON MASSAGER

A multifunctional device that combines two functions:

- ultrasounds
- hoton therapy.

Action:

- use in face and body treatments
- works without harmful UV radiation
- emits three types of light (blue, red, green)
- increases the effectiveness of the treatment by supporting the transport system of active substances to the deep layers of the skin.

Index: 137358

2 IN 1 MINI RF + NEEDLE-FREE MESOTHERAPY

The multifunctional device combines the effects of radio waves and needle-free mesotherapy combined with LED light.

Detailed device information is included with each device in the kit

Index: 137428

DNS ROLLER FOR COSMETIC MICRONEEDLE MESOTHERAPY

Intended for:

Device intended for micropuncturing of the skin in a cosmetic microneedle mesotherapy treatment for face and body.

Action:

- effective transepidermal transport of active ingredients deep into the skin
- stimulation of the natural collagen and elastin production in the skin
- improvement of skin repair processes
- reactivation of skin functions.

Lengths of the roller needles:

- a) ace 0.3 mm (Index: 1277342), 0.5 mm (Index: 137343), 0.75 mm (Index: 137344), 1.0 mm (Index: 137345),
- b) body: 1,5 mm, 2 mm.

CONTACT-GEL FOR ULTRASOUND TREATMENTS

Intended for:

Conductive gel, necessary for the proper performance of treatments using cosmetic devices: sonophoresis (ultrasounds), iontophoresis, needle-free mesotherapy, RF radio frequency, ultrasonic liposuction (cavitation), 2in1 Photon Ultrasonic Massager.

Active ingredients:

Hyaluronic acid, Glycerin.

Action:

- provides very good conductivity of the ultrasonic waves
- it is a product ready to use, facilitates the introduction of active substances into the deeper layers of the skin, providing a steady glide
- enriched with Hyaluronic Acid, additionally moisturizes the skin.

Capacity: 500 ml
Index: 137362

RF CREAM FOR RADIOFREQUENCY TREATMENTS

Intended for:

every skin type, face and body, massage cream, necessary for the proper performance of the radiofrequency treatment procedure (RF).

Active ingredients:

Hyaluronic Acid, Vitamin E, Avocado Oil, Coconut Oil, Silver.

Action:

- ensures continuous glide
- guarantees comfort of the procedure
- nourishes and moisturizes the skin.

Capacity: 500 ml
Index: 137403

SOOTHING FACE MASK WITH WHITE CLAY

Intended for:

dry, sensitive, couperose skin.

Active ingredients:

White Clay, Chestnut Extract, Allantoin.

Action:

- reduces skin redness and irritations
- soothes and calms skin with dilated capillaries
- provides optimum skin moisturization and oxygenation
- detoxifies the skin and helps to remove other impurities
- provides a relaxing and calming effect
- strengthens and firms the epidermis.

Capacity: 150 ml
Index: 137024

PROTECTIVE FACE CREAM SPF 50

Intended for:

sensitive skin, with discoloration problems, after depigmentation treatments.

Active ingredients:

Boswellia Serrata, Hyaluronic Acid, Karite Butter.

Action:

- calms and soothes irritations
- smooths and improves skin hydration
- provides effective protection against UVA and UVB radiation, SPF 50.

Capacity: 100 ml/50 ml
Index: 137246/137250

LIGHT CREAM WITH TRIPLE ACTION OF AHA AND PHA ACIDS

Intended for:

mixed skin, oily skin, prone to acne.

Active ingredients:

Mandelic Acid, Lactobionic Acid, Vitamin B3, Argan Oil, D-panthenol.

Action:

- reduction of telangiectasia, acne scars and discolorations
- hydration and matting
- antiradical and anti-wrinkle effect.

Capacity: 100 ml / 50 ml
Index: 137506 / 137307

LUXURY MOISTURIZING FACE CREAM SPF 15

Intended for:

all skin types, especially dry and sensitive skin.

Active ingredients:

Coral Algae Extract, Hyaluronic Acid, Vitamin E, Soya Phytosterols.

Action:

- reduces expression lines
- delivers the feeling of gentleness and skin comfort
- restores the defensive lipid barrier of the skin
- improves skin firmness, suppleness and elasticity
- provides a long-lasting hydration
- revitalizes the skin
- scavenges free radicals
- offers effective protection against UVA and UVB radiation, SPF 15.

Capacity: 100 ml
Index: 137056

CASHMERE FACIAL FLUID

Intended for:

all skin types.

Active ingredients:

Colloidal Gold, Hyaluronic Acid, Microspheres, 3D Silicone Micro-Net.

Action:

- perfectly conceals skin imperfections
- offers long-lasting hydration
- reduces wrinkles
- prolongs the durability of make-up.

Capacity: 50 ml
Index: 137070

OTHER PRODUCTS

DETOXIFYING AND CLEANSING BUBBLE FACE MASK WITH ACTIVATED CARBON

Intended for:
grey, under-oxygenated skin, with impurities, having frequent contact with urban contamination.

Active ingredients:
Green Tea Leaf Extract, Active Charcoal, Anti-Pollution Complex.

Action:

- cleanses and detoxifies
- refreshes the skin.

Capacity: 50 g
Yield: 5 treatments
Index: 137602

BRIGHTENING AND CLEANSING BUBBLE FACE MASK WITH CLAYS

Intended for:
grey, tired skin with uneven skin tone, requiring illumination, with discoloration.

Active ingredients:
Orange Flower Extract, Vitamin C, Trehalose, White Clay, Yellow Clay.

Action:

- cleanses and detoxifies
- illuminates the skin.

Capacity: 50 g
Yield: 5 treatments
Index: 137601

SHINE EFFECT REGENERATING BODY BALM

Intended for:
all skin types, including skin requiring regeneration, shining and affected by stretch marks.

Active ingredients:
Illuminating Particles, Papaya Extract, Pineapple Extract, Marula Oil, Babassu Oil, Microalgae Oil, Seaweed Extract.

Action:

- regenerates
- evens coloring
- illuminates
- reduces the appearance of stretch marks
- nourishes
- anti-aging treatment
- moisturizes
- tones and firms the skin.

NOTE!
Product also recommended to be used on bust.
Capacity: 500 ml
Index: 137473

REGENERATING BODY SCRUB

Intended for:
all skin types, including skin requiring regeneration and affected by stretch marks.

Active ingredients:
Papaya Extract, Pineapple Extract, Emblica, Marula Oil, Babassu Oil.

Action:

- exfoliates dead skin
- stimulates microcirculation
- soothes, relaxes, gently nourishes the skin
- slows the aging process of the skin
- prepares for subsequent treatments.

NOTE!
Product also recommended to be used on bust.
Capacity: 550 g
Index: 137466

REGENERATING BODY BALM WITH VITAMIN COCKTAIL

Intended for:
all skin types, including skin requiring regeneration and affected by stretch marks.

Active ingredients:
Papaya Extract, Pineapple Extract, Vitamins: E, C, B3, B5, B6, Marula Oil, Babassu Oil, Seaweed and Laminaria Algae Extract, Coral Algae, Collagen, Dry Seawater.

Action:

- regenerates
- reduces the appearance of stretch marks
- antioxidant treatment
- nourishes
- anti-aging treatment
- hydrates
- improves firmness and elasticity of the skin.

NOTE!
Product also recommended to be used on bust.
Capacity: 490 ml
Index: 137472

ULTRA NOURISHING BODY LOTION

Intended for:
all skin types, skin in special need of nourishing.

Active ingredients:
Honey, Royal Jelly, Coconut oil, Cocoa butter, Vitamin E.

Action:

- nourishes the skin.

Capacity: 500 ml
Index: 137410

ULTRA NOURISHING BODY SCRUB

Intended for:
all skin types, skin in special need of nourishing.

Active ingredients:
Honey, Royal Jelly.

Action:

- nourishes the skin.

Capacity: 550 g
Index: 137407

ULTRA MOISTURIZING BODY LOTION

Intended for:
all skin types, skin in special need of hydration.

Active ingredients:
Acai Berries, Avocado oil, Betaine, Olive oil, Ginkgo Biloba extract.

Action:

- moisturizes the skin.

Capacity: 500 ml
Index: 137411

ULTRA MOISTURIZING BODY SCRUB

Intended for:
all skin types, skin in special need of moisturizing.

Active ingredients:
Acai Berries, Ground coconut shell.

Action:

- moisturizes the skin.

Capacity: 550 g
Index: 137408

ANTI-CELLULITE ULTRA FIRING BODY LOTION

Intended for:
all skin types, skin in special need of firming.

Active ingredients:
Laminaria Algae, Centella Asiatica, Abyssinian oil, Caffeine, Coconut oil.

Action:

- firms the skin.

Capacity: 500 ml
Index: 137412

ANTI-CELLULITE ULTRA FIRING BODY SCRUB

Intended for:
all skin types, skin in special need of firming.

Active ingredients:
Laminaria Algae, Centella Asiatica.

Action:

- firms the skin.

Capacity: 550 g
Index: 137409

ENHANCE AND PROLONG EFFECTS OF TREATMENTS BY RECOMMENDING BIELENDA PROFESSIONAL HOME CARE COSMETICS

Complex preparations for professional home care are intended for use before and after Bielenda Professional treatments to strengthen the effects of therapy.

FERUL-X

INTENDED FOR:

Skin with discoloration, affected by photoaging, uneven skin tone and texture, skin in need of rejuvenation and brightening.

EFFECT:

Extending and preserving the effects of the FERUL-X treatment, also between treatments in the series.

ACTION:

- Delicate emulsion helps to cleanse the skin very gently and effectively. It does not irritate, does not dry out.
- The cream has a strong antioxidant and moisturizing effect.
- Illuminates and evens out the color.

1 2

1. DELICATE FACE CLEANSING EMULSION, 160 g (Index: 137623)
2. ANTIOXIDANT MOISTURIZING AND CALMING FACE CREAM, 50 ml (Index: 137622)

MICROBIOME PRO CARE

INTENDED FOR:

Sensitive, couperose, dry, dehydrated, irritated skin, requiring regeneration, also problematic, oily, combination skin, weakened e.g. by anti-acne treatments.

EFFECT:

Calm, moisturized skin. Extending and consolidating the effects of the MICROBIOME PRO CARE treatment.

ACTION:

- softening, moisturizing the skin
- help in rebuilding a healthy skin microbiota
- regeneration, strengthening of the natural defense functions of the skin.

1 2

1. BALANCING AND MOISTURIZING FACE CREAM, 50 ml (Index: 137588)
2. MULTIACTIVE BALANCING AND PROTECTING FACE SERUM, 30 ml (Index: 137589)

ACID FUSION 3.0

INTENDED FOR:

Skin with imperfections: excessive sebum secretion, discolorations of various origin, small wrinkles, uneven skin texture.

EFFECT:

Reduced discolorations of various origins, reduction of visibility of inflammation, rejuvenation of the skin.

ACTION:

- reduces discolorations
- evens out skin tone
- slows down skin aging processes
- normalizes sebum secretion
- reduces inflammation.

1 2 3

1. GENTLE FACE GEL SCRUB, 200 g (Index: 137496)
2. MANDELIC ACID SKIN TONER, 200 ml (Index: 137497)
3. ADVANCED IMPERFECTION CORRECTING CREAM, 50 ml (Index: 137495)

POST TREATMENT CARE

INTENDED FOR:

Irritated skin after intensive aesthetic medicine treatments and other intensive dermocosmetic treatments, i.e. micro-needle mesotherapy (roller, dermapen), laser therapy, IPL, RF, acid exfoliation, needle-free mesotherapy, microdermabrasion, as well as for skin exposed to extreme weather conditions (frost, wind, sun).

EFFECT:

Intense regeneration of the skin.

ACTION:

- intense alleviation of irritated skin in the first days after the procedure
- accelerated skin regeneration
- long-lasting relief and moisturization of the skin
- toning redness of the sensitive and irritated skin.

1. REGENERATING & SOOTHING FACE CREAM, 50 ml (Index: 137440)
2. HIGH PROTECTION FACE CREAM SPF 50+ & PA+++, 50 ml (Index: 137441)
3. COVER CREAM SOOTHING TINTED FACE CREAM SPF 25, 50 ml/100 ml (Index: 137443/137507)

ANTI-ACNE PROGRAM

INTENDED FOR:

Combination skin, oily, prone to acne, seborrhea, acne, contaminated skin with enlarged pores, blackheads, blemishes and scars; mature combination complexion, oily, prone to acne, skin with signs of aging.

EFFECT:

Skin without imperfections, regardless of age.

ACTION:

- regulates the secretion of sebum
- reduced blackheads
- exfoliation of dead skin cells
- smoothing and regeneration of the skin
- brightened discolorations
- antibacterial effect.

1. ANTIBACTERIAL MAKE-UP REMOVAL GEL, 200 g (Index: 137413)
2. MICRO EXFOLIATING GEL-TONIC, 200 g (Index: 137377)
3. 2in1 ACTIVE SEBO-REGULATING MOISTURIZING CREAM 20+, 50 ml (Index: 137376)
4. 2in1 ACTIVE ANTI-AGING SEBO-REGULATING CREAM 40+, 50 ml (Index: 137375)

ESSENCE OF ASIA

INTENDED FOR:

Tired, dull skin, devoid of glow, skin exposed to harmful external factors, including free radicals, skin affected by premature aging and oxidative stress.

EFFECT:

Restoring skin's vitality, glow, and youthful appearance.

ACTION:

- protection against the harmful effects of external factors
- protection against free radicals
- moisturization and regeneration
- anti-aging effect.

1. GLOW RESTORING REVITALIZING FACE CREAM SPF 20 , 50 ml (Index: 137563)
2. 5in1 GLOW RESTORING FACE ELIXIR, 50 ml (Index: 137564)

SKIN BREATH

INTENDED FOR:

Tired, gray, underoxygenated, dry and sensitive skin.

EFFECT:

Regeneration, moisturization and oxygenation of the skin.

ACTION:

- illumination and brightening of the skin
- moisturization and regeneration
- reduction of dark circles and puffy eyes.

1. OXYGENATING 2-PHASE FACE SERUM, 30 ml (Index 137511)
2. ENERGIZING OXYGENATING FACE CREAM, 50 ml (Index: 137509)
3. ENERGIZING CAFFEINE EYE CREAM, 15 ml (Index: 137510)

POWER OF NATURE

premium

INTENDED FOR:

Dull, anoxic skin with impurities frequently exposed to deteriorating urban factors. Skin in need of regeneration.

EFFECT:

Deep detoxification and skin regeneration.

ACTION:

- detoxication and lightening of the skin
- deep hydration and improved texture
- restoration of skin barrier
- strong antioxidant action
- restoration and regeneration of the skin.

1. REGENERATING FACE CREAM WITH SNAIL SLIME EXTRACT SPF 15, 50 ml (Index: 137486)
2. REGENERATING AND REJUVENATING FACE SERUM WITH SNAIL SLIME EXTRACT, 30 g (Index: 137485)

HYDRA-HYAL² INJECTION

premium

INTENDED FOR:

Every type of skin, skin with clearly delineated wrinkles, dry skin with symptoms of loss of firmness and elasticity, sensitive skin, skin showing signs of aging.

EFFECT:

Rejuvenated and moisturized skin.

ACTION:

- intense and long-lasting hydration
- smoothing of superficial wrinkles
- increased skin elasticity and firmness
- smoothed skin
- radiant and visibly rejuvenated skin - improvement of the structure and appearance of the skin.

1. HYALURONIC MICELLAR MAKE-UP REMOVER, 200 ml (Index: 137430)
2. HYALURONIC LIFTING FACE MASK, 70 ml (Index: 137431)
3. HYALURONIC FACE CREAM SPF 15, 50 ml (Index: 137429)
4. 1,5% HYALURONIC FACE SERUM IN CREAM, 50 g (Index: 137397)

S.O.S.

essential

INTENDED FOR:

Dilated capillaries, sensitive skin prone to irritation, rosacea.

EFFECT:

Soothed skin, reduced irritations.

ACTION:

- preventing the formation of teleangiectasia
- reduction of redness
- relieving the irritation
- alignment of the skin tone.

1. ENZYMATIC FACE SCRUB, 70 g (Index: 137434)
2. CAPILLARY REPAIR CREAM WITH RUTIN AND VITAMIN C, 50 ml (Index: 137220)
3. CC CORRECTING TINTED FACE CREAM, 50 ml (Index: 137436)
